Nursing Research

A Resource for Designing and Implementing Intervention Programs for At-Risk Learners This authoritative resource provides step-by-step procedures for planning, selecting, and tailoring interventions for at-risk learners with a unique focus on how to individualize interventions using actual case examples. In addition, this volume offers guidelines for gathering and interpreting data in a manner that assists in identifying targets for intervention and rich discussion and information relating to specific academic, cognitive, and behavioral manifestations of students with learning difficulties in reading, math, writing, and oral language. Practitioners will also recognize and learn how to intervene with students from underserved and mis-served populations who are at risk for learning failure including English-language learners and students from impoverished environments. Each chapter describes how specific difficulties interfere with classroom tasks and explain how to select, modify, or otherwise tailor an intervention based on that information. As with all volumes in the Essentials of Psychological Assessment series, this volume includes callout boxes highlighting key concepts, extensive illustrative material, and test

There are now numerous textbooks, sets of readings and reflections on doing social research. Much of this textbook material is American and deals with the way in which social research and in particular social surveys should be done. These 'cookbook' approaches to social research omit discussions of the interplay between research methods and research experience. Accordingly, research biographies have been produced in which editors have invited researchers to 'come clean' about the way in which research is actually done. While such accounts are high on description of the research process, they are often

The uneasy balance between these worlds is shattered when Starr witnesses the fatal shooting of her childhood best friend Khalil at the hands of a police officer. Khalil was unarmed. Soon afterward, his death is a national headline. Some are calling him a thug, maybe even a drug dealer and a gangbanger. Protesters are taking to the streets in Khalil's name. Some cops and the local drug lord try to intimidate Starr and her family. What everyone wants to know is: what really went down that night? And the only person alive who can answer that is Starr. But what Starr does—or does not—say could upend her community. It could also endanger her life. And don't miss *On the Come Up*, Angie Thomas's powerful follow-up to *The Hate U Give*.

New college instructors often complain they are handed their working papers and office keys shortly after their appointments and then set adrift. Nilson (teaching effectiveness and innovation, Clemson U.) gives practical advice on preparing for classes, including ways to develop ironclad syllabi; setting expectations of and for students, including managing incivility; preserving academic honesty amongst a student population which is simply not interested in it; identifying varieties of learning and developing teaching strategies; teaching problem solving; and assessing outcomes. Primary Review – England’s biggest enquiry into primary education for over forty years. Fully independent of government, it was launched in 2006 to investigate the condition and future of primary education at a time of change and uncertainty and after two decades of almost uninterrupted reform. Ranging over ten broad themes and drawing on a vast array of evidence, the Review published thirty-one interim reports, including twenty-eight surveys of published research, provoking media headlines and public debate, before presenting its final report and recommendations. This book brings together the twenty-eight research surveys, specially commissioned from sixty-five leading academics in the areas under scrutiny and now revised and updated, to create what is probably the most comprehensive overview and evaluation of research in primary education yet published. A particular feature is the prominence given to international and comparative perspectives. With an introduction from Robin Alexander, the Review’s director, the book is divided into eight sections, covering: children’s lives and voices: school, home and community children’s development, learning, diversity and needs aims, values and contexts for primary education the structure and content of primary education outcomes, standards and assessment in primary education teaching in primary schools: structures and processes teaching in primary schools: training, development and workforce reform policy frameworks: governance, funding, reform and quality assurance. The Cambridge Primary Review Research Surveys is an essential reference tool for professionals, researchers, students and policy-makers working in the fields of early years,

primary and secondary education.

Su"ender and catch: give so you can receive, where the giving is your whole self, in a total experience. This is scarcely new on the American scene, and it is ancient knowledge, East and West. The fears of total surrender, the fears of self-revelation and of total abandon, although genuine, are likewise not new. Yet Kurt H. Wolff does attempt something new here, an epistemological essay with the help of this old idea: his subtitle is 'experience and inquiry today'. He tries to formulate an integrated view which incorporates in the theory of total experience not only the accepted component- esthetics, religion, the recent American experience - but also a metaphysics, a phenomenology, a theory of perception, a social philosophy and a methodology of the social sciences, even a philosophy of history and psychopathology. Phenomenology (especially Alfred Schutz), the critical Frankfurt school (especially Adorno and Marcuse), sociology (especially Georg Simmel), and existentialism (especially Camus) are tied in together. It all looks topsy-turvy at first. We have here scraps of a diary, fragments of correspondence, a stray adolescent love letter, notes on notes on field work, and notes and comments on tutorial seminars plus long excerpts from students' essays, a stray paper in a learned journal summarizing the core of the book, comments piled on comments and a web of self-references, literary criticisms, and pieces of poetry, plus a rich scholarly apparatus.

The Catcher in the Rye

Geographical analysis of tourism spaces and places is advancing fast. In terms of human geography, the various recent academic 'turns' have led to fresh examination of existing debates and have advanced new theoretical ideas in geography that are more salient than ever for tourism studies. The Routledge Handbook of Tourism Geographies seeks to examine such recent developments by providing a state-of-the-art review of the field, documenting advances in research and evaluating different perspectives, approaches, techniques and contexts. The Routledge Handbook of Tourism Geographies considers recent disciplinary developments (including post-disciplinarily) in geography in relation to the study of tourism. It also analyzes the fledging relationships of the new mobilities paradigm, critical tourism studies and cultural political economy to tourism spaces and places, as well as acknowledging a spatial turn in poststructuralist social sciences more generally. In addition, it evaluates how postcolonial, feminist, sensory, performative and queer perspectives have diversified research in the tourism geographies field. Spatial analysis, time geography, placemaking and landscape

concerns are addressed and issues such as transport, environmental discourses and development are also analyzed. Finally, the volume's contributions highlight key areas for advancing research and map out the dimensions of future trajectories in tourism geographies in different theoretical and thematic contexts. Written by leading scholars in the tourism geographies field, this text will provide an invaluable resource for all those with an interest in tourism geographies, encouraging dialogue across disciplinary boundaries and areas of study.

In this book, *CARON: Awakening*, a mother shares her experiences and emotions during her daughter's struggles to emerge from a coma following a closed head injury. The early chapters reflect the author's heavy heart, as Caron wrestles to return to consciousness--and confusion. Eventually, Caron realizes the ramifications of an insult to her brain and joins her family's nightmare. From this point, focus switches to Caron's frustrations as she battles to piece her life back together again. Caron's family quickly learns that, especially under such tragic circumstances, laughter is essential. It stabilizes the family, contributes to awakening a comatose patient, and lightens the journey of the patient who emerges into a surreal world of disconnect from the little she remembers about the

AMAZON.COM: INSPIRATIONAL READ FOR ALL, September 30, 2010, by E. Standish
Caron: Awakening is an incredible true story of a family’s love, struggle, and triumph during a time of great hardship. Teahan weaves together the emotional realities of family members when dealing with a loved one who has a traumatic brain injury. She introduces the reader to the struggles and successes of working with the hospital personnel from the time her daughter was flown to the emergency room all the way through her rehabilitation and beyond. This book would be great for people experiencing a similar situation, or for people like me who are intrigued by a heartfelt story of the intense love of a mother for her daughter. This book kept me up night after night because I couldn’t stop rooting for Caron and her recovery! You will laugh, cry, and celebrate right along with Caron and her family through every step of the journey. UPLIFTING & FUNNY/A HEARTWARMING STORY OF LOVE & FAMILY, November 11, 2010, by Dani Vaughn
This book is both an intimate look into a situation nobody would ever hope to find themselves in and a "trust yourself" redemption story that gave me warm fuzzies at the end. I read for escape so I like my books to be brain candy - I want them to take me someplace I would/could not go on my own. This one did that. I cried and I laughed and I felt like I was living this story through the best and the worst.
