Ford Cortina and Escort Mk I and Mk II models brought family motoring to millions of people from the early 1960s. These Fords were straightforward, easy to drive and simple to maintain, and their popularity has been sustained largely because of this. Their basic simplicity of design and inherent ruggedness means that they are ideal candidates for DIY restoration. The booming owners's club movement and the continuing availability of spare parts ensures that these cars will have a strong following for many years to come.

and, now on its fifth generation, has become one of the most prolific and modified cars of all time. The car instantly won favor with tuners and modifiers, and today the Golf remains one of the most popular project cars with performance tuners. A thriving support structure of clubs, specialist magazines, and part suppliers ensure that the Golf, in all its forms, will remain popular with tuning enthusiasts for many years to come.

National Geographic's wall map of South Africa features the country's nine provinces along with the bordering countries of Namibia, Botswana, Zimbabwe, Mozambique, Swaziland, and Lesotho. Also included are southern Africa's premier wildlife venues -- its national parks and reserves. Many local language place-names are used reflecting the region's rich cultural diversity. Physical geography details include shaded relief and cartographic patterns used to depict sand, salt pans, and swamps. This map also features a detailed transportation network including highways, roads, passenger railroads, and major airports. All proceeds from the purchase of a National Geographic map help support the Society's vital exploration, conservation, scientific research, and education programs.
