Goods And Service Tax Law And Practice (3 Volume Set), 4E

Laws of Minnesota Relating to Schools and Education

There cannot be two opinions about the ever growing significance of indirect taxes both at the central and state levels. However, owing to presence of multiple indirect taxes, there had been a strong demand for subsuming of many indirect taxes. Keeping in view the aforesaid objective, the Goods and Services Tax (GST), the biggest indirect Tax reform, has been implemented with effect from

01.07.2017. However, several teething problems are continuously emerging. Resultantly, government has to frequently issue new notifications, circulars, clarifications, orders, FAQs etc. For the purpose of solving the problems and bringing greater transparency and clarity. A comprehensive book written in a simple language with practical examples is absolutely essential for the professionals for gaining knowledge of the subject. Keeping in view the requirement of the professionals, the present three volume book is being published. Further, inclusion of numerous practical examples is another unique feature of this book which shall undoubtedly bring greater clarity in understanding the intricate provisions of the new tax regime.

Uniquely written from inside the banking world this book gives a comprehensive account of the organization and activities of the major central European banks during the 1980s. Each of the individually authored chapters has been written to a common pattern in order to facilitate reference and comparison. Each also contains an annex with a specimen return of the bank in question and brief explanatory notes on the various items.

Barons of Banking

Consolidated Statutes of North Carolina, Prepared Under Public Laws 1917, Chapter 252, and Public Laws 1919, Chapter 238

The Central Law Journal

Barons of Banking highlights the contributions of six distinguished personalities from the world of banking—Sir Sorabji Pochkhanawala, Sir Purshotamdas

Thakurdas, Sir Chintaman D. Deshmukh, A.D. Shroff, H.T. Parekh, and R.K. Talwar—who not only played a pioneering role in the growth of the institutions which they founded, or were actively associated with, but left an indelible mark on the banking industry as a whole. Through the narration of the history of five key institutions - the Central Bank of India; the Reserve Bank of India; the State Bank of India; the Industrial Credit and Investment Corporation of India Ltd; and the Housing Development and Finance Corporation Ltd—the author gives us a keen insight into the contributions of these luminaries to banking in India. Also included is a narration of the recommendations of important committees and commissions which influenced the course of Indian banking. Divided into four parts, the book uses hitherto unused archival material recently put in the public domain by the RBI. Of particular interest is a discussion of the acrimonious relationship between Sir James Grigg, the Finance Member of the Viceroy's Executive Council and Sir Osborne Smith, the first Governor of the RBI, which throws fresh light on a spat which remains unprecedented not only in the bank's history, but possibly in all of banking history. Meticulously researched and engagingly written, this book will be of interest to both the academic and general reader and, of course, to the professional banker interested in a selective peep into the history of his profession.

Indian doctors, schooled in Western science, are ignorant of the medical ethics of their own culture. They make a conscious effort to distance themselves from Ayurvedic medicine, in which the ethical codes are enshrined. Teachers and students forget that values have universal applicability, regardless of the mode of practice - Western or traditional - and that the patient remains the same regardless of the system. Unethical practices in getting entry into medical colleges and in hospital's.

Environmental Studies by Dr Narendra Mal Surana and Mrs Hemlata Ojha Malviya is a publication of the SBPD Publishing House, Agra. Environmental science has become the most popular subject in the world nowadays. The whole world is facing the threat of imbalance in the environment such as overexploitation of nature and natural resources, deforestation, industrialisation and urbanisation. Our ancient scriptures and literature are the witness of awareness and conservation instinct

about the environment at that time. The subject environmental studies has become the part of syllabus of the Degree courses after the issuing of an order by the Hon'ble Supreme Court to create awareness among the students. This book has been written according to the unified syllabus issued by U.G.C. for all universities and colleges in India. The authors' are very satisfied to say that the book contains all the latest information and data, which will be useful for the young generation. The authors' are proud to incorporate some more chapters viz. Chapter 2-The Vedic Description and Religious Aspect of Environment, Chapter 3-Current Status of Environment in India and Chapter 10-A Threat to 21st Century AIDS. Attention has also been drawn to provide more and more questions, objective type questions etc. to the students for their examination point of view.
