Math Connects: Concepts, Skills, and Problem Solving was written by the authorship team with the end results in mind. They looked at the content needed to be successful in Geometry and Algebra and backmapped the development of mathematical content, concepts, and procedures to PreK to ensure a solid foundation and seamless transition from grade level to grade level. The series is organized around the new NCTM Focal Points and is designed to meet most state standards. Math Connects focuses on three key areas of vocabulary to build mathematical literacy, intervention options aligned to RtI, and a comprehensive assessment system of diagnostic, formative, and summative assessments.

All the Math You Needs to Succeed in Algebra II This book will help you develop the math skills needed to succeed in the classroom and on standardized tests. The user-friendly pages are filled with easy-to-follow explanations of key algebra II concepts, followed by detailed examples that clearly demonstrate how to solve common problems. Hundreds of practice questions will help you master each concept, sharpen your problem-solving skills, and build confidence. Features include:

- Topics aligned with national and state standards for algebra II courses
- Content focused on helping you excel in the classroom and on standardized tests
- Concise, clear explanations to easily grasp key concepts
- Thorough examples that illustrate how to solve typical algebra II questions
- More than 500 math problems that provide extensive opportunities to practice your new skills
- Helpful appendixes covering matrices and probabilities

Topics covered:

- Linear Equations and Inequalities
- Functions
- Quadratic Relationships
- Complex Numbers
- Polynomial Functions
- Rational and Irrational Functions
- Exponential and Logarithmic Functions
- Sequences and Series
- Trigonometry
- Descriptive Statistics
- Inferential Statistics
