Tina's Mouth

In the summer of 1900, bands of peasant youths from the villages of north China streamed into Beijing to besiege the foreign legations, attracting the attention of the entire world. Joseph Esherick reconstructs the early history of the Boxers, challenging the traditional view that they grew from earlier anti-dynastic sects, and stressing instead the impact of social ecology and popular culture.

Saints

In 1898 China, Little Bao has had enough of foreign missionaries and soldiers robbing peasants, and he recruits an army of Boxers to fight to free China from its oppressors.

American Born Chinese

Superman

In his latest graphic novel, *Dragon Hoops*, New York Times bestselling author Gene Luen Yang turns the spotlight on his life, his family, and the high school where he teaches. Gene understands stories—comic book stories, in particular. Big action. Bigger thrills. And the hero always wins. But Gene doesn't get sports. As a kid, his friends called him "Stick" and every basketball game he played ended in pain. He lost interest in basketball long ago, but at the high school where he now teaches, it's all anyone can talk about. The men's varsity team, the Dragons, is having a phenomenal season that's been decades in the making. Each victory brings them closer to their ultimate goal: the California State Championships. Once Gene gets to know these young all-stars, he realizes that their story is just as thrilling as anything he's seen on a comic book page. He knows he has to follow this epic to its end. What he doesn't know yet is that this season is not only going to change the Dragons's lives, but his own life as well.

Ask the Passengers

In the comics boom of the 1940s, a legend was born: the Green Turtle. He solved crimes and fought injustice just like the other comics characters. But this mysterious masked crusader was hiding something more than your run-of-the-mill secret identity. The Green Turtle was the first Asian American super hero. The comic had a short run before lapsing into obscurity, but the acclaimed author of *American Born Chinese*, Gene Luen Yang, has finally revived this character in *Shadow Hero*, a new graphic novel that creates an origin story for the Green Turtle. With artwork by Sonny Liew, this gorgeous, funny comics adventure for teens is a new spin on the long, rich tradition of American comics lore.

negative Chinese stereotype, who is ruining his cousin Danny's life with his yearly visits. Their lives and stories come together with an unexpected twist in this action-packed modern fable. *American Born Chinese* is an amazing ride, all the way up to the astonishing climax. *American Born Chinese* is a 2006 National Book Award Finalist for Young People's Literature, the winner of the 2007 Eisner Award for Best Graphic Album: New, an Eisner Award nominee for Best Coloring and a 2007 Bank Street - Best Children's Book of the Year. American Born Chinese

National Book Award Winner! This deeply provocative novel reimagines the past as an eerie place that has startling resonance for readers today. It sounds like a fairy tale. He is a boy dressed in silks and white wigs and given the finest of classical educations. Raised by a group of rational philosophers known only by numbers, the boy and his mother — a princess in exile from a faraway land — are the only persons in their household assigned names. As the boy's regal mother, Cassiopeia, entertains the house scholars with her beauty and wit, young Octavian begins to question the purpose behind his guardians' fanatical studies. Only after he dares to open a forbidden door does he learn the hideous nature of their experiments — and his own chilling role in them. Set against the disquiet of Revolutionary Boston, M. T. Anderson's extraordinary novel takes place at a time when American Patriots rioted and battled to win liberty while African slaves were entreated to risk their lives for a freedom they would never claim. The first of two parts, this deeply provocative novel reimagines the past as an eerie place that has startling resonance for readers today.

Prime Baby

New York Times bestselling author Walter Dean Myers traveled back to his roots in this memoir that is gripping, funny, and ultimately unforgettable. Don't miss this memoir by a former National Ambassador of Books for Young People! As a boy, Myers was quick-tempered and physically strong, always ready for a fight. He also read voraciously—he would check out books from the library and carry them home, hidden in brown paper bags in order to avoid other boys' teasing. He aspired to be a writer (and he eventually succeeded). But as his hope for a successful future diminished, the values he had been taught at home, in school, and in his community seemed worthless, and he turned to the streets and to his books for comfort. Here, in his own words, is the story of one of the most important voices of our time.

The Shadow Hero

In the tradition of Persepolis and American Born Chinese, a wise and funny high school heroine comes of age. Tina M., sophomore, is a wry observer of the cliques and mores of Yarborough Academy, and of the foibles of her Southern California intellectual Indian family. She's on a first-name basis with Jean-Paul Sartre, the result of an English honors class assignment to keep an "existential diary." Keshni Kashyap's compulsively readable graphic novel packs in existential high school drama—from Tina getting dumped by her smart-girl ally to a kiss on the mouth (Tina's mouth, but not technically her first kiss) from a cute skateboarder, Neil Strumminger. And it memorably answers the pressing question: Can an English honors assignment be one fifteen-year-old girl's path to enlightenment?

Bad Boy

In *Racial Melancholia, Racial Dissociation* critic David L. Eng and psychotherapist Shinhee Han draw on case histories from the mid-1990s to the present to explore the social and psychic predicaments of Asian American young adults from Generation X to Generation Y. Combining critical race theory with several strands of psychoanalytic thought, they develop the concepts of racial melancholia and racial dissociation to investigate changing processes of loss associated with immigration, displacement, diaspora, and assimilation. These case studies of first- and second-generation Asian Americans deal with a range of difficulties, from depression, suicide, and the politics of coming out to broader issues of the model minority stereotype, transnational adoption, parachute children, colorblind discourses in the United States, and the rise of Asia under globalization. Throughout, Eng and Han link psychoanalysis to larger structural and historical phenomena, illuminating how the study of psychic processes of individuals can inform investigations of race, sexuality, and immigration while creating a more sustained conversation about the social lives of Asian Americans and Asians in the diaspora.
