In recent years, few federal requirements have been as controversial as the mandate for what critics call 'bilingual ballots'. The Voting Rights Act of 1965 included a permanent requirement for language assistance for Puerto Rican voters educated in Spanish and ten years later Congress banned English-only elections in certain covered jurisdictions, expanding the support to include Alaska Natives, American Indians, Asian-language voters and Spanish-language voters. Some commentators have condemned the language assistance provisions, underlying many of their attacks with anti-immigrant rhetoric. Although the provisions have been in effect for over three decades, until now no comprehensive study of them

has been published. This book describes the evolution of the provisions, examining the evidence of educational and voting discrimination against language minorities covered by the Act. Additional chapters discuss the debate over the 2006 amendments to the Voting Rights Act, analysis of objections raised by opponents of bilingual ballots and some of the most controversial components of these requirements, including their constitutionality, cost and effectiveness. Featuring revealing case studies as well as analysis of key data, this volume makes a persuasive and much-needed case for bilingual ballots, presenting a thorough investigation of this significant and understudied area of election law and American political life.

They came to enroll in college programs and college preparatory courses—and to escape, if only temporarily, the daily and ubiquitous indignities suffered under the Jim Crow racial hierarchy. They excelled in their studies and became accomplished in their professional fields. Many went on to both ignite and help lead the explosive civil rights movement. Very few people know their stories—until now. *Haste to Rise* is a book about the incredible resiliency and breathtaking accomplishments of those students. It was written to unearth, contextualize, and share their stories and important lessons with this generation. Along the way we are introduced to dozens of these Jim Crow-era students, including the first African American to win a case before the U.S. Supreme Court, Belford V. Lawson, the lead attorney in *New Negro Alliance v. Sanitary Grocery Co.* (1938), a landmark court battle that safeguarded the right to picket. We also meet one of Lawson's contemporaries, Percival L. Prattis, a pioneering journalist and influential newspaper executive. In 1947, he became the first African American news correspondent admitted to the U.S. House and Senate press galleries. There is also an in-depth look into the life and work of the Institute's founder, Woodbridge Nathan Ferris, a racial justice pioneer who created educational opportunities for women, international students, and African Americans. *Haste to Rise* is a challenge to others to look beyond a university's official history and seek a more complete knowledge of its past. This is American history done right!
