Bachelor Thesis from the year 2016 in the subject Pedagogy - The Teacher, Educational Leadership, grade: 8, University of Latvia, language: English, abstract: The Diploma Paper explores techniques to teach American culture in English lessons in Grade 11. The author believes that teaching American culture, especially in the 21st century, is of high importance. The chosen research method was a case study in a Riga School. Interviews, questionnaire, students' portfolios and feedback were chosen as data collection methods. The data reflect that the use of the teaching techniques enhanced students' intercultural skills. American culture contributed to Grade 11 students' ability to draw connections among ideas, justify a stand or decision as well as produce a new original work or point of view. Even though the research showed beneficial results, the author suggests carrying out further research to gather more data on the topic in other age groups.

The Path to Get There

The past ten years in South Africa has seen many changes in education - the creation of a single department of education; common examinations for all learners in public schools in the country, a new outcomes based education curriculum which was introduced to learners in the general education and training phase since 1998 and will be introduced to the further education and training phase from 2006. To evaluate the success of these changes South African researchers still use the indicator of student achievement. The matriculation examination is the visible, high profile and public performance indicator. Every year parents, learners, teachers, researchers, government officials, policymakers, and the general public get involved in the debate around the matric examination with the most frequently asked questions being - Did the pass rate go up? Are standards dropping? Are the results real or have they been manipulated? How is our education system doing? Are we meeting the development goals? What should the matriculation examination of the future look like? participants from government (national and provincial),

The Common Core State Standards represents a call for all teachers to focus on the literacy learning of their students. Together, these skills—reading, writing, speaking, listening, and viewing—comprise the literacies that students must develop if they are to master content and be successful in college or the workplace. This book will assist content area teachers in understanding the Common Core State Standards that apply to their various courses. Standards in history/social studies, science, and technical subjects are explained in detail, including examples of lessons designed to ensure that students master each standard.

Paths to College and Career Jossey-Bass and PCG Education are proud to bring the Paths to College and Career English Language Arts (ELA) curriculum and professional development resources for grades 6–12 to educators across the country. Originally developed for EngageNY and written with a focus on the shifts in instructional practice and student experiences the standards require, Paths to College and Career includes daily lesson plans, guiding questions, recommended texts, scaffolding strategies and other classroom resources. Paths to College and Career is a concrete and practical ELA instructional program that engages students with compelling and complex texts. At each grade level, Paths to College and Career delivers a yearlong curriculum that develops all students' ability to read closely and engage in text-based discussions, build evidence-based claims and arguments, conduct research and write from sources, and expand their academic vocabulary. Paths to College and Career's instructional resources address the needs of all learners, including students with disabilities, English language learners, and gifted and talented students. This enhanced curriculum provides teachers with freshly designed Teacher Guides that make the curriculum more accessible and flexible, a Teacher Resource Book for each module that includes all of the materials educators need to manage instruction, and Student Journals that give students learning tools for each module and a single place to organize and document their learning. As the creators of the Paths ELA curriculum for grades 6–12, PCG Education provides a professional learning program that ensures the success of the curriculum. The program includes: Nationally recognized professional development from an organization that has been immersed in the new standards since their inception. Blended learning experiences for teachers and leaders that enrich and extend the learning. A train-the-trainer program that builds capacity and provides resources and individual support for embedded leaders and coaches. Paths offers schools and districts a unique approach to ensuring college and career readiness for all students, providing state-of-the-art curriculum and state-of-the-art implementation.

Common Core Connections: Math is the perfect tool for helping first grade students master Common Core math skills. The Common Core Standards for Math in first grade focus on four main areas: addition and subtraction within 20, developing an understanding of place value, developing an understanding of linear measurements, and composing and decomposing geometric shapes. This resource provides focused practice pages for targeting and reinforcing these and other first grade math skills while helping students connect comprehension with knowledge and application. Connecting the standards to content has never been easier with the Common Core Connections series for Math. The Common Core Connections series provides teachers with a skill assessment and analysis to help determine individualized instruction needs. Focused, comprehensive practice pages and self-assessments guide students to reflection and exploration for deeper learning! Standards correlations are printed on each page to make planning and documentation simple. This series is an ideal resource for differentiation and remediation. Each 96-page book includes a skill assessment, assessment analysis, Common Core State Standards Alignment Matrix, and answer key.
