In this fascinating book, Vic Satzewich traces one hundred and twenty-five years of Ukranian migration, from the economic migration at the end of the nineteenth century to the political migration during the inter-war period and throughout the 1960s and 1980s resulting from the troubled relationship between Russia and the Ukraine. The author looks at the ways the Ukranian Diaspora has retained its identity, at the different factions within it and its response to the war crimes trials of the 1980s.

Vermeer's record of the tasks and duties of women  
The 35 paintings that have come down to us from the hand of Jan Vermeer (1632-1675) place him beside Rembrandt and Frans Hals as one of the great masters of the golden age of Dutch art. Most of his pictures (all of which are reproduced in this book) show women about their daily business. Vermeer records the tasks and duties of women, the imperatives of virtue under which their lives were lived, and the dreams that provided the substance of their contrasting counter-world. About the Series: Each book in TASCHEN's Basic Art series features: a detailed chronological summary of the life and oeuvre of the artist, covering his or her cultural and historical importance a concise biography approximately 100 illustrations with explanatory captions
