What secrets did the man who started his fortune running mortuaries keep that might have cost him his life? What about the son frozen out of his will? Or his wife's political enemies? And what about Ellen Crease herself? Soon it becomes clear that a deadly plot of murder, blackmail, passion, and double cross is unfolding around Judge Richard Quinn. A town shrouded in the occult. An evil that lurks in the dark. The SCU returns in a hair-raising novel from New York Times bestselling author Kay Hooper. In the eight years since her twenty-first birthday, very odd things have begun to happen. Crows gather near her wherever she goes, electronics short out when she touches them, and when she's upset, really upset, it storms. At first, she chalked up the unusual happenings to coincidence, but that explanation doesn't begin to cover the vivid nightmares that torment her. She can no longer pretend to ignore them. She has to find out the truth. And the only starting point she has is a mysterious letter from her father delivered ten years

after his death, insisting she go to a town called Salem and risk her life to stop some unnamed evil. Before her thirtieth birthday. As a longtime member of the FBI's Special Crimes Unit, Grayson Sheridan has learned not to be surprised by the unusual and the macabre--but Salem is different. Evidence of Satanic activities and the disappearance of three strangers to the town are what brought Salem to the attention of the SCU, and when Gray arrives to find his undercover partner vanished, he knows that whatever's hiding in the seemingly peaceful little town is deadly. A Deadly Web

"Raised in rural England before the internet era, Ben Crane grew up in the midst of wild things, with hawks and other predatory birds alive in his mind (and woods and fields) as symbols of a kind of self-possessed, solitary power. He spent time with them, knew them, and loved them. But as he grew into adulthood, situations that may seem to us natural, or even comforting, were for him challenging: he found it difficult to be around other people and to read social cues, sometimes retreating in fear or lashing out in misunderstanding. He was recognized as autistic. When Crane became a father, these challenges became unbearable, and he fled to isolation. Birds--specifically hawks--brought him back. In this artfully written memoir, we learn first about the history and practice of falconry, a beautiful and brutal partnership between humans and birds that goes back thousands of years. As the chapters unfold, the details of Crane's personal story are revealed, and we begin to understand how Crane found solace and insight via his relationships with these animals. "I saw that my feelings towards nature, and birds of prey in particular, ran in parallel with my feelings for my son," Crane writes. "I worked out that they were, in fact, two sides of the same coin--the deep love of one could, with gentle observation, inform and unlock the deep love for the other. Perhaps this then is the central theme of my story.""

By entering the cult's compound, Tessa will expose herself to the dark magnetism of its leader and his fanatically loyal followers. Once she's inside, no one, not even Bishop or the town's chief of police, can guarantee she'll come out alive. And not even Tessa knows if she's strong enough to resist the lure of a killer who is less than human.

Gangs of the El Paso-Juárez Borderland

This thought-provoking book examines gang history in the region encompassing West Texas, Southern New Mexico, and Northern Chihuahua, Mexico. Known as the El Paso-Juárez borderland region, the area contains more than three million people spanning 130 miles from east to west. From the badlands—the historically notorious eastern Valle de Juárez—to the Puerto Palomas port of entry at Columbus, New Mexico, this area has become more militarized and politicized than ever before. Mike Tapia examines this region by exploring a century of historical developments through a criminological lens and by studying the diverse subcultures on both sides of the law. Tapia looks extensively at the role of history and geography on criminal subculture formation in the binational urban setting of El Paso-Juárez, demonstrating the region's unique context for criminogenic processes. He provides a poignant case study of Homeland Security and the apparent lack of drug-war spillover in communities on the US-Mexico border.
