The Greek gods never actually existed. Did they? Sophie Darrow finds she was wrong about that assumption when she's pulled into the spirit realm, complete with an Underworld, on her first day at college. Adrian, the mysterious young man who brought her there, simply wants her to taste a pomegranate. Soon, though she returns to her regular life, her mind begins exploding with dreams and memories of ancient times; of a love between two Greeks named Persephone and Hades. But lethal danger has always surrounded the immortals, and now that she's tainted with the Underworld's magic, that danger is drawing closer to Sophie. Sixteen-year-old Riley Williams has been able to see ghosts since the car crash that took her mother's life and shattered her family. Guilt-ridden over the belief that she's somehow responsible for her mom's death, Riley is desperate to see her mother's elusive spirit to gain her forgiveness. When her father moves the family to Scotland so they can all start over, Riley believes her life couldn't get worse--that is until the ghost of nineteen-year-old Ian MacKinnon catches her purposely cutting herself. An uneasy truce quickly turns into friendship, and soon Riley's falling hard for Ian. Riley believes her gift could help Ian end the curse that has kept him tied to the land for centuries, but that would mean letting him go forever and she's not sure she is strong enough to do that. As if her life wasn't complicated enough, the malevolent spirit of the woman who killed Ian returns and she'll stop at nothing to keep Riley from helping Ian find eternal peace.

“Excellent . . . deserves high praise. Mr. Taylor conveys this sprawling continental history with economy, clarity, and vividness.”—Brendan Simms, Wall Street Journal The American Revolution is often portrayed as a high-minded, orderly event whose capstone, the Constitution, provided the nation its democratic framework. Alan Taylor, a two-time Pulitzer Prize winner, gives us a different creation story in this magisterial history. The American Revolution builds like a ground fire overspreading Britain’s colonies, fueled by local conditions and

resistant to control. Emerging from the continental rivalries of European empires and their native allies, the revolution pivoted on western expansion as well as seaboard resistance to British taxes. When war erupted, Patriot crowds harassed Loyalists and nonpartisans into compliance with their cause. The war exploded in set battles like Saratoga and Yorktown and spread through continuing frontier violence. The discord smoldering within the fragile new nation called forth a movement to concentrate power through a Federal Constitution. Assuming the mantle of "We the People," the advocates of national power ratified the new frame of government. But it was Jefferson's expansive "empire of liberty" that carried the revolution forward, propelling white settlement and slavery west, preparing the ground for a new conflagration.

"A dazzling journey across the sciences and humanities in search of deep laws to unite them."  
--The Wall Street Journal One of our greatest living scientists--and the winner of two Pulitzer Prizes for On

Human Nature and The Ants--gives us a work of visionary importance that may be the crowning achievement of his career. In *Consilience* (a word that originally meant "jumping together"), Edward O. Wilson renews the Enlightenment's search for a unified theory of knowledge in disciplines that range from physics to biology, the social sciences and the humanities. Using the natural sciences as his model, Wilson forges dramatic links between fields. He explores the chemistry of the mind and the genetic bases of culture. He postulates the biological principles underlying works of art from cave-drawings to *Lolita*. Presenting the latest findings in prose of wonderful clarity and oratorical eloquence, and synthesizing it into a dazzling whole, *Consilience* is science in the path-clearing traditions of Newton, Einstein, and Richard Feynman.

### **A Bit of Bite**

A mysterious invention causes mayhem in a coastal English village—from “my very favourite of the four Queens of Crime” (J. K. Rowling). The ancient hamlet of Saltey, once the haunt of smugglers, now hides a secret rich and mysterious enough to trap all who enter . . . and someone in town is willing to terrorize, murder, and raise the very devil to keep that secret to themselves. When a transistor thought to be the key to telepathic communication is found, Albert Campion is called to sort fact from fiction. But the device at the center of the mystery is in the possession of two schoolboys, and whether they stole it or invented it, there are others who will kill to get hold of it.

“Allingham has a strong, well controlled sense of humour, a power of suggesting character with a few touches and an excellent English style. She has a sense of the fantastic, and is never dull” —Times Literary Supplement

Every day in the United States, children and adolescents are victims of commercial sexual exploitation and sex trafficking. Despite the serious and long-term consequences for victims as well as their families, communities, and society, efforts to

prevent, identify, and respond to these crimes are largely under supported, inefficient, uncoordinated, and unevaluated. Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States examines commercial sexual exploitation and sex trafficking of U.S. citizens and lawful permanent residents of the United States under age 18. According to this report, efforts to prevent, identify, and respond to these crimes require better collaborative approaches that build upon the capabilities of people and entities from a range of sectors. In addition, such efforts need to confront demand and the individuals who commit and benefit from these crimes. The report recommends increased awareness and understanding, strengthening of the law's response, strengthening of research to advance understanding and to support the development of prevention and intervention strategies, support for multi-sector and interagency collaboration, and creation of a digital information-sharing platform. A nation that is unaware of these problems or disengaged from solutions unwittingly contributes to the ongoing abuse of minors. If acted upon in a coordinated and comprehensive manner, the recommendations of Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States can help advance and strengthen the nation's emerging efforts to prevent, identify, and respond to commercial sexual exploitation and sex trafficking of minors in the United States.

Analyzes the American evangelical experience, drawing on intimate interviews with members of the Vineyard church while explaining the scientific aspects of intensely practiced prayer and collective supernatural experiences.

### **Genealogy of the Descendants of John Eliot, "apostle to the Indians," 1598-1905**

When second son Alexander Valentine loses his brother to an assassin's arrow, he discovers that his family protects an ancient secret and reluctantly finds himself at the center of the final battle of a war that was supposed to have ended two thousand years ago. Pursued by the dark minions of an ancient enemy, Alexander flees to the mountain city of Glen Morillian where he discovers that he is the heir to the throne of Ruatha, one of the Seven Isles, but before he can claim the throne he must recover the ancient Thinblade. Seven were forged by the first Sovereign of the Seven Isles and bound to the bloodline of each of the seven Island Kings in exchange for their loyalty to the Old Law. Each sword is as long as a man's arm, as wide as a man's thumb and so thin it can't be seen when viewed from the edge. Thinblade is the story of

Alexander's quest to find the ancient sword, claim the throne of Ruatha and raise an army to stand against the enemy that has awoken to claim dominion over all of the Seven Isles.

Was she insane or psychically gifted? Private Investigator, Taylor Morrison, has just managed to put her life back together after the death of her husband, when strange things begin to happen around her. Things that can't be explained. Taylor begins her search for answers only to discover that someone else knows what she is capable of and they will stop at nothing to possess it. As Taylor's once ordered world erupts into violence and chaos, she is forced to go on the run, fighting to protect the people she loves, even as she struggles to control the power she doesn't understand.

### **American Revolutions: A Continental History, 1750-1804**

""Let us dare to read, think, speak and write." In 1765, John Adams, a twenty-nine-year-old Massachusetts lawyer, pondered the crisis engulfing Great Britain and its North American colonies. In his view, the dispute's focus was how the British Empire was to be governed under the unwritten English constitution. To address that problem, Adams drafted

a pamphlet, "A Dissertation on the Canon and Feudal Law." He likened Britain's abuse of its authority over the colonists to the enslavement of medieval Europe by kings and lords allied with the Roman Catholic Church. Juxtaposing dangers past and present, he warned that a new tyranny was on the horizon, but, he added, the colonists had means to resist it. Knowledge of American rights under the English constitution, he maintained, would bolster American resistance: "This spirit [of liberty], however, without knowledge, would be little better than a brutal rage. Let us tenderly and kindly cherish, therefore, the means of knowledge. Let us dare to read, think, speak and write." 1 Adams's exhortation to his readers illuminated his life, his part in the American Revolution, and his role in the evolution of American constitutionalism. In the American Revolution, the Founding Fathers fought in different ways and using different means. Adams marshaled words and arguments in the American revolutionary cause. As lawyer, politician, legislator, constitution-maker, diplomat, and executive, he mobilized legal and historical knowledge for the greater good, drawing on the best of the past to save the future: Let every order and degree among the people rouse their attention and animate their resolution. Let them all become attentive to the grounds and principles of government, ecclesiastical and civil. Let us study the law of nature; search into the spirit of the British constitution; read the histories of ancient ages; contemplate the great examples of Greece and Rome; set before us the conduct of our own British ancestors, who have defended for us the inherent rights of mankind against foreign and domestic

tyrants and usurpers, against arbitrary kings and cruel priests, in short, against the gates of earth and hell. Adams lived with books at his elbow and a pen in his hand. Insatiably curious about the world around him, he educated himself and sought to teach his contemporaries and posterity what he had learned. These lifelong processes of learning and teaching constitute the education of John Adams. 2 Previous studies of Adams use one of two competing approaches to Adams, neither capturing his life's complexity or significance. Dazzled by his colorful personality, his self-awareness, and his revealing himself on paper, most biographers stress Adams's character, some reducing his constitutional and political advocacy and analysis to mere products of his internal conflicts. 3 The competing biographical school spotlights him as a constitutional and political thinker, rooted in an intellectual tradition extending from Greece and Rome to the Enlightenment - but pushing his nonpolitical life into the background. 4 Deciding between character without ideas (reducing Adams to an idiosyncratic volcano but ignoring his intellectual depth) and ideas without character (seeing Adams as a learned intellectual but shortchanging his humanity) is a false choice. Juxtaposing his ideas with his character, this book sets him within intersecting contexts - personal, regional, lawyerly, political, and intellectual - that shaped his vision of the world and of his place in it. 5 Setting Adams in context deepens our understanding of his life's personal dimension. Adams's resentments, explosions of temper, and paroxysms of vanity become more comprehensible when we grasp why he felt and expressed himself that way. His outbursts,

voicing his sense of his virtues and failings, had roots in and resonated with his intellectual and cultural contexts. Given, for example, that he and his contemporaries saw fame as this world's just reward for service to the public good, and that his sense of fame resonated with the moral heritage of his Calvinist roots, he had reasons to take personally efforts to denigrate his labors. Those seeking to deny him fame, he thought, were trying to take away what he had earned. By denigrating him, they rejected the worth of his labors and his arguments. 6 His battles with Benjamin Franklin, with Alexander Hamilton, and with Thomas Jefferson were clashes of personality and of principled intellectual disputes about political theory and practice."--

Years after the forest seemingly swallowed her brother whole, Jenny, whose story about Tom's disappearance has never been believed, sets out to finally say goodbye, but instead she is pulled into a world of faeries and other creatures.

### **Oxidative Stress and Space Biology An Organ-Based Approach**

"I hold this book to be the most important expression which the present age has found; it is a book to which we are all indebted, and from which none of us can escape." T.S. Eliot Ulysses depicts a day in Leopold Bloom's life, broken into episodes analogous to

Homer's *Odyssey* and related in rich, varied styles. Joyce's novel is celebrated for its depth of learning, earthy humor, literary allusions and piercing insight into the human heart. First published in Paris in 1922 *Ulysses* was not published in the United States until 1934. Immediately recognized as an extraordinary work that both echoed the history of English literature and took it in new, unheralded directions, Joyce's book was controversial. Its widespread release was initially slowed by censors nitpicking a few passages. The novel is challenging, in that it is an uncommon reader who will perceive all that Joyce has put into his pages upon first reading, but it is uniquely rewarding for anyone willing to follow where the author leads. Far more than a learned exercise in literary skill, *Ulysses* displays a sense of humor that ranges from delicate to roguish as well as sequences of striking beauty and emotion. Chief among the latter must be the novel's climactic stream of consciousness step into the mind of the protagonist's wife, Molly Bloom, whose open-hearted acceptance of life and love is among the most memorable and moving passages in English literature. With an eye-catching new cover, and professionally typeset manuscript, this edition of *Ulysses* is both modern and readable.

### **The Lacemaker**

During the Cold War, many popular American novels were labelled "middlebrow," leading to a general belief that these texts held less intellectual merit. Perrin debunks these unfair assumptions through works by James Michener, Harper Lee, and Leon Uris,

arguing that such writers made a major contribution to the tradition of American literature.

### **Who's who in America**

Mina Grime is unlucky, unpopular and uncoordinated, that is until she saves her crush's life on a field trip, changing her High School status from loser to hero overnight. But with her new found fame brings misfortune in the form of an old family curse come to light. For Mina is descended from the Brothers Grimm and has inherited all of their unfinished fairy tale business. Which includes trying to outwit a powerful Story from making her its next fairytale victim. To break the fairy tale curse on her family and make these deadly occurrences stop, Mina must finish the tales until the very Grimm end.

### **Persephone's Orchard**

Sixteen-year-old Leah Grant has given up on being normal. She'd settle for stopping the voices in her head, intrusive visions of the future, and better odds of making it to her seventeenth birthday. That's the thing about pretending to be human in a world where magic used to exist - at any moment, her cover could be blown and she'll be burned to death like the rest of the witches. Everything changes when she loses control of her powers and flees the orphanage she grew up in. She desperately wants to be invisible but finds her face plastered on every news channel as humans panic over the possible resurgence of her kind. And now the hunters won't give up until they

find her. Making friends for the first time in her life and falling in love with one of them drives her to discover why she is unlike any being she's ever met - human or otherwise. The dangerous powers inside of her that would repel Nathan, her new, handsome reason for living, are priceless to some. The locked up forever kind of priceless. And to others, they are too dangerous to allow her to live. Let's hope she can stay hidden.
