The American Biblioplist

Finally, here is the definitive glossary of the book, offering readers all the terms they will need for thorough understanding of how books are made, the materials they are made of, and how they are described in the bookselling, book collecting, and library worlds. Every key term --- over 1,300 different words --- that could be used in booksellers' catalogs, library records, and collectors' descriptions of their holdings is represented in this dictionary. This authoritative source covers all areas of book knowledge: the book as physical object, typeface terminology, paper, printing, book collecting, book design, bibliography, calligraphy, the language of manuscripts, writing implements, librarianship, legal issues, the parts of a book, and much more. The definitions are supplemented by more than 100 illustrations showing the book as a physical object: parts of books, kinds of illustrations, kinds of printing techniques, tools that librarians, booksellers, and collectors refer to that are used in the making of books, kinds of binding structures and decoration, kinds of paper decoration, and other things.

ABC for Book-collectors

This is a reference work by an international team of scholars covering the book from ancient times to the present day. Introductory essays explore the history and technology of the book and the range of genres. It provides surveys of the book around the world which are followed by over 5,000 A-Z entries.

Australian National Bibliography: 1992

The Book Buyer's Guide

Excerpts from and citations to reviews of more than 8,000 books each year, drawn from coverage of 109 publications. Book Review Digest provides citations to and excerpts of reviews of current juvenile and adult fiction and nonfiction in the English language. Reviews of the following types of books are excluded: government publications, textbooks, and technical books in the sciences and law. Reviews of books on science for the general reader, however, are included. The reviews originate in a group of selected periodicals in the humanities, social sciences, and general science published in the United States, Canada, and Great Britain. - Publisher.
