Listening to a Continent Sing

Snow surveyors throughout the world get to see what most of us only dream about: stunning terrain, birdlife and animals rarely seen in lower elevations, and stars that seem close enough to grab. Patrick Armstrong reveals the little-known world of a snow surveyor in this fascinating account, transporting readers into the remote winter world of the Sierra Nevada in

California. High in the mountains, Armstrong and his companions must cross twelve-thousand-foot passes and dig through snow to gain entrance to rock or log cabins for shelter at night. Traveling on skis, they often traverse more than a hundred miles each month during the winter and in the process climb and descend twenty or thirty thousand feet. This account also provides important and practical information on topics such as safe winter travel on skis, avalanche prediction and avoidance, cabin life, cooking on and maintaining wood-burning stoves, wildlife, and birdlife. Whether you're involved in snow surveying and snowmelt water management or you're just someone who enjoys the winter, wilderness, and the mountains, prepare yourself to enter a beautiful and remarkable winter world that has its dangers and sublime beauties.

The Desperate Game

Available digitally for the first time! Meet Guinevere Jones—a woman with a talent for love and trouble—from New York Times bestselling author Jayne Ann Krentz writing as Jayne Castle. It's hard to keep a small business afloat, just ask Guinevere Jones, owner of a struggling temp agency. And security consultant Zac Justis isn't making her life any easier. After he blackmails Gwen into helping him solve a computer crime, she finds herself caught in a web of suspense, danger—and love.

Deception Cove

In the world of Harmony, Rainshadow Island is home to a mysterious preserve, centuries-old secrets and a treasure worth killing for. (romance).

History Of Utah's American Indians

From the "New York Times" bestselling author comes a new series featuring a man and woman with telekinetic abilities who discover a terrifying power--and a forbidden passion--that could destroy them both. Original.

Bridal Jitters

When they wake up married, with only vague memories of running from something, Hannah West and Elias Coppersmith's investigation into what happened leads to underground catacombs where secrets from their past are revealed.

Quicksilver

Crossword puzzles encourage students in grades three through six to recall facts provided in informational passages on each of the fifty United States.

In Too Deep

New York Times bestselling author Jayne Ann Krentz presents the first novel in an Arcane Society trilogy set in a secluded coastal town in Northern California—a mysterious place where danger and

passion run deep Scargill Cove is the perfect place for Fallon Jones, confirmed recluse and investigator of the paranormal. It's a hot spot, a convergence point for unusually strong currents of energy, which might explain why the town attracts misfits and drifters like moths to a flame. Now someone else has been drawn to the Cove—Isabella Valdez, on the run from some very dangerous men. When she starts work as Fallon's assistant, Isabella impresses him by organizing his pathologically chaotic office—and doesn't bat an eye at the psychic aspect of his job. She's a kindred spirit, a sanctuary from a world that considers his talents a form of madness. But after a routine case unearths an antique clock infused with dark energy, Fallon and Isabella are dragged into the secret history of Scargill Cove and forced to fight for their lives, as they unravel a cutthroat conspiracy with roots in the Jones family business and Isabella's family tree.

Living in the Environment

This fully revised and updated edition introduces the reader to sedimentology and stratigraphic principles, and provides tools for the interpretation of sediments and sedimentary rocks. The processes of formation, transport and deposition of sediment are considered and then applied to develop conceptual models for the full range of sedimentary environments, from deserts to deep seas and reefs to rivers. Different approaches to using stratigraphic principles to date and correlate strata are also considered, in order to provide a comprehensive introduction to all aspects of

sedimentology and stratigraphy. The text and figures are designed to be accessible to anyone completely new to the subject, and all of the illustrative material is provided in an accompanying CD-ROM. High-resolution versions of these images can also be downloaded from the companion website for this book at: www.wiley.com/go/nicholssedimentology.

The Hot Zone

New York Times bestselling author Amanda Quick presents an Arcane Society novel that reveals the passionate—and paranormal—secrets of proper Victorian London. Attempting to recover a relic stolen from her family years ago, gifted crystal worker Leona Hewitt secretly makes her way into Lord Delbridge's private museum. But who she finds there is more entrancing than the crystal she seeks. Thaddeus Ware is a mesmerist with powerful psychic energy—that doesn't seem to be affecting the woman before him. Instead, Leona seems to exert a rather hypnotic power over the hypnotist himself. After she gives him the slip, absconding with the crystal they recovered, Thaddeus fears for her safety. For he is on assignment for the secretive Arcane Society and knows that the crystal holds the potential for great destruction. It is the key to Lord Delbridge's membership in a shadowy group known as the Third Circle. The nobleman killed before to acquire the crystal, and Thaddeus has no doubt that he will kill again.

White Lies

Each chapter focuses on a geological formation the group descends through, but plant and animal life, ecology, human impacts, and the students' experience and learning are all tightly woven into Gordon's reflections and storytelling, which create a powerful documentation and celebration of place and the evolutions that occur when human beings connect intimately to their surroundings."--BOOK JACKET.

Where the Water Goes

A New York Times bestselling masterpiece of romantic suspense from the author of *Promise Not to Tell* When Grace Elland finds her boss, motivational speaker Sprague Witherspoon, murdered, a vodka bottle on his nightstand is a terrifying reminder of the horrors of her past—one that can be no coincidence. To regroup, Grace retreats to her childhood home, Cloud Lake, where she meets venture capitalist Julius Arkwright, a man who lives to make money, by any means necessary. But the intense former Marine has skills that Grace can use—to figure out her future. And he's the perfect man to help Grace when it becomes clear she is being stalked. As Witherspoon's financial empire continues to crumble around them, taking a deadly toll, Julius will walk Grace step by step into her past to uncover a devious plan to destroy not only Grace, but everyone around her as well

Chuckwalla Land

Charlotte Enright, who can read auras, senses that something is not right with her former lover, police chief Slade Attridge, as they are drawn into a series of violent events that brings them closer together and closer to danger.

PISA Take the Test Sample Questions from OECD's PISA Assessments

THE PHENOMENAL NEW YORK TIMES BESTSELLER
Bestselling author Jayne Ann Krentz takes us beyond the everyday boundaries of the mind—and the heart—in the second Arcane Society novel. Level-ten parasensitive Clare Lancaster has resigned herself to the fact that she may never find a suitable mate. A human lie detector, any falsehood—no matter how subtle—sets her blood racing. And most people, to one degree or another, hide behind a façade. Including her business titan father's new “consultant,” Jake Salter. His careful conversation walks a delicate

line between truth and deception, revealing and resisting. But it is with his help that Clare begins to unravel a web of conspiracy and murder involving the powerful Arizona family that she just became a part of seven months ago. Caught in a dizzying storm of secrets, lies, and half-truths, Clare and Jake will plunge into an investigation that demands every bit of their special gifts, as something more than mere attraction sparks and sizzles between them...

The Lost Night

This book is a joint project of the Utah Division of Indian Affairs and the Utah State Historical Society. It is distributed to the book trade by Utah State University Press. The valleys, mountains, and deserts of Utah have been home to native peoples for thousands of years. Like peoples around the world, Utah's native inhabitants organized themselves in family units, groups, bands, clans, and tribes. Today, six Indian tribes in Utah are recognized as official entities. They include the Northwestern Shoshone, the Goshutes, the Paiutes, the Utes, the White Mesa or Southern Utes, and the Navajos (Dineh). Each tribe has its own government. Tribe members are citizens of Utah and the United States; however, lines of distinction both within the tribes and with the greater society at large have not always been clear. Migration, interaction, war, trade, intermarriage, common threats, and challenges have made relationships and affiliations more fluid than might be expected. In this volume, the editor and authors endeavor to write the history of Utah's first residents

from an Indian perspective. An introductory chapter provides an overview of Utah's American Indians and a concluding chapter summarizes the issues and concerns of contemporary Indians and their leaders. Chapters on each of the six tribes look at origin stories, religion, politics, education, folkways, family life, social activities, economic issues, and important events. They provide an introduction to the rich heritage of Utah's native peoples. This book includes chapters by David Begay, Dennis Defa, Clifford Duncan, Ronald Holt, Nancy Maryboy, Robert McPherson, Mae Parry, Gary Tom, and Mary Jane Yazzie. Forrest Cuch was born and raised on the Uintah and Ouray Ute Indian Reservation in northeastern Utah. He graduated from Westminster College in 1973 with a bachelor of arts degree in behavioral sciences. He served as education director for the Ute Indian Tribe from 1973 to 1988. From 1988 to 1994 he was employed by the Wampanoag Tribe in Gay Head, Massachusetts, first as a planner and then as tribal administrator. Since October 1997 he has been director of the Utah Division of Indian Affairs.

This Land

An eye-opening account of where our water comes from and where it all goes. The Colorado River is an essential resource for a surprisingly large part of the United States, and every gallon that flows down it is owned or claimed by someone. David Owen traces all that water from the Colorado's headwaters to its parched terminus, once a verdant wetland but now a

million-acre desert. He takes readers on an adventure downriver, along a labyrinth of waterways, reservoirs, power plants, farms, fracking sites, ghost towns, and RV parks, to the spot near the U.S.-Mexico border where the river runs dry. Water problems in the western United States can seem tantalizingly easy to solve: just turn off the fountains at the Bellagio, stop selling hay to China, ban golf, cut down the almond trees, and kill all the lawyers. But a closer look reveals a vast man-made ecosystem that is far more complex and more interesting than the headlines let on. The story Owen tells in *Where the Water Goes* is crucial to our future: how a patchwork of engineering marvels, byzantine legal agreements, aging infrastructure, and neighborly cooperation enables life to flourish in the desert—and the disastrous consequences we face when any part of this tenuous system fails.

The Third Circle

This book presents all the publicly available questions from the PISA surveys. Some of these questions were used in the PISA 2000, 2003 and 2006 surveys and others were used in developing and trying out the assessment.

Deception Cove

A woman who hears voices. A man who sees visions.
A killer who may elude them both.

Trust No One

After Virginia Dean wakes up next to a dead body with a bloody knife in her hand, the only person who believes she did not commit murder is Owen Sweetwater, a hunter of psychical monsters who is investigating the deaths of two glass readers.

Burning Lamp

New York Times bestselling author JAYNE CASTLE Capturing the “lively sensuality” (Library Journal) of the passion-filled, near-future space colony of St. Helen’s, the wildly popular alter ego of bestselling author Jayne Ann Krentz delivers “delectably entertaining paranormal romantic suspense” (Booklist)! Ever since a false tabloid story ruined her reputation and her interior design business, Zinnia Spring has been labeled the “Scarlet Lady” of St. Helen’s. Now, headstrong Zinnia makes a living using her psychic abilities—a highly prized skill that attracts the attention of another planetary outcast, Nick Chastain. The rough-edged casino owner craves what he doesn’t have— respectability—and he enlists Zinnia to help find his father’s journal and dig up answers to his own mysterious past. Zinnia doesn’t have to be psychic to know what else Nick wants; soon they’re reaching the electrifying heights of ecstasy—and danger. For when a ruthless killer crosses their search, it will take everything in their power to keep their feet on terra firma and survive a deadly trap!

The Great Barrier Reef

The Great Barrier Reef Marine Park is 344 400 square kilometres in size and is home to one of the most diverse ecosystems in the world. This comprehensive guide describes the organisms and ecosystems of the Great Barrier Reef, as well as the biological, chemical and physical processes that influence them. Contemporary pressing issues such as climate change, coral bleaching, coral disease and the challenges of coral reef fisheries are also discussed. In addition, the book includes a field guide that will help people to identify the common animals and plants on the reef, then to delve into the book to learn more about the roles the biota play. Beautifully illustrated and with contributions from 33 international experts, The Great Barrier Reef is a must-read for the interested reef tourist, student, researcher and environmental manager. While it has an Australian focus, it can equally be used as a baseline text for most Indo-Pacific coral reefs. Winner of a Whitley Certificate of Commendation for 2009.

Canyons of Night

Return to Harmony—where nothing is as it seems. Life is complicated for Lydia Smith. She's working at a tacky, third-rate museum, Shrimpton's House of Ancient Horrors, trying to salvage her career in para-archaeology—and dating the most dangerous man in town. Just when she thinks she might be getting things under control, she stumbles over a dead body and discovers that her lover has a secret past that could get him killed. Just to top it off, there's trouble brewing underground in the eerie, glowing green

Join birdsong expert Donald Kroodsma on a ten-week, ten-state bicycle journey as he travels with his son from the Atlantic to the Pacific, lingering and listening to our continent sing as no one has before. On remote country roads, over terrain vast and spectacular, from dawn to dusk and sometimes through the night, you will gain a deep appreciation for the natural symphony of birdsong many of us take for granted. Come along and marvel at how expressive these creatures are as Kroodsma leads you west across nearly five thousand miles—at a leisurely pace that enables a deep listen. Listening to a Continent Sing is also a guided tour through the history of a young nation and the geology of an ancient landscape, and an invitation to set aside the bustle of everyday life to follow one's dreams. It is a celebration of flowers and trees, rocks and rivers, mountains and prairies, clouds and sky, headwinds and calm, and of local voices and the people you will meet along the way. It is also the story of a father and son deepening their bond as they travel the slow road together from coast to coast. Beautifully illustrated throughout with drawings of birds and scenes and featuring QR codes that link to audio birdsong, this poignant and insightful book

takes you on a travel adventure unlike any other—accompanied on every leg of your journey by birdsong.

Illusion Town

Amber tuner and independent prospector Lyra Dore lost her heart—and her discovery of a rare amethyst ruin—to cutthroat businessman Cruz Sweetwater. At least she had her artistically talented dust-bunny to comfort her... But the ruin's mysterious power has put everyone involved with the project in danger. And only by trusting their psychic instincts will Cruz and Lyra survive— and surrender to the desire that binds them.

The Log of a Snow Survey

The novella that introduced the world of Harmony just below the City of Cadence lie the remains of the Dead City of Old Cadence— resonating with the psychic and para energy of its dead souls. While exploring the darkest depths of the city, two business partners discover passions within each other that are very much alive... Virginia Burch, a psychic archeologist, can't believe her luck when she meets Sam Gage, a ghost-hunter and owner of prime real estate in the Old Quarters of Cadence, above the Dead City. He offers her his space to live and start up her business. What follows is an even more intriguing proposal—to become his wife. Strictly for professional reasons, of course... Their marriage of convenience would lead to a very lucrative business partnership, Gage & Burch

Consulting. Until something throws a wrench into the plan: the undeniable sensual energy that naturally exists between them—and a love so strong it could wake the ghosts below... Includes a preview of the next Rainshadow Novel, Deception Cove. “A seasoned pro.”—People “[Castle] has created a fully imagined futurist world in Harmony.”—The Seattle Times “A master of sexual tension and intelligent banter.”—Publishers Weekly Bridal Jitters was previously published in Charmed and Harmony.

Second Sight

Local Guild boss and powerful ghost hunter Cooper Boone is everything botanist Elly St. Clair could ask for—the handsome, strong and silent type. Maybe too silent. For when Guild secrets threaten her career at the college, Elly has to call off their marriage—and leave small-town life behind But starting over in the thriving metropolis of Cadence City isn't easy, especially when one of Elly's new friends disappears in the eerie catacombs beneath the streets. Cooper turns up just in time to help Elly investigate. And as the mystery deepens and dangerous ghost myths and legends come to light, Cooper makes it clear he intends to stick around—and this time he's holding nothing back...

Managing the Columbia River

Tabloid reporter Sierra McIntyre wants a scoop when she interviews Ghost Hunter Guild boss John Fontana about the disappearances of retired, homeless

hunters. She doesn't want to trust the physically and psychically powerful man, but her intuition—and her dust bunny companion—give her the green light. To uncover the conspiracy within his own organization, Fontana proposes...marriage. And though it's purely a business arrangement, there's nothing pure about the attraction that sizzles between them.

Silver Master

Described as "a writer in the tradition of Henry David Thoreau, John Muir, and other self-educated seers" by the San Francisco Chronicle, David Rains Wallace turns his attention in this new book to another distinctive corner of California—its desert, the driest and hottest environment in North America. Drawing from his frequent forays to Death Valley, Red Rock Canyon, Kelso Dunes, and other locales, Wallace illuminates the desert's intriguing flora and fauna as he explores a controversial, unresolved scientific debate about the origin and evolution of its unusual ecosystems. Eminent scientists and scholars appear throughout these pages, including maverick paleobiologist Daniel Axelrod, botanist Ledyard Stebbins, and naturalists Edmund Jaeger and Joseph Wood Krutch. Weaving together ecology, geology, natural history, and mythology in his characteristically eloquent voice, Wallace reveals that there is more to this starkly beautiful landscape than meets the eye.

Landscape Of Desire

Rachel Blake, who is gifted with special abilities, finds

her peaceful existence on Rainshadow Island shattered by the arrival of Harry Sebastian, who needs her help to investigate strange happenings in the island's Preserve.

Water Wise

"A big, bold book about public lands . . . The Desert Solitaire of our time." --Outside A hard-hitting look at the battle now raging over the fate of the public lands in the American West--and a plea for the protection of these last wild places The public lands of the western United States comprise some 450 million acres of grassland, steppe land, canyons, forests, and mountains. It's an American commons, and it is under assault as never before. Journalist Christopher Ketcham has been documenting the confluence of commercial exploitation and governmental misconduct in this region for over a decade. His revelatory book takes the reader on a journey across these last wild places, to see how capitalism is killing our great commons. Ketcham begins in Utah, revealing the environmental destruction caused by unregulated public lands livestock grazing, and exposing rampant malfeasance in the federal land management agencies, who have been compromised by the profit-driven livestock and energy interests they are supposed to regulate. He then turns to the broad effects of those corrupt politics on wildlife. He tracks the Department of Interior's failure to implement and enforce the Endangered Species Act--including its stark betrayal of protections for the grizzly bear and the sage grouse--and investigates

the destructive behavior of U.S. Wildlife Services in their shocking mass slaughter of animals that threaten the livestock industry. Along the way, Ketcham talks with ecologists, biologists, botanists, former government employees, whistleblowers, grassroots environmentalists and other citizens who are fighting to protect the public domain for future generations. This Land is a colorful muckraking journey--part Edward Abbey, part Upton Sinclair--exposing the rot in American politics that is rapidly leading to the sell-out of our national heritage. The book ends with Ketcham's vision of ecological restoration for the American West: freeing the trampled, denuded ecosystems from the effects of grazing, enforcing the laws already in place to defend biodiversity, allowing the native species of the West to recover under a fully implemented Endangered Species Act, and establishing vast stretches of public land where there will be no development at all, not even for recreation.

Zinnia

Cadence City matchmaker and para-resonator Celinda Ingram meets her match in security specialist Davis Oakes. On the hunt for the powerful relic that Celinda supposedly bought as a toy for her pet dust bunny, Davis must use all of his unique psychic abilities to try and wrest the ruby red object from the suspicious duo, keep his desire for Celinda in check-and keep them all safe from those who will do anything to possess the relic.

Soon to be a major motion picture starring Kate Bosworth, Josh Lucas, Anthony Edwards, and Radha Mitchell "Each book by Jack Kerouac is unique, a telepathic diamond. With prose set in the middle of his mind, he reveals consciousness itself in all its syntactic elaboration, detailing the luminous emptiness of his own paranoid confusion. Such rich natural writing is nonpareil in later half XX century, a synthesis of Proust, Céline, Thomas Wolfe, Hemingway, Genet, Thelonus Monk, Basho, Charlie Parker, and Kerouac's own athletic sacred insight. "Big Sur's humane, precise account of the extraordinary ravages of alcohol delirium tremens on Kerouac, a superior novelist who had strength to complete his poetic narrative, a task few scribes so afflicted have accomplished—others crack up. Here we meet San Francisco's poets & recognize hero Dean Moriarty ten years after On the Road. Jack Kerouac was a 'writer,' as his great peer W.S. Burroughs says, and here at the peak of his suffering humorous genius he wrote through his misery to end with 'Sea,' a brilliant poem appended, on the hallucinatory Sounds of the Pacific Ocean at Big Sur." —Allen Ginsberg

Big Sur

face danger and the threat of death to find a centuries-old notebook that has been stolen from the collection Venetia was hired to photograph. "With her witty dialogue, multidimensional characters complete with eccentricities and psychic abilities, clever plotting, and generous humor, the perennially popular Quick has penned another surefire winner." - Booklist

50 Great States Read & Solve Crossword Puzzles

Inspiring people to care about the planet. In the new edition of *LIVING IN THE ENVIRONMENT*, authors Tyler Miller and Scott Spoolman have partnered with the National Geographic Society to develop a text designed to equip students with the inspiration and knowledge they need to make a difference solving today's environmental issues. Exclusive content highlights important work of National Geographic Explorers, and features over 200 new photos, maps, and illustrations that bring course concepts to life. Using sustainability as the integrating theme, *LIVING IN THE ENVIRONMENT 18e*, provides clear introductions to the multiple environmental problems that we face and balanced discussions to evaluate potential solutions. In addition to the integration of new and engaging National Geographic content, every chapter has been thoroughly updated and 18 new Core Case Studies offer current examples of present environmental problems and scenarios for potential solutions. The concept-centered approach used in the text transforms complex environmental topics and issues into key concepts that students will

understand and remember. Overall, by framing the concepts with goals for more sustainable lifestyles and human communities, students see how promising the future can be and their important role in shaping it. offers additional exclusive National Geographic content, including high-quality videos on important environmental problems and efforts being made to address them. Team up with Miller/Spoolman's, *LIVING IN THE ENVIRONMENT* and the National Geographic Society to offer your students the most inspiring introduction to environmental science available! Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

After Glow

Flows of the Columbia River, although modified substantially during the twentieth century, still vary considerably between seasons and between years. Lowest flows tend to occur during summer months when demand for irrigation water is at its highest and when water temperatures are greatest. These periods of low flows, high demand, and high temperature are critical periods for juvenile salmon migrating downstream through the Columbia River hydropower system. Although impacts on salmon of any individual water withdrawal may be small, the cumulative effects of numerous withdrawals will affect Columbia River flows and would pose increased risks to salmon survival. The body of scientific knowledge explaining salmon migratory behavior and physiology is substantial, but imperfect, and decision makers

should acknowledge this and be willing to take action in the face of uncertainties. In order to provide a more comprehensive water permitting process, the State of Washington, Canada, other basin states, and tribal groups should establish a basin-wide forum to consider future water withdrawal application permits. If the State of Washington issues additional permits for water withdrawals from the Columbia River, those permits should contain provisions that allow withdrawals to be curtailed during critical high-demand periods.
