The Power of Limits: Proportional

Harmonies in Nature, Art and Architecture

Updated with a new foreword and revised text, a twentieth anniversary release of a top-selling reference counsels women on how to end destructive cycles of co-dependence and misogyny, in a guide that shares case histories of women who have ended or improved relationships with emotionally unavailable, addicted, or unfaithful partners. Reprint. 50,000 first printing.

Cronopios and Famas

Through penetrating analysis of twentieth-century historical fiction from Central America this book asks: why do so many literary texts in the region address historical issues? What kinds of stories are told about the past when authors choose the fictional realm to represent history? Why access memory through fiction and poetry? Nicole Caso traces the active interplay between language, space, and memory in the continuous process of defining local identities through literature. Ultimately, this book looks to the dynamic between form and content to identify potential maps that are suggested in each of these texts in order to imagine possibilities of action in the future.

Cooperative Learning in the Classroom

Sylvie, a New York gossip columnist, finds herself caught in unexpected circumstances as she plots

revenge against her lifelong friend Nell, president of a cosmetics firm, after discovering that Nell has stolen away her lover

The Historian's Craft

Radical thinker and writer Emma Goldman presents her life story and memories in *Living My Life*, first published in 1931. Originally two volumes, it is published here as a combined edition. From her arrival in New York as a 20-year-old seamstress, when she immediately launched into a life of activism and public agitation, she recalls her childhood in Lithuania, her immigration to the U.S. as a teenager, and her wild adventures as an independent and intelligent woman. An important and influential figure in such far-flung geopolitical events as the Russian Revolution and the Spanish Civil War, Goldman is one of the most storied people of the 20th century. And her story, in her own inimitable words, is one of the great biographies, and one of the great personal histories of a turbulent era. Anarchist and feminist EMMA GOLDMAN (1869-1940) is one of the towering figures in global radicalism of the late 19th and early 20th centuries. Born in Lithuania, she emigrated to the United States as a teenager, was deported in 1919 for her criticism of the U.S. military draft in World War I, and died in Toronto after a globetrotting life. An early advocate of birth control, women's rights, and workers' unions, she was an important and influential figure in such far-flung geopolitical events as the Russian Revolution and the Spanish Civil War. Among her many books are *My Disillusionment in*

Read Book Basta De Historias La Obsesion Latinoamericana Con El Pasado Y Las 12 Claves Del Futuro Andres Oppenheimer Russia (1925) and Living My Life (1931).

Practicing Memory in Central American Literature

“Once again, Pulitzer Prize-winning columnist Andres Oppenheimer shows his deep understanding of the dramatic changes in Latin America, and the impact of America’s ongoing indifference to the region. For anyone seeking to understand Latin America’s re-emerging populism and the effects of this administration’s disastrous foreign policy in the region, this book is a must read. Oppenheimer gives his readers hope for a new vision in Latin America.”
—Bill Richardson, Governor of New Mexico This new book out in October illustrates in detail how the current administration’s policy towards Latin America is actually creating the very immigration issues President Bush is fighting to solve. Saving the Americas: The Dangerous Decline of Latin America...and What the U.S. Must Do, by Pulitzer-prize co-winner and The Miami Herald syndicated columnist Andres Oppenheimer, highlights the Bush administration’s failure to reach out to its own neighbors in order to create a stable environment for the people of the United States. “When it comes to everyday issues that affect most Americans—whether immigration, trade, the environment or, increasingly, energy—no region in the world has a bigger impact on the United States than Latin America,” writes Oppenheimer. As an acknowledged expert on Latin America, Oppenheimer uses his experience and reporting skills to show how this

Read Book Basta De Historias La Obsesion Latinoamericana Con El Pasado Y Las 12 Claves Del Futuro Andres Oppenheimer

region is becoming increasingly less important on the world stage, and the resulting negative effects on the lives of Americans. "This book began as a message to Latin Americans about the decline of their region into global irrelevance. But it soon became clear to me that what I was learning was equally important to people in the United States," says Oppenheimer.

"Though less apparent to most Americans —and less costly— than its blunders elsewhere in the world, the Bush Administration was making major mistakes in Latin America, among other things by declaring the region a major U.S. priority while ignoring it almost entirely, and reflexively pushing free trade as if that alone would ensure hemispheric prosperity."

Oppenheimer traveled to China, India, Poland, the Czech Republic, Ireland and more than a dozen Latin American countries to see first-hand what is pushing some nations ahead and others back. And in his characteristic style - mixing travel anecdotes, humor and political analysis - he came to surprising conclusion: that despite its current troubles, Latin America can rise from economic and political obscurity, to become a booming market and an influential player in world affairs. The Spanish-language version of *Saving the Americas: The Dangerous Decline of Latin America...and What the U.S. Must Do* (Cuentos Chinos) has sold nearly 200,000 copies throughout Latin America and made the region to take a hard look at itself. Costa Rican President and Nobel Prize laureate Oscar Arias has called Oppenheimer's book "A landmark work that politicians, academics, journalists and other leaders will be citing for years to come," and former Brazilian President Fernando Henrique Cardoso described it as "a must-

Read Book Basta De Historias La Obsesion Latinoamericana Con El Pasado Y Las 12 Claves Del Futuro Andres Oppenheimer

read." Now the English version is set to cause the same reaction within the United States.

Amador

Think and Grow Rich

¡Basta de Historias!: la Obsesión Latinoamericana con el Pasado y Las 12 Claves Del Futuro

Staying true to his trademark journalistic approach, Andrés Oppenheimer takes his readers on yet another journey, this time across the globe, in a thought-provoking search to understand what the future holds for today's jobs in the foreseeable age of automation. *The Robots Are Coming!* centers around the issue of jobs and their future in the context of rapid automation and the growth of online products and services. As two of Oppenheimer's interviewees -- both experts in technology and economics from Oxford University -- indicate, forty-seven percent of existing jobs are at risk of becoming automated or rendered obsolete by other technological changes in the next twenty years. Oppenheimer examines current changes in several fields, including the food business, legal work, banking, and medicine, speaking with experts in the field, and citing articles and literature on automation in various areas of the workforce. He contrasts the perspectives of "techno-optimists" with those of "techno-negativists" and generally attempts to find a middle ground between an alarmist vision of the future, and one that is too

uncritical. A self-described "cautious optimist", Oppenheimer believes that technology will not create massive unemployment, but rather will drastically change what work looks like.

Fatal Flaws

The Billionaire's Game

Castro'S Final Hour

The Invisible Man

World War II, October 21, 1942. A B-17 bomber drones high over the Pacific Ocean, sending a desperate SOS into the air. The crew is carrying America's greatest living war hero on a secret mission deep into the battle zone. But the plane is lost, burning through its final gallons of fuel. At 1:30 p.m., there is only one choice left: an emergency landing at sea. If the crew survives the impact, they will be left stranded without food or water hundreds of miles from civilization. Eight men. Three inflatable rafts. Sixty-eight million square miles of ocean. What will it take to make it back alive?

Bordering on Chaos

filmmaking, design, smart phones, and more. A finalist for the YALSA Excellence in Nonfiction Award! "Your time is limited. . . . have the courage to follow your heart and intuition." —Steve Jobs From the start, his path was never predictable. Steve Jobs was given up for adoption at birth, dropped out of college after one semester, and at the age of twenty, created Apple in his parents' garage with his friend Steve Wozniack. Then came the core and hallmark of his genius—his exacting moderation for perfection, his counterculture life approach, and his level of taste and style that pushed all boundaries. A devoted husband, father, and Buddhist, he battled cancer for over a decade, became the ultimate CEO, and made the world want every product he touched, from the Macintosh to the iPhone, from iTunes and the iPod to the Macbook. Critically acclaimed author Karen Blumenthal takes us to the core of this complicated and legendary man while simultaneously exploring the evolution of computers. Framed by Jobs' inspirational Stanford commencement speech and illustrated throughout with black and white photos, this is the story of the man who changed our world. Read more thrilling nonfiction by Karen Blumenthal: Hillary Rodham Clinton: A Woman Living History (A YALSA Excellence in Nonfiction Award Finalist) Bootleg: Murder, Moonshine, and the Lawless Years of Prohibition Tommy: The Gun That Changed America Praise for Steve Jobs: The Man Who Thought Different: A Biography: "This is a smart book about a smart subject by a smart writer." —Booklist, starred review "Students who know Steve Jobs only through Apple's iTunes, iPhones, and iPads will have their eyes opened by this accessible and well-written

City of the Beasts

AVAILABLE FOR THE FIRST TIME IN eBook! A New York Times Notable Book On the eve of his ninetieth birthday a bachelor decides to give himself a wild night of love with a virgin. As is his habit—he has purchased hundreds of women—he asks a madam for her assistance. The fourteen-year-old girl who is procured for him is enchanting, but exhausted as she is from caring for siblings and her job sewing buttons, she can do little but sleep. Yet with this sleeping beauty at his side, it is he who awakens to a romance he has never known. Tender, knowing, and slyly comic, *Memories of My Melancholy Whores* is an exquisite addition to the master’s work.

Memories of My Melancholy Whores

It is 1937 and Amabelle Désir, a young Haitian woman living in the Dominican Republic, has built herself a life as the servant and companion of the wife of a wealthy colonel. She and Sebastien, a cane worker, are deeply in love and plan to marry. But Amabelle's world collapses when a wave of genocidal violence, driven by Dominican dictator Rafael Trujillo, leads to the slaughter of Haitian workers. Amabelle and

Read Book Basta De Historias La Obsesion Latinoamericana Con El Pasado Y Las 12 Claves Del Futuro Andres Oppenheimer

Sebastien are separated, and she desperately flees the tide of violence for a Haiti she barely remembers. Already acknowledged as a classic, this harrowing story of love and survival—from one of the most important voices of her generation—is an unforgettable memorial to the victims of the Parsley Massacre and a testimony to the power of human memory. From the Trade Paperback edition.

A Curious History of Sex

A manifesto for a new, democratic left: a political programme poised to transform Europe Since 2011, Pablo Iglesias has led Podemos, a new radical left party in Spain that is reframing the nature of modern politics. Under his guidance, the party has unmasked the ideological motives behind European austerity, revealing the true nature of this power grab conducted on behalf of elites intent on dismantling the welfare state. Here, Iglesias delineates his political vision. He skewers not only the Spanish establishment, but also the anti-democratic bloc comprising the Troika, corporate interests, and the “Wall Street Party.” Politics in a Time of Crisis—which includes an in-depth interview with Iglesias—is an incisive examination of the current situation in Europe as well as a stirring call for international resistance. From the Trade Paperback edition.

One of My Very Best Friends

As there has been a continued increase in the demand for higher levels of safety, security and

reliability for all critical infrastructures, the design, construction, and operation of dams should be integrated as part of a comprehensive risk management framework that can effectively address natural and manmade hazards. As an effect, in recent years

Adult Color by Numbers Coloring Book

This volume presents an integrated epidemiologic, social, and economic analysis of the global epidemics of HIV among sex workers in low- and middle-income countries. The book provides a comprehensive review and synthesis of the available public health and social science data to characterize the nature, scope, and complexities of these epidemics. A community empowerment-based approach to HIV prevention, treatment, and care is outlined and demonstrated to be cost-effective across multiple settings, with a significant projected impact on HIV incidence among sex workers and transmission dynamics overall. The Global HIV Epidemics among Sex Workers seeks to assist governments, public health implementing agencies, donors, and sex worker communities to better understand and respond to the epidemics among a population facing heightened social and structural vulnerabilities to HIV. The book combines a systematic review of the global epidemiology of HIV among sex workers and in-depth case studies of the epidemiology, policy and programmatic responses and surrounding social contexts for HIV prevention, care and treatment in eight countries. The authors employ mathematical modeling and cost-

Read Book Basta De Historias La Obsesion Latinoamericana Con El Pasado Y Las 12 Claves Del Futuro Andres Oppenheimer

effectiveness analysis to assess the potential country-level impact of a community empowerment-based approach to HIV prevention, treatment, and care among sex workers when taken to scale in four countries representing diverse sociopolitical contexts and HIV epidemics: Brazil, Kenya, Thailand, and Ukraine. In each setting, greater investment in prevention, treatment, and care for sex workers is shown to significantly reduce HIV. Together these findings underline the urgency of further global investment in comprehensive, human rights-based responses to HIV among sex workers.

Combat-ready Kitchen

Risk Analysis, Dam Safety, Dam Security and Critical Infrastructure Management

An eye-opening examination of the U.S. military's influence on the American food industry and the way

Read Book Basta De Historias La Obsesion Latinoamericana Con El Pasado Y Las 12 Claves Del Futuro Andres Oppenheimer

we eat. You probably don't realize that your supermarket is filled with foods that have a military origin: canned goods, packaged deli meats, TV dinners, cling wrap, energy bars. . . . The list is almost endless. In fact, there's a watered-down combat ration lurking in practically every bag, box, can, bottle, jar, and carton Americans buy. Anastacia Marx de Salcedo shows how the Department of Defense Combat Feeding Directorate plans, funds, and spreads the food science that enables it to produce cheap, imperishable rations. It works with an immense network of university, government, and industry collaborators such as ADM, ConAgra, General Mills, Hershey, Hormel, Mars, Nabisco, Reynolds, Smithfield, Swift, Tyson and Unilever. It's a good deal for both sides: The conglomerates get exclusive patents or a headstart on the next breakthrough technology; the Army ensures that it has commercial suppliers if it ever needs to manufacture millions of rations. And for us consumers, who eat this food originally designed for soldiers on the battlefield? We're the guinea pigs in a giant public health experiment, one in which science and technology, at the beck of the military, have taken over our kitchens. This book will change the way you think about food forever.

The Robots Are Coming!

Offers ecumenical meditations on love, perception, forgiveness, eternal life, and theoretical concepts in theology

Talking Book Topics

A search for the Beast, a Yeti-like creature within the heart of the Amazon, becomes a quest for self-discovery in this young adult coming-of-age story filled with international adventure, rich mythology, and magical realism from globally celebrated novelist Isabel Allende. Fifteen-year-old Alexander Cold has the chance to take the trip of a lifetime. Parting from his family and ill mother, Alexander joins his fearless grandmother, a magazine reporter for International Geographic, on an expedition to the dangerous, remote world of the Amazon. Their mission, along with the others on their team—including a celebrated anthropologist, a local guide and his young daughter Nadia, and a doctor—is to document the legendary Yeti of the Amazon known as the Beast. Under the dense canopy of the jungle, Alexander is amazed to discover much more than he could have imagined about the hidden worlds of the rain forest. Drawing on the strength of the jaguar, the totemic animal Alexander finds within himself, and the eagle, Nadia's spirit guide, both young people are led by the invisible People of the Mist on a thrilling and unforgettable journey to the ultimate discovery.

The Thought of Mao Tse-Tung

Hailed for its gripping narrative, its insightful analysis, and its informed historical perspective, this book offers a "revealing look at the secret and powerful political society of Mexico, its breakup, and the fallout that we are witnessing today" ("Wall Street Journal").

Living My Life (Two Volumes in One)

Explains what cooperative learning is, describes what makes it work, and provides strategies for the classroom teacher beginning to use cooperative learning or improving the use of cooperative learning in the classroom.

The Farming of Bones

This is not a comprehensive study of every sexual quirk, kink and ritual across all cultures throughout time, as that would entail writing an encyclopaedia. Rather, this is a drop in the ocean, a paddle in the shallow end of sex history, but I hope you will get pleasantly wet nonetheless. The act of sex has not changed since people first worked out what went where, but the ways in which society dictates how sex is culturally understood and performed have varied significantly through the ages. Humans are the only creatures that stigmatise particular sexual practices, and sex remains a deeply divisive issue around the world. Attitudes will change and grow - hopefully for the better - but sex will never be free of stigma or shame unless we acknowledge where it has come from. Based on the popular research project Whores of Yore, and written with her distinctive humour and wit, A Curious History of Sex draws upon Dr Kate Lister's extensive knowledge of sex history. From medieval impotence tests to twentieth-century testicle thefts, from the erotic frescoes of Pompeii, to

modern-day sex doll brothels, Kate unashamedly roots around in the pants of history, debunking myths, challenging stereotypes and generally getting her hands dirty. This fascinating book is peppered with surprising and informative historical slang, and illustrated with eye-opening, toe-curling and meticulously sourced images from the past. You will laugh, you will wince and you will wonder just how much has actually changed.

Politics in a Time of Crisis

David, King of the Jews, possessed every flaw and failing a mortal is capable of, yet men and women adored him and God showered him with many more blessings than he did Abraham or Moses. His sexual appetite and prowess were matched only by his violence, both on the battlefield and in the bedroom. A charismatic leader, exalted as "a man after God's own heart," he was also capable of deep cunning, deceit, and betrayal. Now, in *King David: The Real Life of the Man Who Ruled Israel*, bestselling author Jonathan Kirsch reveals this commanding individual in all his glory and fallibility. In a taut, dramatic narrative, Kirsch brings new depth and psychological complexity to the familiar events of David's life--his slaying of the giant Goliath and his swift challenge to the weak rule of Saul, the first Jewish king; his tragic relationship with Saul's son Jonathan, David's cherished friend (and possibly lover); his celebrated reign in Jerusalem, where his dynasty would hold sway for generations. Yet for all his greatness, David was also a man in thrall to his passions--a voracious

Read Book Basta De Historias La Obsesion Latinoamericana Con El Pasado Y Las 12 Claves Del Futuro Andres Oppenheimer

lover who secured the favors of his beautiful mistress Bathsheba by secretly arranging the death of her innocent husband; a merciless warrior who triumphed through cruelty; a troubled father who failed to protect his daughter from rape and whose beloved son Absalom rose against him in armed insurrection. Weaving together biblical texts with centuries of interpretation and commentary, Jonathan Kirsch brings King David to life in these pages with extraordinary freshness, intimacy, and vividness of detail. At the center of this inspiring narrative stands a hero of flesh and blood--not the cartoon giant-slayer of sermons and Sunday school stories or the immaculate ruler of legend and art but a magnetic, disturbingly familiar man--a man as vibrant and compelling today as he has been for millennia.

Women Who Love Too Much

The timeless and practical advice in *The Magic of Thinking Big* clearly demonstrates how you can: Sell more Manage better Lead fearlessly Earn more Enjoy a happier, more fulfilling life With applicable and easy-to-implement insights, you'll discover: Why believing you can succeed is essential How to quit making excuses The means to overcoming fear and finding confidence How to develop and use creative thinking and dreaming Why making (and getting) the most of your attitudes is critical How to think right towards others The best ways to make "action" a habit How to find victory in defeat Goals for growth, and How to think like a leader "Believe Big," says Schwartz. "The size of your success is determined by the size of your

belief. Think little goals and expect little achievements. Think big goals and win big success. Remember this, too! Big ideas and big plans are often easier -- certainly no more difficult - than small ideas and small plans."

Target in the Night

An elegant novel set in Prague about the possibility of freedom in an unfree state, from the acclaimed author of *The Songlines* and *In Patagonia* Utz collects Meissen porcelain with a passion. His collection, which he has protected and enlarged through both World War II and Czechoslovakia's years of Stalinism, numbers more than 1,000 pieces, all crammed into his two-room Prague flat. Utz is allowed to leave the country each year, and although he has considered defection, he always returns. He cannot take his precious collection with him, but he cannot leave it, either. And so Utz is as much owned by his porcelain as it is owned by him, as much of a prisoner of the collection as of the Communist state. A fascinating, enigmatic man, Kaspar Utz is one of Bruce Chatwin's finest creations. And his story, as delicately cast as one of Utz's porcelain figures, is unforgettable.

The Shadow of the Wind

In *Amador*, Fernando Savater writes in the form of a letter to his teenage son about ethics, morals and freedom in today's society.

The Zapatista Reader

Del Futuro Andres Oppenheimer

His professional football career over due to a tragic accident, billionaire Kade Harrison takes on the task of solving a mystery for his brother-in-law and friend, Max Hamilton. Without his former career to fill every minute of the day, Kade's looking for something to challenge him--now that he's lost the career that had meant everything to him. But what starts out as a simple favor soon becomes a whole lot more than he bargained for when the woman he's seeking slips away from him every time he gets close to finding her. When Kade does finally corner her, things start to get even more complicated. Asha Paritala is nothing like he expected, and the female he had tracked down as a favor for Max soon becomes a woman he wants for his very own, a woman who makes protective and highly predatory instincts he didn't know he had flare to life inside him. Kade soon discovers that he wants Asha's total surrender to the desire and passion that vibrates intensely between the two of them, but he also wants her trust, the one thing Asha's history makes it difficult for her to give. Can Kade convince her that some things are worth risking it all? Caught between two worlds, Asha Paritala is homeless, broke and damaged from a life of abuse and neglect. Born of an American mother and an Indian immigrant father, Asha was raised as an Indian woman by a foster family after the death of her natural parents when she was little more than a baby. She's spent her entire life under the control of others until finally breaking free two years earlier, and she's determined to keep her freedom, even if it means she has to struggle to survive. But when she meets Kade Harrison, her resolve is tested. After Kade

A Course in Miracles

"Gabriel García Márquez meets Umberto Eco meets Jorge Luis Borges for a sprawling magic show." --The New York Times Book Review A New York Times Bestseller Barcelona, 1945: A city slowly heals in the aftermath of the Spanish Civil War, and Daniel, an antiquarian book dealer's son who mourns the loss of his mother, finds solace in a mysterious book entitled *The Shadow of the Wind*, by one Julián Carax. But when he sets out to find the author's other works, he makes a shocking discovery: someone has been systematically destroying every copy of every book Carax has written. In fact, Daniel may have the last of Carax's books in existence. Soon Daniel's seemingly innocent quest opens a door into one of Barcelona's darkest secrets--an epic story of murder, madness, and doomed love. " Anyone who enjoys novels that are scary, erotic, touching, tragic and thrilling should rush right out to the nearest bookstore and pick up *The Shadow of the Wind*. Really, you should."

--Michael Dirda, *The Washington Post* "Wonderous masterful *The Shadow of the Wind* is ultimately a love letter to literature, intended for readers as passionate about storytelling as its young hero." --*Entertainment Weekly* (Editor's Choice) "One gorgeous read."

--Stephen King From the Trade Paperback edition.

Steve Jobs: The Man Who Thought Different

Presents essays, interviews, articles, and correspondence centering on the revolutionary

conflict in the southern Mexican state of Chiapas.

Utz

Featuring case vignettes from nearly 30 years of Dr. Yudofsky's clinical practice and incorporating the knowledge of gifted clinicians, educators, and research scientists with whom he has collaborated throughout that time, *Fatal Flaws: Navigating Destructive Relationships With People With Disorders of Personality and Character* uniquely captures the rapidly increasing body of clinical and research information about people with severe and persistent personality and character disorders. Within these pages, the author brings to life the psychopathologies of personality and character disorders through vivid vignettes based on composites of his many patients and their most important relationships -- while meticulously changing the identifying facts and relevant details to protect confidentiality. Covering the clinical course, treatment, genetics, biology, psychology, and destructive consequences of hysterical (histrionic), narcissistic, antisocial, paranoid, obsessive-compulsive, addictive, borderline, and schizotypal personality disorders, *Fatal Flaws* stands out in the literature for these powerful reasons: It is written for an unusually broad audience, from mental health students and trainees of all disciplines, to highly experienced clinicians, to patients who suffer from or are in destructive relationships with people with personality disorders. It is a hybrid -- part psychiatric textbook for clinicians and part self-help manual for patients and clients with

Read Book Basta De Historias La Obsesion
Latinoamericana Con El Pasado Y Las 12 Claves
Del Futuro Andres Oppenheimer

personality and character disorders. It is designed to supplement treatment by providing patients with practical, evidence-based information about personality disorders and character flaws. It is particularly valuable to patients who are in psychotherapy, in part, because they are entangled in destructive relationships with people with disorders of personality and/or character. It is written in the first person, with the author directly communicating with a patient who either has a personality or character disorder or is in an important relationship with a person who has such a disorder. It is useful for people who are uncertain whether they or their loved ones have personality or character disorders, and who want to know more about these conditions and their treatments before making a decision about securing the help of a mental health professional. *Fatal Flaws: Navigating Destructive Relationships With People With Disorders of Personality and Character* is a compelling volume that provides the essential information and a realistic sense of the clinical experience required to inform, orient, and support novice mental health professionals and seasoned practitioners alike as they face the ongoing challenges of treating patients or clients with personality or character disorders. It should also prove to be an invaluable resource for those who wish practical and effective help in understanding and changing their destructive relationships with people who have severe and persistent disorders of personality and/or character.

The Magic of Thinking Big

La educación es algo demasiado importante como para dejarla en manos de los gobiernos. Periodista cardinal y siempre dispuesto a desafiar las modas políticas del momento con inteligencia y humor, Andrés Oppenheimer demuestra en este libro que mejorar sustancialmente la educación, la ciencia, la tecnología y la innovación no es tarea imposible. Pero sí tremendamente necesaria. La razón es simple: el XXI será el siglo de la economía del conocimiento. Contrariamente a lo que pregonan presidentes y líderes populistas latinoamericanos, los países que avanzan no son los que venden materias primas ni productos manufacturados básicos, sino los que producen bienes y servicios de mayor valor agregado. ¡Basta de historias! es un agudo viaje periodístico alrededor del mundo, que aporta ideas útiles para trabajar en la principal asignatura pendiente de

Read Book Basta De Historias La Obsesion Latinoamericana Con El Pasado Y Las 12 Claves Del Futuro Andres Oppenheimer

nuestros países y la única que nos podrá sacar de la mediocridad económica e intelectual en la que vivimos: la educación. "Este libro sale a la luz en momentos en que buena parte de Latinoamérica está festejando el bicentenario de su independencia. La obsesión con el pasado es un fenómeno característico de la región. Curiosamente, no ocurre lo mismo en China, India y otros países asiáticos y de Europa del Este a pesar de que muchos de ellos tienen historias milenarias. Vale la pena entonces hacernos una serie de preguntas tan pertinentes como políticamente incorrectas: ¿es saludable esta obsesión con la historia? ¿Nos ayuda a prepararnos para el futuro? ¿O, por el contrario, nos distrae de la tarea cada vez más urgente de prepararnos para competir mejor en la economía del conocimiento del siglo XXI?" ENGLISH DESCRIPTION Education is a matter too important to leave it in the hands of the government. Key journalist and someone that is always ready to challenge political trends with intelligence and humor, Andrés Oppenheimer explains that substantially improving education, science, technology, and innovation is not an impossible task, but rather an extremely crucial one. The reason is simple: the 21st century will be one known for knowledge. Contrary to what Latin American populist presidents and leaders preach, the countries that advance the most are not those that sell raw materials or basic manufactured products, but rather those that produce goods and services with higher added value. Enough History! Is a piercing journalistic trip around the world in which Oppenheimer provides useful ideas on how to work on, and improve, the most important issue still pending in our countries, and the only one that can

take us out of the economic and intellectual mediocrity in which we live: education. "Having an obsession with the past [in Latin America] is a distinctive to the region. Interestingly, the same is not true in China, India, or other Asian and Eastern European countries even though many of them have ancient histories. It is worthwhile then, to ask ourselves questions that are relevant and even politically incorrect like: is this obsession with history healthy?"
