### The Jingwei Bird

A celebration of our woodland culture, including our native species and the people who love them and live and work with them. This title features photographs that highlight the natural beauty of the forest settings, while contributors tell of their woodland experiences, be they community projects, natural dyes, or making traditional boats.

### Cruise to Murder

Luke uncovers a plot to steal a famous painting and gets caught up in the gang's attempt to break a code that will lead them to a stash of Nazi gold.

### Do Not Read! Spread Good Vibes Journal (6x9 Softcover Lined Journal / Notebook)

How could the one thing keeping love together, be the thing that is tearing it apart? As the old saying goes, "If it feels too good to be true, it more than likely is." Raheem couldn't recall a moment in his life when he felt so full. Having Eryanna and his daughter has created a shift inside of him that he thought no one would be able to deter. He finally has his piece of peace and vows to do everything within his power to protect it. With the slow and deliberate unraveling of her marriage, Serenity believes that her return to Raheem's life will consist of makeup sex and a happily ever after. However, she sees her chances of being with Raheem fading at the hands of his beloved toy, Eryanna Santos. Two steps behind. That's how Eryanna feels in regards to Serenity and Raheem. She's still young, figuring out what she wants out of life all the while

struggling to keep her relationship with Raheem afloat. She changed for him, believing that he was also changing for her. Love isn't supposed to hurt, but over and over again it has presented itself as a challenge to this union. Even love grows tired of being taken advantage of. The final installment of this Crowned exclusive will take you on a journey to the Valley and beyond that but will love win or fall to deceit?

## **Still Stoned**

The author of this concise guide to unarmed combat and self-defence is a legend. W. E. Fairbairn (1885-1960) spent over thirty years in the tough environment of the Riot Squads of China's Shanghai Municipal Police. In order to lower levels of Police mortality at the hands of Chinese Tongs, he studied ancient Chinese and Japanese martial arts, including Ju-jitsu, and was the first foreigner to be awarded a black belt in the discipline. He developed his own system which he called 'Defendu'. At the outbreak of the Second World War, he was recruited by Britain's Special Operations Executive as an Instructor in unarmed combat and expounded the deadly mysteries of attack and defence to scores of trainee agents about to be dropped into occupied Europe. His methods were approved and officially adopted throughout the British army. Fairbairn also developed weapons and defence aids such as bullet proof vests. He is best known as the co-inventor of the famous Sykes-Fairbairn knife. In this book he expounds his distilled experience of unarmed combat. Fully illustrated, it shows how to deliver deadly blows with hand, fist, knee and boot; wrist, bear- and strangle holds (and how to break them); how to throw an enemy, and how to break their backs; how to disarm a pistol-wielding attacker; and securing a prisoner. The book also contains a chapter on the use of the rifle in close combat by Captain P. N. Walbridge.

There's no escaping black karma, even for immortals. Meet Jasmine Fairchild, outrageously gorgeous and extremely persuasive -- unnaturally so. Jasmine is a Cambion, part mortal, part succubus. Enter Ahriman, an ancient and evil incubus. For centuries, he has exploited the secrets of reincarnation to reach his goal of immortality and the eradication of humanity. All he needs now is a portal, an opportunity. . .and Jasmine. She stands alone as the only force powerful enough to immortalize or destroy him, and her dual nature makes Ahriman's task a little tougher than he thought. . . 22,000 Words

An Extraordinary Girl at the End of Worlds Jane, a seventeen year old genetically engineered Macro-Telekinetic, lives at a School for Supernormals (Telepaths, Telekinetics, Empaths) on her home system of Pace-Pallon. There she and her classmates-the stunningly beautiful Atalanta (a persuasive Manipulative Empath), the arrogant Wilby (a brilliant Micro-Telekinetic), lethal but loyal Felix (the powerful Macro-TK instructor), the experienced Stuart (a clever and crafty Telepath) and many others-have been trained from birth by the Pacey Government to do its dirty work. But everything changes one

morning when dangerous Objects-Objects full of gestating tapetia mortis creatures capable of consuming millions of humans-slam into and infest all four Pace-Pallon planets. Soon abandoned by the Government that owns them, the Supernormals and their leader, General Samuel Armstrong, realize they will have to fight and, if necessary, flee to survive. The tapetia mortis may mean the end of Pace-Pallon, but for Jane and her fellow Supernormals the story is only just beginning

## **When Canada was New France**

In a world which seems to be deluged with conflicts and social anxiety it's important to sometimes sit back, take a deep breath and reflect on how it is that we have created these realities. To fully understand the worth of Peace it can be argued that War must exist in some form, and it is to this end the concept of this anthology has been created. War and Peace aptly considers the juxtaposition of these opposing actions but also widens the aged old argument as to whether one can exist without the other. This collection of poetry broadens the view of war and peace and seeks to consider war torn conflicts alongside mental anguish and societal discourse in our communities and home while also musing considerably about the various states of peace and tranquility that are created by being considerate to ourselves and others also. Now in its 2nd year, these poetry collections are fast becoming a key feature within the literary market and are proving that the creativity of these young poetic wordsmiths has a place in both the education system and in our modern society alike.

Psychologist Alice Quentin has been looking forward to a break from her hectic London life. She has vowed to stay clear of police work. The previous cases she helped the police with have left her scarred. So, when Alice is given the rare opportunity to study treatment methods at Northwood high-security hospital outside of London, she is eager to get to work. But then a young girl is discovered, dressed all in white, on the steps of the Foundling Museum. Four girls have recently gone missing in North London—this is the third to be found, dead. The fourth may still be alive, and Alice Quentin may be able to help. Britain's most prolific child killer, Louis Kinsella, has been locked up in Northwood for over a decade. Yet, these recent kidnappings and murders are clearly connected to Kinsella's earlier crimes. It seems that someone is continuing where he left off. So, when Detective Don Burns comes asking for Alice's help, how can she refuse? Alice will do anything to help save a child—even if that means forming a relationship with a charismatic, ruthless murderer. But Kinsella is slow to give away his secrets, and time is running out for the latest kidnap victim, who is simply trying to survive. In her quest to save a life, Alice finds she has put her own life on the line. The Winter Foundling is Kate Rhode's exciting thriller featuring Alice Quentin following Crossbones Yard and A Killing of Angels.

## **Operation Code Breaker**

This semi-autobiographical novel is the story of a desperate small-time businessman whose travels through China on the eve of the 1989 Tiananmen Square massacre take him into a netherworld of corrupt local officials, Hong Kong's criminal "Triads," and renegade CIA operatives. Throughout, he is forced to confront his own inner demons from Vietnam, and the larger meaning of his Jewish heritage. The Jingwei Bird realistically portrays the political and economic tensions in China in the late 1980s at the dawn of its re-emergence as a world power.

Coloring book for children with Autism or Asperger's syndrome Kids colouring book Simple calming colouring book for children with Autism or Asperger's Syndrome A relaxing Cognitive, social and mental development booklet for learning difficulties is an innovative colouring book developed specifically for those with autism and Asperger's or those who may be showing signs. Note: This book does not mention Autism, Asperger's anything else that may cause stress or anxiety for these children. Unlike other children's colouring books, these colouring pages are tailored for those on all stages of the spectrum. With no complex activities, and the use of only circular shapes, these colouring pages were made to stimulate brain activity in a way which will help not only calm and relax those using it, but encourage the appropriate mental patterns required for memory and mental stability. Each page is repeated a number of times throughout the course of the colouring book, which allows parents or carers to clearly see process from the start of the book to the end of the book. Although pages are not ranked in order of complexity, the repetition of pages throughout the book will allow clear patterns of improvement to be observed by family, friends and carers. The colouring book was developed from insights given by neurologists, psychologists, caregivers and those with Autism / Asperger's, to only contain what is most likely to work It should be noted that different children will have different levels of success with each new activity. Some will love colouring in and enjoy this book, while others may not be successful. It is important as a parent or carer to understand what will work for your child - and then continue to offer those tasks or activities to your child. If you have had success with colouring in the past - or have yet to try it, then this book is definitely for you! If your child has not enjoyed colouring in the past - then it is unlikely this book will make much difference, and perhaps it is not correct for your child. Book Features: 90 Pages of coloring in Repeated activities for easy tracking of progress Circular designs to stimulate the correct parts of the brain Simple designs that are designed to reduce stress Favourite themes repeated from first editions Unfavourable designs left out Good Luck!

## **The Creation of Christ**

Cancer cell biology research in general, and anti-cancer drug development specifically, still relies on standard cell culture techniques that place the cells in an unnatural environment. As a consequence, growing tumor cells in plastic dishes places a selective pressure that substantially alters their original molecular and phenotypic properties. The emerging field of regenerative medicine has developed bioengineered tissue platforms that can better mimic the structure and cellular heterogeneity of in vivo tissue, and are suitable for tumor bioengineering research. Microengineering technologies have resulted in advanced methods for creating and culturing 3-D human tissue. By encapsulating the respective cell type or combining several cell types to form tissues, these model organs can be viable for longer periods of time and are cultured to develop functional properties similar to native tissues. This approach recapitulates the dynamic role of cell-cell, cell-ECM, and mechanical interactions inside the tumor. Further incorporation of cells representative of the tumor stroma, such as endothelial cells (EC) and tumor fibroblasts, can mimic the in vivo tumor microenvironment. Collectively, bioengineered tumors create an important resource for the in vitro study of tumor growth in 3D including tumor biomechanics and the effects of anti-cancer drugs on 3D tumor tissue. These technologies have the potential to overcome current limitations to

genetic and histological tumor classification and development of personalized therapies.
