### **Canadian Books in Print**

Appropriate for courses in Business Law at college and university levels. Written in clear language for the business student, without sacrificing precision of meaning, it provides the most comprehensive examination of Canadian business law on the market.

### **Case and Comment**

The 6th Canadian edition of DuPlessis, Canadian Business and the Law is the preeminent resource for students who require an understanding of the legal system as it relates to business ? what circumstances place an individual and an organization at legal risk and, more importantly, what they can do to manage and minimize that risk. Only concepts that directly pertain to the management of a business enterprise are presented in this resource. These concepts are delivered through new, real-world examples of the application of the law, as well as the latest Canadian cases and legislation.

### **Law and Society**

Law and Society provides a balanced and comprehensive analysis of the interplay between law and society using both Canadian and international examples. This clear and readable text is filled with interesting information, ideas and insights. All materials and supporting statistics have been carefully updated. This edition includes an expanded discussion of the law and First Nations people, recent developments impacting LGBTIQ2S persons, and persons with disabilities and a new section on civil procedures. Each chapter is structured similarly, with an outline, learning objectives, key terms, chapter summaries, critical thinking questions, and an array of additional resources.

## **Introduction to Law in Canada**

Appropriate for one-semester courses in Administrative Law at both college and university levels. Legal concepts and Canadian business applications are introduced in a concise, one-semester format. The text is structured so that five chapters on contracts form the nucleus of the course, and the balance provides stand-alone sections that the instructor may choose to cover in any order. We've made the design more reader-friendly, using a visually-appealing four-colour format and enlivening the solid text with case snippets and extracts. The result is a book that maintains the strong legal content of previous editions while introducing more real-life examples of business law in practice.

Between State and Market surveys and critiques the existing literature on charities law as well as the laws themselves. The authors offer policy prescriptions for the future of an increasingly vital sector of Canadian society. The first section of the book contains an overview of the charitable sector in Canada, a sociological review of altruism in different societies, a discussion of altruism in various philosophical and religious traditions, an economic analysis of "rational voluntarism," and an assessment of the relationship between the charitable sector and the welfare state. The second section contains five papers on the legal definition of charity, both general (the jurisprudence of the Federal Court of Appeal and a proposal for rethinking the concept of "public benefit"), and particular (the political purposes doctrine, religion as charity, and a commentary on the recent major Supreme Court decision on the meaning of charity). The third section deals with the tax status of charities: two papers evaluate the current tax credit system and one deals with the administration of charities by the Canada Customs and Revenue Agency. The final section contains essays on charities and commercial enterprise, on the regulation of fund-raising, and on needed reforms in non-profit corporation law. At a time when the federal government is about to embark on a wide range of policy initiatives to assist and regulate the non-profit sector, these essays are necessary reading for anyone concerned with the future of the charitable sector in Canada. Contributors include Neil Brooks (Osgoode Hall Law School), Cara Cameron (McGill), Bruce Chapman, Kevin Davis (Toronto), Abraham Drassinower (Toronto), David Duff (Toronto), Richard Janda (McGill), Will Kymlicka (Queen's), Andrée Lajoie (Montreal), Mayo Moran (Toronto), Charles-Maxime Panaccio (office of Mr Justice Charles Gonthier), Jim Phillips, Jane Allyn Piliavin (Wisconsin-Madison), David Sharpe (Attorney-General's Office, New York State), Lorne Sossin (Osgoode Hall Law School), David Stevens, and Jen-Chieh Ting (Academia Sinica). Canadian Business and the Law, now in its 5th edition, has transformed the teaching and learning of business law across the country. Canadian Business and the Law is constructed on the insight that risk management offers the optimal way of dealing with the legal content of business decisions. Beyond this, Canadian Business and the Law provides an engaging pedagogical vision which speaks to the student perspective by emphasizing real life current examples of the business-law interface. For example, the text relies on boxes featuring the impact of the law on Facebook in a variety of contexts including the liability of Facebook for alleged privacy violations, ownership issues relating to Facebook, the firing of employees for Facebook postings, and evidence provided by Facebook photographs leading to the termination of insurance benefits. Canadian Business and the Law offers an innovative and complete learning platform which builds student success.

This is a collection of Canadian legal decisions, primarily from the Supreme Court of Canada, along with international cases that have bearing on Canadian law. The selected cases raise and respond to current and controversial issues in political and legal philosophy. Cases have been edited to present key legal principles and methods of judicial reasoning in action,

showing not only what was decided but also how the decisions were made. Topics include: constitutional law, fundamental freedoms, equality rights, civil and criminal responsibility, and sovereignty. This new fifth edition adds over two dozen new cases, including new sections on Indigenous issues and international law. A helpful glossary of common legal terms has also been added as an appendix.

## **The Ontario Reports**

This text gives business law instructors the flexibility to deal with all of the topics, to customize their course by supplementing it with additional material, and/or to concentrate on an area of specialization.

## **The Canada Law Journal**

The law of personal property covers a very wide spectrum of scenarios and has had little detailed scrutiny of its overarching structure over the years. This is a shame. It is a system and can best be understood as a system. Indeed without understanding it as a system, it becomes much more difficult to understand. This new textbook is intended to provide a comprehensive and yet detailed coverage of the law of personal property in England and Wales. It includes transfer of legal title to chattels, the nemo dat rule, negotiable instruments and assignment of choses in action. It also looks at defective transfers of property and the resulting proprietary claims, including those contingent on tracing, the tort of conversion, bailment and security interests. By bringing together areas often scattered throughout company law, commercial law, trusts and tort textbooks, it enables readers to see common themes and issues and to make otherwise impossible generalisations across different contexts about the nature of the concepts English law applies. Throughout the book, concepts are explained rigorously, with reference to how they are used in commercial practice and everyday life. The book will be of use to students on undergraduate commercial law courses, or related LLM courses, as well as those on integrated property law courses, and particularly specialised personal property modules. It will also be useful to academics and practitioners working in the area.
