Land of My Childhood

By the end of his long life, B. F. Skinner (1904-1990) had become one of the most influential and best known of psychologists (Gilgen, 1982; Heyduke & Fenigstein, 1984). An important feature of the approach to the study of behavior that he championed, behavior analysis, is the intensive study of individual subjects over time. This approach, which

is characterized by the use of within-subject experimental designs, repeated and direct measures of behavior, and graphic analysis of data, stands in marked contrast to the research methods favored by many nonbehavioral psychologists. Skinner discussed the advantages of his approach in a number of books (e.g., Skinner, 1938, 1953, 1979), but never devoted a book to methodology. Sidman (1960) and Johnson and Pennypack (1993b) did devote books to behavior analytic research methodology. These books are of exceptionally high quality and should be read carefully by anyone interested in behavior analysis. They are sophisticated, however, and are not easy reads for most neophyte behaviorists. Introductory-level books devoted entirely to methods of applied behavior analysis (e.g., Kazdin, 1982; Barlow & Hersen, 1984) are easier to understand, but somewhat limited in coverage.

This edited book examines European external interventions in human security, in order to illustrate the evolution and nature of the European Union as a global political actor. In 2003, the EU deployed its first external mission under the European Security and Defence Policy (ESDP) with a military force to the former Yugoslav Republic of Macedonia. Since then it has instigated over 18 civilian and military missions to deal with humanitarian crises all over the world. This book presents a series of eight case studies of external interventions by the EU covering the Balkans, Africa, the Middle East, Afghanistan and Indonesia, to illustrate the nature of the EU as a global actor. Using the concept of human security to assess the effectiveness of these missions in meeting the EU's aim of being a 'force for good in the world', this study addresses two key issues: the need for an empirical assessment of EU foreign and security policies based on EU intervention in conflict and post-conflict situations and the idea of 'human security' and how this is applied in European foreign policy. This book will be of great interest to students of European Security, EU politics, human security, post-conflict reconstruction, and IR in general. Mary Kaldor is Co-Director of the Centre for the Study of Global Governance, London School of Economics and Political Science (LSE). Prior to this she worked at Sussex University as Jean Monnet Reader in Contemporary European Studies. Mary Martin is a Research Fellow at the Centre for the Study of Global Governance, the London School of Economics. From 2006-2009 she was co-ordinator of the Human Security Study Group. The American Deer Hunter

Gorgeous, incendiary, tempting as original sin, and totally off limits. He's rough, dominant, and hot as hell on wheels. Channing Hensley blew into my life like a firestorm, and I've been in love and lust with him since the minute I laid eyes on him. All in secret, of course. He doesn't know. No one can know the things I dream of him doing to me. No one can know that I - the picture-perfect sweet little good girl - want him to be my first. So I hid it away instead, in a letter, where I poured out my heart and my deepest darkest fantasies to the man with the body made for reckless choices, and the piercing green eyes that dare you to make them. The man with the dark past and the fierce gaze that lingers on me in a way that takes my breath away. He's six years older than me. He works for my family's law firm. He's totally wrong, utterly inappropriate, and completely irresistible. Fantasizing about Channing Hensley is so bad. But I want him. Filthy, scandalous, and so sugary sweet your teeth will hurt. This one's a heaping dose of wrong in the right kind of way ;). If an older, dominant, obsessed alpha claiming his untouched heroine sounds like your cup of tea (oh, you know it is), then you should probably dive right in. Safe, no cheating, and a HEA guaranteed. No one is related in this story.

Strategic International Management

On the brutal planet known as Counter Earth, an alien threat looms . . . Fresh from his exploits in the Steel Worlds, home of the Kurii, a savage alien race intent on conquering Gor, Tarl Cabot has been returned to an isolated beach, at coordinates apparently specified by the Priest-Kings, the masters of Gor and the enemy of the Kurii. His only companions are his beautiful new slave Cecily and Ramar, a ferocious sleen bred in the Steel Worlds to hunt and kill. But why has he been returned to such a remote spot? Did the Priest-Kings wish their former agent to serve them once more? Did the Kurii intend to use Cabot to further their own ends? The truth, as Tarl will learn, is darker and deeper than either of these possibilities. Rediscover this brilliantly imagined world where men are masters and women live to serve their every desire. *Swordsmen of Gor* is the 29th book in the Gorean Saga, but you may enjoy reading the series in any order.

The Marriage of the Brigadier

This volume is the first systematic study of Seneca's interaction with earlier literature of a variety of genres and traditions. It examines this interaction and engagement in his prose works, offering interpretative readings that are at once groundbreaking and stimulating to further study. Focusing on the Dialogues, the *Naturales quaestiones*, and the Moral Epistles, the volume includes multi-perspectival studies of Seneca's interaction with all the great Latin epics (Lucretius, Vergil and Ovid), and discussions of how Seneca's philosophical thought is

informed by Hellenistic doxography, forensic rhetoric and declamation, the Homeric tradition, Euripidean tragedy and Greco-Roman mythology. The studies analyzes the philosophy behind Seneca's incorporating exact quotations from earlier tradition (including his criteria of selectivity) and Seneca's interaction with ideas, trends and techniques from different sources, in order to elucidate his philosophical ideas and underscore his original contribution to the discussion of established philosophical traditions. They also provide a fresh interpretation of moral issues with particular application to the Roman worldview as fashioned by the *mos maiorum*. The volume, finally, features detailed discussion of the ways in which Seneca, the author of philosophical prose, puts forward his stance towards poetics and figures himself as a poet. Intertextuality in Seneca's Philosophical Writings will be of interest not only to those working on Seneca's philosophical works, but also to anyone working on Latin literature and intertextuality in the ancient world.

Dear Stepbrother, I Want You

The American Deer Hunter is the result of a great amount of experience in hunting with an extraordinary degree of success. The content represents the determination to set down the hard facts and the effective equipment and means for

stalking and shooting the white-tail and his cousins. The book is highly original in its presentation. It is in no sense a rehash of previous discussions or formulae. The author deals at all times with actual problems of locating, maneuvering, and shooting and with the guns employed. The discussions are based on circumstances of reality in the relationships of deer, environment, hunter and gun, not on preconceived or synthetic situations. Here are interesting and important data on deer habits and on speeds and gaits. Here also is an extensive treatment of selection and care of weapons for deer hunting; the killing and dressing of game; and even on clothing for the deer hunter. All told, it has a wealth of material useful to both the veteran hunter and the novice.

The story of a monk, a minstrel, and the music that brought them together In 1965 writer-activist-monk Thomas Merton fulfilled a twenty-four-year dream and went to live as a hermit beyond the walls of his Trappist monastery. Seven months later, after a secret romance with a woman half his age, he was in danger of losing it all. Yet on the very day that his abbot uncovered the affair, Merton found solace in an unlikely place—the songs of Bob Dylan, who, as fate would have it, was experiencing his own personal and creative crises during the summer of 1966. In this striking parallel biography of two countercultural icons, Robert Hudson plumbs the depths of Dylan’s surprising influence on Merton’s life and writing, recounts each man’s interactions with the woman who linked them together—Joan Baez—and shows how each transcended his immediate troubles and went on to new heights of spiritual and artistic genius. Readers will discover here a riveting story of creativity and crisis, burnout and redemption, in the tumultuous era of 1960s America.

Little Explorers: The Animal World

“Over half a century has passed since I cut my teeth on an old .36 Navy Colt. For 40 years I have almost never been out of easy reach of a good sixgun. Thirty years I spent in the saddle, packing, punching cows and breaking saddle brones. The sixgun was worn just as regularly as my pants and many times was much more important to my existence. It pulled me out of several tight scrapes with wild horses, wilder cattle and some big game. Though I have witnessed several gun fights, have had guns pulled on me and have been shot at several times, I have never had to use my gun on a man. Several times it was touch-and-go and perhaps only the current knowledge that I was both fast and accurate with a sixgun saved me from being embroiled. Though I do not recommend a sixgun for big game, thirty head of big game have fallen to mine, including elk, bear, deer, cougar, mountain goat and javelina. I have also trailed up a great many big game animals of various species that were wounded by sportsmen and then I finished them off. No record was kept of these or the many coyotes, bobcats and lesser game, or the livestock I have had to kill.” This classic includes the following chapters: Introduction I. History of the Sixgun II. Selecting the Handgun III. Learning To Shoot IV. Sixgun Sights V. Long Range Shooting VI. Game Shooting VII. Double

The European Union and Human Security

Sir Arthur Ignatius Conan Doyle DL (22 May 1859 - 7 July 1930) was a Scottish physician and writer who is most noted for his fictional stories about the detective Sherlock Holmes, which are generally considered milestones in the field of crime fiction. He is also known for writing the fictional adventures of a second character he invented, Professor Challenger, and for popularising the mystery of the Mary Celeste. He was a prolific writer whose other works include fantasy and science fiction stories, plays, romances, poetry, non-fiction, and historical novels. Sherlock Holmes is a fictional detective created by Scottish author and physician Sir Arthur Conan Doyle, a graduate of the University of Edinburgh Medical School. A London-based "consulting detective" whose abilities border on the fantastic, Holmes is famous for his astute logical reasoning, his ability to adopt almost any disguise, and his use of forensic science skills to solve difficult cases. Holmes, who first appeared in publication in 1887, was featured in four novels and 56 short stories. The first novel, *A Study in Scarlet*, appeared in

Beeton's Christmas Annual in 1887 and the second, The Sign of the Four, in Lippincott's Monthly Magazine in 1890. The character grew tremendously in popularity with the first series of short stories in The Strand Magazine, beginning with "A Scandal in Bohemia" in 1891; further series of short stories and two novels published in serial form appeared between then and 1927. The stories cover a period from around 1880 up to 1914. All but four stories are narrated by Holmes's friend and biographer, Dr. John H. Watson; two are narrated by Holmes himself ("The Blanched Soldier" and "The Lion's Mane") and two others are written in the third person ("The Mazarin Stone" and "His Last Bow"). In two stories ("The Musgrave Ritual" and "The Gloria Scott"), Holmes tells Watson the main story from his memories, while Watson becomes the narrator of the frame story. The first and fourth novels, A Study in Scarlet and The Valley of Fear, each include a long interval of omniscient narration recounting events unknown to either Holmes or Watson.

The Source of Liberty

Are we merely the sum of our past? It is often said, "We are each a result of our past." The truth is our past experiences do affect us. While some do rather insignificantly, others do quite deeply. In worst cases, they can distort our personalities, open us up to deception, and negatively affect our relationships with God and others. Past abusive experiences are certainly hurtful in that regard. Plus, if not resolved, they can leave "the door open" for the enemy of our soul to exacerbate the matter, deepen the pain, and infect many areas of our lives. On the other hand, you may have grown up in a spiritually sheltered home where you were lovingly cared for and prayerfully reared. Even if you were born again as a child, you too have had experiences that have shaped who you are today. In subtle ways, you too need to conquer the effects of your past. Wouldn't it be wonderful if solutions and remedies were easily found? Well, you
