Miss Julia Delivers the Goods

A 2015 William C. Morris YA Debut Award Finalist
Magical realism, lyrical prose, and the pain and passion of human love haunt this hypnotic generational saga. Foolish love appears to be the Roux family birthright, an ominous forecast for its

most recent progeny, Ava Lavender. Ava — in all other ways a normal girl — is born with the wings of a bird. In a quest to understand her peculiar disposition and a growing desire to fit in with her peers, sixteen-year old Ava ventures into the wider world, ill-prepared for what she might discover and naive to the twisted motives of others. Others like the pious Nathaniel Sorrows, who mistakes Ava for an angel and whose obsession with her grows until the night of the summer solstice celebration. That night, the skies open up, rain and feathers fill the air, and Ava's quest and her family's saga build to a devastating crescendo. First-time author Leslye Walton has constructed a layered and unforgettable mythology of what it means to be born with hearts that are tragically, exquisitely human.

The Upcycle

Reiki, a technique for stress reduction and relaxation allows everyone to tap into an unlimited supply of life force energy to improve health and enhance the quality of life.

A Manual of Ugaritic

A fresh and funny twist on Snow White from the author of *Cindy Ella* and *Geek Charming!* The ideal L.A. fairy tale for fans of *Once Upon a Time* and *L.A. Candy Simone* never saw herself as the "cute girl"—she was always the chunky smartmouth. But after a year of avoiding her wicked almost-stepmonster through Zumba class, Simone's now sporting a whole new retro style. And people keep acting oddly. One thing: her stepmonster seems to be trying to accidentally kill her, or at least fatten her back up. And so when Simone's brother offers to let her move in with him and his six roommates for the summer, Simone jumps at the chance for some normalcy. Only living with seven very different college boys isn't exactly going to help her land her very own happily ever after . . .

“If you have yet to add Liu to your must-read list, you’re doing yourself a disservice.” —Booklist When it comes to bold originality and pure storytelling skill, few authors of popular fiction can compare with the remarkable Marjorie M. Lui—and in the realm of paranormal romance, no one is better! With *Soul Song*, the sensational New York Times bestselling superstar brings readers another marvelous tale of passion and otherworldly occurrences centered around the mysterious Dirk and Steele Detective Agency—as a tormented young woman with the precognitive power to foresee terrible futures must place her own fate in the hands of a mesmerizing prince of the sea. A master at creating unforgettable love stories featuring shapeshifters, telekinetics, and extraordinary supernatural beings, Lui has earned herself a legion of fans, and *Soul Song* will merely add to their ranks. Christine Feehan, author of *Dark Prince* and one of the biggest names in paranormal romance, promises that, “anyone who loves my work should love hers.”

“More than anything else technology creates our world. It creates our wealth, our economy, our very way of being,” says W. Brian Arthur. Yet despite technology’s irrefutable importance in our daily lives, until now its major questions have gone unanswered. Where do new technologies come from? What constitutes innovation, and how is it achieved? Does technology, like biological life, evolve? In this groundbreaking work, pioneering technology thinker and economist W. Brian Arthur answers these questions and more, setting forth a boldly original way of thinking about technology. *The Nature of Technology* is an elegant and powerful theory of technology’s origins and evolution. Achieving for the development of technology what Thomas Kuhn’s *The Structure of Scientific Revolutions* did for scientific progress, Arthur explains how transformative new technologies arise and how innovation really works. Drawing on a wealth of examples, from historical inventions to the high-tech wonders of today, Arthur takes us on a mind-opening journey that will change the way we think about technology and how it structures our lives. *The Nature of Technology* is a classic for our times.

Observatory Mansions was once the Orme family's ancestral home, a magnificent residence with beautiful grounds. Now it is a crumbling apartment block, stranded on a roundabout and inhabited by eccentrics. Francis Orme, an odd little man who makes a living as a human statue in the centre of the decaying city, lives in Observatory Mansions with his parents and the other equally maladjusted misfits, all of them taking comfort in their solitude and curious harmony. In the cellar is Francis' treasured Exhibition. Carefully catalogued are all the items he has ever stolen. But the arrival of a new resident upsets the delicate balance of Observatory Mansions and Francis finds himself taking drastic measures to protect the secrets

of his past and the sanctity of his collection.

Falling for Her Soldier

The Strange and Beautiful Sorrows of Ava Lavender

How do you keep the people you care about safe from enemies you can't remember? Ten years ago, Nate Garrett awoke on a cold warehouse floor with no memory of his past and the only clues to his identity a piece of paper with his name on it and a propensity toward magic. Now he's a powerful sorcerer and a successful thief for hire, but it turns out that those who stole his memories aren't done with him yet. When they cause a job to go bad, threatening a sixteen-year-old girl, Nate swears to protect her. But with his enemies closing in and the barrier holding back his memories beginning to crumble, Nate is forced to confront his forgotten life in the hope of stopping an enemy he can't remember. *Crimes Against Magic* is a dark, fast-paced urban fantasy torn between modern-day London and fifteenth-century France.

Soul Song

Ex-ballerina Ellie Bell has twenty-four days left until her self-imposed man-less year is up. No more falling for the wrong kind of guy—charming, sexy, bad. Why can't she find someone sweet like Charlie, her soldier pen pal? His e-mails meant the world to her, and she can't stop thinking about him until she meets Hunter, whose muscles and cocky smile threaten to have her relapsing. Before Charlie "Big Game Hunter" Johansson's last tour of duty, he'd gone through women like crazy. But after connecting on a real, emotional level via letters with his best friend's sister, Charlie's ready for a relationship—with Ellie. But then her brother introduces him as Hunter. Proving he's no longer a player by becoming her dance partner for an Army benefit seems like it could convince both siblings he's changed. Except the harder he falls for Ellie, the harder it is to come clean. Can he convince her to fall for the real him before it's too late? Reiki: The Healing Touch

A professor of literature for over thirty years, Dr. James W. Thomas takes us on a tour through the Potter books in order to enjoy them in different ways upon subsequent readings. Re-readers will be pleasantly surprised at what they may have missed in the books and at what secrets Rowling has hidden for us to uncover as we revisit these stories. The professor's informal and often lighthearted discussions focus on puns, humor, foreshadowing, literary allusions, narrative techniques, and other aspects of the Potter books that are hard-to-see on the hurried first or fifth reading. Dr. Thomas's brilliant but light touch proves that a "serious" reading of literature can be fun. --.--.--.--.--. [recommndation]-- "What do you read after HARRY POTTER? Finally, there's a satisfying answer - you read REPOTTING HARRY POTTER for a whole new depth of appreciation and enjoyment. This book allows anyone intimidated by literature classes to sneak a seat in a class

with one of those professors every student loves. You'll come away with a new depth of knowledge of Rowling's epic but also with a list of related literature you will want to read; great insights for aspiring writers too." Connie Neal, author of THE GOSPEL ACCORDING TO HARRY POTTER

In the Land of White Death

As voters articulate their judgments of the parties and leaders in their fifth democratic election, Election 2014 South Africa: The Campaigns, Results & Future Prospects provides a platform for in-depth discussion and analysis of party campaigns, voting patterns, and election results of the 2014 general elections. Following the tradition of previous volumes that cover South Africa's national and provincial elections since 1994, this book draws on the expertise of renowned authors to cover important aspects of the election, including the major political party campaigns, the media's coverage of the campaigns, the latest trends in political participation and party fortunes, gender dynamics, the black middle class, as well as insights into the voter and public opinion on the eve of the election. Readers are presented with more than a mere study of a single election; they are also presented with a contemporary understanding of electoral politics and democracy in South Africa over two democratic decades and reflections on how elections strengthen the quality and prospects for democracy.

Elections 2014

Conversations about life and death, between a girl and an angel. It's almost Christmas. Cecilia lies sick in bed as her family bustle around her to make her last Christmas as special as possible. Cecilia has cancer. An angel steps through her window. So begins a spirited and engaging series of conversations between Cecilia and her angel. As the sick girl thinks about her life and prepares for her death, she changes subtly, in herself and in her relationships with her family. Jostein Gaarder is a profoundly optimistic writer, who writes about death with wisdom, compassion and an enquiring mind. THROUGH A GLASS DARKLY will not only bring comfort to the bereaved. It will move and amaze everyone who reads it.

Masterpiece of Joy

Amy Goodman and her colleague Denis Moynihan began writing a weekly column, 'Breaking the Sound Barrier', for King Features Syndicate in 2006. Following the success of Goodman's book of the same name, The Silenced Majority gives voice to the many ordinary people standing up to corporate and government power - and refusing to be silent. This fascinating collection pulls back the veil of corporate media reporting to dig deep into political issues facing readers today.

“Spellbinding.”—Associated Press • “Powerful.”—New York In 1912, the Saint Anna, a Russian exploration vessel in search of fertile hunting grounds, was frozen into the polar ice cap, trapping her crew aboard. For nearly a year and a half, they struggled to stay alive. As all hope of rescue faded, they realized their best chance of survival might be to set out on foot, across hundreds of miles of desolate ice, with their lifeboats dragged behind them on sledges, in hope of reaching safety. Twenty of them chose to stay aboard; thirteen began the trek; of them all, only two survived. Originally published in Russia in 1917, *In the Land of White Death* was translated into English for the first time by the Modern Library to widespread critical acclaim. As well as recounting Albanov’s vivid, first-person account of his ninety-day ordeal over 235 miles of frozen sea, this expanded paperback edition contains three newly discovered photographs and an extensive new Epilogue by David Roberts based on the never-before-published diary of Albanov’s only fellow survivor, Alexander Konrad. As gripping as Albanov’s own tale, the Epilogue sheds new light on the tragic events of 1912–1914, brings to life many of those who perished (including the infamous captain Brusilov and nurse Zhdanko, the only woman on board), and, inadvertently, reveals one new piece of information—about the identity of the traitors who left Albanov for dead—that is absolutely shocking. “Poetic.”—The Washington Post • “A lost masterpiece.”—Booklist • “A jewel of polar literature.”—Seattle Post-Intelligencer • “Vivid . . . [a work of] terrifying beauty.”—The Boston Globe

Precision Gearing: Theory and Practice

This is book one of three. All books are full-length novels and must be read in order. All books are available now. The My Brother's Keeper Trilogy The town of Gilford has a Big and Terrible secret hidden in the ground. Infecting those it touches. Exploiting their darkness. Consuming their souls. It's hungry. It's vile. It's

evil. And it wants out. Book One: The First Three Rules Marshal Jon Foster lost his purpose and his sanity the day he saw the image of his dead brother. The distraction saved Jon's life but cost the lives of innocent people including his best friend and partner. It was a price for survival Jon couldn't live with and was sure he'd never understand. Driven by grief and guilt he tried to escape his past by fleeing to a small town in the middle of nowhere. Only instead of peace, the memories festered. Then the offer of a stick of gum from a stranger changes Jon's life and puts him on a road out of the nightmare he's trapped in. Ellis Harper has lived the past twenty years isolated from the outside world and sole caretaker for his mentally disabled brother, Rudy. While Ellis loves his brother, he longs for a life he'll never be able to have. Shut away, his days consist of chores, endless cartoons, and games of Go Fish. A world that seemed to have no end until an innocent misunderstanding turns Ellis and his brother into a target for a town bully. It's a fight Ellis can never win on his own but thanks to a chance meeting with a stranger, he doesn't have to. What begins as a new journey in love for both men quickly unfolds into something neither of them could have ever imagined.

Pierre Bordreuil and Dennis Pardee are two of the best-known scholars doing research on the language and texts of the ancient city of Ugarit (modern Tell Ras Shamra). This grammar was first published in French in 2004 in two volumes; and Eisenbrauns is pleased to make it available now in a corrected and updated version, in one volume, with significant enhancements. In addition to including all of the information present in the French edition, this English edition includes a CD with a complete, hyperlinked PDF version of the grammar. The book includes a historical introduction to the texts and language, the book includes a sketch of the grammar of Ugaritic, a bibliography, facsimiles (hand-copies) of a number of texts, and a glossary and text concordance—in short, everything that a student needs for entrée into the language. On the CD, in addition to the PDF, color photos of all of the texts included in the book are provided. The hyperlinks to the PDF enable the reader to move easily from the discussion in the grammar to a copy of a text to the color photo of the text and back again, making the material much more accessible and usable for students and researchers. Pierre Bordreuil inaugurated a chair in Ugaritic at the écoles des langues et civilisations orientales at the Institut catholique de Paris. Dennis Pardee teaches in the Dept. of Near Eastern Languages and Civilizations at the Oriental Institute of the University of Chicago.

"Splendid: the global history of capitalism in all its creative—and destructive—glory." —The New York Times Book Review With its deep roots and global scope, the capitalist system seems universal and timeless. The framework for our lives, it is a source of constant change, sometimes measured and predictable, sometimes drastic, out of control. Yet what is now ubiquitous was not

always so. Capitalism was an unlikely development when it emerged from isolated changes in farming, trade, and manufacturing in early-modern England. Astute observers began to notice these changes and register their effects. Those in power began to harness these new practices to the state, enhancing both. A system generating wealth, power, and new ideas arose to reshape societies in a constant surge of change. Approaching capitalism as a culture, as a historical development that was by no means natural or inevitable, Joyce Appleby gives us a fascinating introduction to this most potent creation of mankind from its origins to its present global reach.

Six Centuries of English Poetry

Designed as a textbook for undergraduate students in various engineering disciplines—Mechanical, Civil, Industrial Engineering, Electronics Engineering and Computer Science—and for postgraduate students in Industrial Engineering and Water Resource Management, this comprehensive and well-organized book, now in its Second Edition, shows how complex economic decisions can be made from a number of given alternatives. It provides the managers not only a sound basis but also a clear-cut approach to making decisions. These decisions will ultimately result in minimizing costs and/or maximizing benefits. What is more, the book adequately illustrates the concepts with numerical problems and Indian cases. While retaining all the chapters of the previous edition, the book adds a number of topics to make it more comprehensive and more student friendly. What's New to This Edition • Discusses different types of costs such as average cost, recurring cost, and life cycle cost. • Deals with different types of cost estimating models, index numbers and capital allowance. • Covers the basics of nondeterministic decision making. • Describes the meaning of cash flows with probability distributions and decision making, and selection of alternatives using simulation. • Discusses the basic concepts of Accounting. This book, which is profusely illustrated with worked-out examples and a number of diagrams and tables, should prove extremely useful not only as a text but also as a reference for those offering courses in such areas as Project Management, Production Management, and Financial Management.

A world of possibilities opens up for Joy Harkness when she sets out on a journey that's going to show her the importance of friendship, love, and what makes a house a home. Coming-of-age can happen at any age. Joy Harkness had built a university career and a safe life in New York, protected and insulated from the intrusions and involvements of other people. When offered a position at Amherst College, she impulsively leaves the city, and along with generations of material belongings, she packs her equally heavy emotional baggage. A tumbledown Victorian house proves an unlikely choice for a woman whose family heirlooms have been boxed away for years. Nevertheless, this white elephant becomes the home that changes Joy forever. As the restoration begins to take shape, so does

her outlook on life, and the choices she makes over paint chips, wallpaper samples, and floorboards are reflected in her connection to the co-workers who become friends and friendships that deepen. A brilliant, quirky, town fixture of a handyman guides the renovation of the house and sparks Joy's interest to encourage his personal and professional growth. Amid the half-wanted attention of the campus's single, middle-aged men, known as "the Coyotes," and the legitimate dramas of her close-knit community, Joy learns that the key to the affection of family and friends is being worthy of it, and most important, that second chances are waiting to be discovered within us all.
