Career is a concrete and practical ELA instructional program that engages students with compelling and complex texts. At each grade level, Paths to College and Career delivers a yearlong curriculum that develops all students' ability to read closely and engage in text-based discussions, build evidence-based claims and arguments, conduct research and write from sources, and expand their academic vocabulary. Paths to College and Career's instructional resources address the needs of all learners, including students with disabilities, English language learners, and gifted and talented students. This enhanced curriculum provides teachers with freshly designed Teacher Guides that make the curriculum more accessible and flexible, a Teacher Resource Book for each module that includes all of the materials educators need to manage instruction, and Student Journals that give students learning tools for each module and a single place to organize and document their learning. As the creators of the Paths ELA curriculum for grades 6–12, PCG Education provides a professional learning program that ensures the success of the curriculum. The program includes: Nationally recognized professional development from an organization that has been immersed in the new standards since their inception. Blended learning experiences for teachers and leaders that enrich and extend the learning. A train-the-trainer program that builds capacity and provides resources and individual support for embedded leaders and coaches. Paths offers schools and districts a unique approach to ensuring college and career readiness for all students, providing state-of-the-art curriculum and state-of-the-art implementation.

### **Oswaal ISC Sample Question Paper Class 11 English Paper 2 Literature (For 2020 Exam)**

Bachelor Thesis from the year 2016 in the subject Pedagogy - The Teacher, Educational Leadership, grade: 8, University of Latvia, language: English, abstract: The Diploma Paper explores techniques to teach American culture in English lessons in Grade 11. The author believes that teaching American culture, especially in the 21st century, is of high importance. The chosen research method was a case study in a Riga School. Interviews, questionnaire, students' portfolios and feedback were chosen as data collection methods. The data reflect that the use of the teaching techniques enhanced students' intercultural skills. American culture contributed to Grade 11 students' ability to draw connections among ideas, justify a stand or decision as well as produce a new original work or point of view. Even though the research showed beneficial results, the author suggests carrying out

further research to gather more data on the topic in other age groups.

### **English Language Arts, Grade 11 Module 3**

Paths to College and Career is a new, comprehensive English Language Arts curriculum for grades 6 to 12 built from the ground up over a three-year period to address the Common Core State Standards (CCSS) for English Language Arts and Literacy. It reflects a deep understanding of the standards and assessments, and is written with a focus on the shifts in instructional practice and student experiences the standards require. It includes daily lesson plans, guiding questions, recommended texts, scaffolding strategies, and other classroom resources. Paths to College and Career provides teachers, schools, and districts with a concrete and practical ELA instructional program that engages students with compelling and

complex texts. At each grade level, Paths to College and Career delivers a yearlong curriculum that develops all students' ability to \* read closely and engage in text-based discussions, \* build evidence-based claims and arguments, \* conduct research and write from sources, and \* expand their academic vocabulary. Paths to College and Career's instructional resources address the needs of all learners, including students with disabilities, English language learners, and gifted and talented. The curriculum is flexible, user friendly, engaging, and purposefully built to prepare students for career, college, and life. In Module 3 of Grade 11, students engage in an inquiry-based, iterative process for research. Building on work with evidence-based analysis in Modules 1 and 2 of Grade 11, students explore topics that have multiple positions and perspectives by gathering and analyzing research based on vetted sources to establish a position of their own. Students first generate a written evidence-based perspective, which will serve as the early foundation of what will ultimately become a written research-based argument paper. The research-based argument paper synthesizes and articulates several claims using valid reasoning and relevant and sufficient evidence to support the claims. Students read and analyze sources to surface potential problem-based questions for research, and develop and strengthen their writing by revising and editing.
