#1 NEW YORK TIMES BESTSELLER • In *Sapiens*, he explored our past. In *Homo Deus*, he looked to our future. Now, one of the most innovative thinkers on the planet turns to the present to make sense of today's most pressing issues. "Fascinating . . . a crucial global conversation about how to take on the problems of the twenty-first century."—Bill Gates, *The New York Times* Book Review NAMED ONE OF THE BEST BOOKS OF THE YEAR BY FINANCIAL TIMES AND PAMELA PAUL, KQED How do computers and robots change the meaning of being human? How do we deal with the epidemic of fake news? Are nations and religions still relevant? What should we teach our children? Yuval Noah Harari's *21 Lessons for the 21st*

Century is a probing and visionary investigation into today's most urgent issues as we move into the uncharted territory of the future. As technology advances faster than our understanding of it, hacking becomes a tactic of war, and the world feels more polarized than ever, Harari addresses the challenge of navigating life in the face of constant and disorienting change and raises the important questions we need to ask ourselves in order to survive. In twenty-one accessible chapters that are both provocative and profound, Harari builds on the ideas explored in his previous books, untangling political, technological, social, and existential issues and offering advice on how to prepare for a very different future from the world we now live in: How can we retain freedom of choice when Big Data is watching us? What will the future workforce look like, and how should we ready ourselves for it? How should we deal with the threat of terrorism? Why is liberal democracy in crisis? Harari's unique ability to make sense of where we have come from and where we are going has captured the imaginations of millions of readers. Here he invites us to consider values, meaning, and personal engagement in a world full of noise and uncertainty. When we are deluged with irrelevant information, clarity is power. Presenting complex contemporary challenges clearly and accessibly, *21 Lessons for the 21st Century* is essential reading. "If there were such a thing as a required instruction manual for politicians and thought leaders, Israeli historian Yuval Noah Harari's *21 Lessons for the 21st Century* would deserve serious consideration. In this collection of provocative essays, Harari . . . tackles a daunting array of issues, endeavoring to answer a persistent question: 'What is happening in

the world today, and what is the deep meaning of these events?'"—BookPage (top pick)

21 Lessons for the 21st Century

For many, the Bible is a mysterious and “closed” book. However, Ephesians – 1st Century Background and 21st Century Applications seeks to “open” this great New Testament letter. Ephesians – 1st Century Background and 21st Century Applications give the reader or a study group the tools for understanding the historical, linguistic, geographical, literary, and theological foundations of the six chapters of Ephesians. Though some may view “Bible study” as merely increasing one’s “head knowledge” with little or no change in lifestyle, attitudes, or behavior, Ephesians – 1st Century Background and 21st Century Applications shows practical ways that one’s “lifestyle, attitude, and behavior may be shaped by the Scriptures.” The Biblical text for Ephesians – 1st Century Background and 21st Century Applications is a paraphrase created by the author and built upon the original Greek text plus several English and French translations. Ephesians – 1st Century Background and 21st Century Applications provides opportunities for you to change around:

- God’s grace, love, and reconciliation through Christ’s death and resurrection.
- The church is not a building or a bureaucracy, but it “exists wherever people are committed to Jesus and one another.”
- How Christ wants to be “at home” in every aspect of life.
- Building a strong marriage and family life.

Business English for the 21st Century

Acts is the sequel to Luke's gospel and tells the story of Jesus's followers during the 30 years after his death. It describes how the 12 apostles, formerly Jesus's disciples, spread the message of Christianity throughout the Mediterranean against a background of persecution. With an introduction by P.D. James

"What year are you preparing your students for? 1973? 1995? Can you honestly say that your school's curriculum and the program you use are preparing your students for 2015 or 2020? Are you even preparing them for today?" With those provocative questions, author and educator Heidi Hayes Jacobs launches a powerful case for overhauling, updating, and injecting life into the K-12 curriculum. the collective wisdom of 10 education thought leaders, Jacobs provides insight and inspiration in the following key areas: * Content and assessment--How to identify what to keep, what to cut, and what to create, and where portfolios and other new kinds of assessment fit into the picture. * Program structures--How to improve our use of time and space and groupings of students and staff. * Technology--How it's transforming teaching, and how to take advantage of students' natural facility with technology. * Media literacy--The essential issues to address, and the best resources for helping students become informed users of multiple forms of media. * Globalization--What steps to take to help students gain a global perspective. * Sustainability--How to instill enduring values and beliefs that will lead to healthier local, national, and global communities. * Habits of mind--The thinking habits that students, teachers, and administrators need to develop and practice to succeed in school, work, and life. The answers to these questions and many more make Curriculum 21 the ideal guide for transforming our schools into what they must become: learning organizations that match the times in which we live.

Who are These Salvationists?

Vaccines have made it possible to eradicate the scourge of smallpox, promise the same for polio, and have profoundly reduced the threat posed by other diseases such as whooping cough, measles, and meningitis. What is next? There are many

pathogens, autoimmune diseases, and cancers that may be promising targets for vaccine research and development. This volume provides an analytic framework and quantitative model for evaluating disease conditions that can be applied by those setting priorities for vaccine development over the coming decades. The committee describes an approach for comparing potential new vaccines based on their impact on morbidity and mortality and on the costs of both health care and vaccine development. The book examines: Lessons to be learned from the polio experience. Scientific advances that set the stage for new vaccines. Factors that affect how vaccines are used in the population. Value judgments and ethical questions raised by comparison of health needs and benefits. The committee provides a way to compare different forms of illness and set vaccine priorities without assigning a monetary value to lives. Their recommendations will be important to anyone involved in science policy and public health planning: policymakers, regulators, health care providers, vaccine manufacturers, and researchers.

Local Economic Development in the 21st Century: Quality of Life and Sustainability

Provides a comprehensive look at local economic development and public policy, placing special emphasis on quality of life and sustainability. It draws extensively on case studies, and includes both mainstream and alternative perspectives in dealing with economic growth and development issues. The contributions of economic theories and empirical research to the policy debates, and the relationship of both to quality of life and sustainability are explored and clarified.

Century 21 Accounting, Chapters 11-18 - Working Papers

Conditional Futurism introduces a new perspective of end-time theology (eschatology). The book holds to Christian futurism while integrating the Apocalypse of John with the conditional dynamics of prophecy taught in Jeremiah, Ezekiel, Daniel, and various other books throughout the Old Testament. The new paradigm concludes that the final antichrist (also known as the man of lawlessness, the beast, and the eighth king) may read the apocalyptic prophecy of

his doom while deciding instead to repent of evil and turn to the Lord, which is a biblical option that would fulfill the divine purposes of the apocalypse. This cutting-edge scholarship also develops new biblical models of angels appearing as humans, the descent of Christ into hell, and the kings in Revelation that incorporate with this end-time theology that encourages hope in all circumstances.

Century 21 Accounting: Multicolumn Journal, Introductory Course, Chapters 1-16, 2012 Update

Exploring one of the most dynamic and contested regions of the world, this series includes works on political, economic, cultural, and social changes in modern and contemporary Asia and the Pacific. The leading specialist on China's twentieth century peasant resistance reexamines, in bold and original ways, the question: Was the Chinese peasantry a revolutionary force? Where most scholarly attention has focused on Communist-led peasant movements, Bianco's story is one of peasant thought and action largely unmediated by modern political parties. This volume pays particular attention to the first half of the twentieth century when peasant-based conflict, ranging from tax and food protests to secret society conflicts, opium struggles, inter-communal conflicts, and tenant protests over rent, was central to nationwide revolutionary processes.
