This Is Your Brain on Birth Control

Before the age of 20, more than half of teenagers have sex, and one out of four contracts a sexually transmitted disease. One million adolescent women become pregnant each year, and 80 percent of these pregnancies are unintended. This book provides comprehensive, straightforward information about sex, relationships, and birth control in reader-friendly terms, emphasizing informed consent and mutual respect. A tool for young adults coming to terms with their sexuality, this book is appropriate for teens to read on their own and will serve teachers, parents and health educators who work with young adults. It includes a curriculum guide that provides questions for discussion and background history on various topics, plus an appendix of resources for additional information on sexuality, birth control, teen pregnancy, sexually transmitted diseases and related topics—with addresses and Internet sites (when available).

The Changing Times

This book is for every woman who has wished for an unhurried, personal conversation with a sympathetic doctor who will answer her questions about reproductive health. Dr. Mary Jane Minkin, a gynecologist practicing for more than 25 years, presents a complete and up-to-date guide to a healthy reproductive system for women in their teens through middle age. With warmth and understanding, Dr. Minkin and coauthor Carol V. Wright respond to questions about the gynecological issues that concern women today, including sexual activity, contraception, and family planning. Readers of The Yale Guide to Women's Reproductive Health will learn how the female body works, what problems may arise, and what solutions are available—in short, they will become better prepared to participate in their own health care and to make healthy decisions.
