More than two hundred years into the future, human beings are an endangered species. The planet has been battered by war, its inhabitants plagued by disease and death. Few humans survived and remained unaffected. Most changed dramatically and evolved into something else entirely. Irrevocable alterations caused by chemical warfare have created a new species. North America is in ruins and has been overtaken. Humanity has fallen at the hands of mutants known as Urthmen. Seventeen year-old Avery is alive and unchanged. But she has not been immune to the harshness of the new world. She has lived on the run for much of her life, in terror. After fleeing the only refuge she's known for much of her life, Avery, along with her sister June and new friends, Will, Oliver and Riley forge through the forest to uncharted territory in search of a better life, in search of other survivors. But Avery soon learns that life beyond the woods is far worse than she ever imagined. She finds that safety does not exist for human beings in a world run by Urthmen. Hope seems futile. But Avery refuses to surrender hope and chooses, instead, to push forward and move her group into the heart of danger, to seek out more humans. Will she and the others survive their journey into the savage lands of Planet Urth? Find out in this heart pumping second installment of the Planet Urth series.

### **Maybe Yes, Maybe No, Maybe Maybe**

Sweet, sleepy -- beautiful -- old Pompey's Head, South Carolina. Anson Page thought he'd ground it out of his life for good. Now a Manhattan lawyer representing a large publishing house, he's returning to his hometown after fifteen years to investigate the mystery surrounding one of his client's authors, a major American novelist who lives on nearby Tamburlaine Island. Both painfully familiar and irrevocably altered, the landmarks and people in Pompey's Head resurrect for Page the sweep of his past life. As he sets about resolving business matters, he collides headlong with the enduring power of lineage to determine belonging and dominance, exclusion and shame, and the realization that leaving does not mean escaping. A deft interlacing of recollection and suspense, *The View from Pompey's Head* is Hamilton Basso's most popularly acclaimed novel. When first published, it spent forty weeks on the New York Times bestseller list and was translated into seven languages.

## **The Selected Letters of Henry Adams**

On the north-east side of the street, about midway between the fish and flesh markets in the seaport town of Falmouth, and at about the silent and solemn hour of thirty-six minutes past one by my father's watch, on the morning of the 28th day of December, of the year of grace 1752, His Gracious Majesty George the Second being King of Great Britain and Ireland, (it is necessary in important matters to be particular). I was introduced with the usual forms and ceremonies into the ancient family of the Hurrys, as the undoubted child of my father Richard and my mother Joan, the ninth, and as it subsequently proved, the last of their promising offspring. On the 29th day of the January following, the Reverend Edward Walmsley, rector of the parish, baptised me by the names of Hurricane, with the addition of Tempest, which were selected by my parents, after numberless consultations, in compliment to my maternal grand-uncle, Sir Hurricane Tempest, Alderman of Bristol, though it did not appear from his remark when informed of the occurrence that it was likely to benefit in the remotest manner from the delicate attention which had been paid him. My early days were not remarkable, I got through the complaints incident to childhood in a manner satisfactory to my mother and the doctor, while my elder brothers and sisters took very good care that I should not be spoilt by over-indulgence. My brothers, as they advanced towards manhood, were sent into various professions, and as none of them had chosen the sea, it was decided, without my opinion being asked, that I should be made an offering to Neptune.
