5 Steps to a 5 500 AP Chemistry Questions to Know by Test Day, Third Edition

Chemistry definitions, formulas, and structures, organized according to the College Board's six "big ideas" for AP Chemistry, are presented in question form on more than 500 separate flash cards, with explanations and chemical reactions indicated on the reverse side. The cards measure 4 1/2" x 2 3/4" and have a punch-hole in one corner that accommodates an enclosed metal key-ring-style card holder. The ring allows students to arrange the flash cards in any sequence that suits their study needs. Updated to reflect the brand new AP Chemistry exam that will be administered for the first time in May 2014, these cards are a valuable study aid, whether used alone or in tandem with Barron's AP Chemistry review book. **BONUS!** An exclusive online exam included with the purchase of the flash cards.

5 Steps to a 5: AP Chemistry 2020

Presents a multifaceted model of understanding, which is based on the premise that people can demonstrate understanding in a variety of ways.

with co-author, Kenneth Goldsby from Florida State University, adding variations to the 11th edition. The organization of the chapter order has changed with nuclear chemistry moving up in the chapter order. There is a new problem type - Interpreting, Modeling, and Estimating - fully demonstrating what a real life chemist does on a daily basis. The authors have added over 340 new problems to the book. The new edition of "Chemistry" continues to strike a balance between theory and application by incorporating real examples and helping students visualize the three-dimensional atomic and molecular structures that are the basis of chemical activity. An integral part of the text is to develop students' problem-solving and critical thinking skills. The 11th edition continues to deliver the integration of tools designed to inspire both students and instructors. Effective technology is integrated throughout the book.
