information on available tests and specific test bibliographies is valuable, the greatest service which Tests in Print can perform is to encourage test users to choose tests more wisely by consulting the MMY test reviews, the excerpted test reviews from journals, and the professional literature on the construction, use, and validity of the tests being considered. Indexes of titles, classified subjects, names, and scores, as well as a publishers directory and index are included, with notations for out-of-print instruments. Information is given for tests in a wide range of areas, including education, psychology, counseling, management, health care, career planning, sociology, personnel, child development, social science, and research. Tests in Print V also provides a comprehensive index to the Mental Measurements Yearbook by directing readers to the appropriate volume or volumes for reviews of specific tests.
