### **Oxford IB Diploma Programme: IB Prepared: Biology**

Provides complete coverage of the syllabus requirements. This book offers information on Chemistry for IB Diploma course.

### **Oxford IB Diploma Programme: Psychology Course Companion**

This completely new title is written to specifically cover the new IB Diploma Mathematical Studies syllabus. The significance of mathematics for practical applications is a prominent theme throughout this coursebook, supported with Theory of Knowledge, internationalism and application links to encourage an appreciation of the broader contexts of mathematics. Mathematical modelling is also a key feature. GDC tips are integrated throughout, with a dedicated GDC chapter for those needing more support. Exam hints and IB exam-style questions are provided within each chapter; sample exam papers (online) can be tackled in exam-style conditions for further exam preparation. Guidance and support for the internal assessment is also available, providing advice on good practice when writing the project.

## **Biology**

Surveys the various techniques that can be used to evaluate students' learning, including summative, diagnostic, and formative approaches and the assessment of specific skills

### **IB Physics**

Fully revised for first examination in 2021 with an emphasis on 21st century skills. This activity-based coursebook for classroom use is clearly organised into three parts: text types, global issues and assessment. The first section defines and analyses a range of literary and non-literary text types. The global issues section integrates all three areas of exploration from the revised syllabus, into meaningful units. The coursebook includes curated video links and samples of Paper 1, Paper 2, the individual oral and the higher level essay. Higher level extension activities are included in each unit, with key concepts and guiding questions integrated throughout. Answers are in the teacher's resource.

### **History for the IB Diploma Paper 2 Causes and Effects of 20th Century Wars**

Comprehensive second editions of History for the IB Diploma Paper 2, revised for first teaching in 2015. This coursebook covers Paper 2, World History Topic 11: Causes and Effects of 20th Century Wars of the History for the IB Diploma syllabus for first assessment in 2017. Tailored to the requirements of the IB syllabus and written by experienced IB History examiners and teachers, it offers authoritative and engaging guidance through the following detailed studies from around the world: the First World War, the Spanish Civil War, the Second World War, the Chinese Civil War and the Iran/Iraq War.

### **History**

Exam Board: IB Level: IB Subject: Biology First Teaching: September 2014 First Exam: Summer 16 Stretch your students to achieve their best grade with these year round course companions; providing clear and concise explanations of all syllabus requirements and topics, and practice questions to support and strengthen learning. - Consolidate revision and support learning with a range of exam practice questions and concise and accessible revision notes - Practise exam technique with tips and trusted guidance from examiners on how to tackle questions - Focus revision with key terms and definitions listed for each topic/sub topic

### **Psychology**

This concise guide provides all the content you need for the IB Diploma in Biology at both Standard and Higher Level.\* Follows the structure of the IB Programme exactly and include all the options\* Each topic is presented on its own page for

clarity\* Standard and Higher Level material clearly indicated\* Plenty of practice questions\* Written with an awareness that English may not be the reader's first language

### **Physics for CSEC**

Biology for the IB Diploma, Second edition covers in full the requirements of the IB syllabus for Biology for first examination in 2016.

### **Biology for the IB Diploma Study and Revision Guide**

### **Mathematics Higher Level for the IB Diploma Exam Preparation Guide**

Newly revised in line with the latest syllabus and with a modernised, student-friendly design, including a truly interactive CD which provides additional practice for students and brings lab work to life with exciting activities and simulations.

### **Biology for the IB Diploma**

The most comprehensive coverage of the new 2014 syllabus for both SL and HL, this completely revised edition gives you unrivalled support for the new concept-based approach to learning, the Nature of Science. The only DP Biology resource that includes support straight from the IB, integrated exam work helps you maximize achievement.

### **Learning and Understanding**

For students studying the new Language A Language and Literature syllabus for the IB Diploma. Written by an experienced, practising IB English teacher, this new title is an in-depth and accessible guide for Standard and Higher Level students of the new Language A Language and Literature syllabus for the IB Diploma. This lively, well structured coursebook is available in both print and e-book formats and includes: key concepts in studying language and literature; text extracts from World literature (in English and in translation); international media and language sources; a wide variety of activities to build skills; materials for exam preparation; guidance on assessment; Theory of Knowledge links; and Extended essay opportunities.

### **History for the IB Diploma: Origins and Development of Authoritarian and Single Party States**

## **Biology Higher Level**

This course book follows an approach that supports the new 2007 syllabus (to be first examined in 2009) while including the wider aims of the IB through connections to TOK, international-mindedness and the IB learner profile. It has been written by a former chief examiner for IB Diploma Programme Biology and has been extensively reviewed by teachers, consultants and the IB. With features and activities that encourage active learning and critical thinking, students will find this book stimulating and engaging.

## **How to Grade for Learning**

## **World Religions**

Provides coverage of the syllabus requirements and the options for Biology HL. This book uses illustrated examples and levelled exercises. It gives links to TOK and enables exam-style assessment opportunities using questions from past papers. It is supported by teacher's notes.

## **The Education Outlook**

Biology for the IB Diploma, second edition covers in full the requirements of the IB syllabus for Biology implemented in 2014.

## **Environmental Systems and Societies**

Written specifically for the Cambridge syllabus, this updated series provides clear and practical support for students and teachers. Cambridge IGCSE First Language English, Third edition has been written specifically for the University of Cambridge International Examinations syllabus. Written by a highly experienced and well-known author, this new and updated coursebook includes clear, practical support for students, a diverse range of topical stimulus material to enliven the subject, imaginative activities and exam tips that build confidence and develop the skills needed to succeed in the examination.

## **Chemistry for the IB Diploma**

This book takes a fresh look at programs for advanced studies for high school students in the United States, with a particular focus on the Advanced Placement and the International Baccalaureate programs, and asks how advanced studies can be significantly improved in general. It also examines two of the core issues surrounding these programs: they can have a profound impact on other components of the education system and participation in the programs has become key to admission at selective institutions of higher education. By looking at what could enhance the quality of high school advanced study programs as well as what precedes and comes after these programs, this report provides teachers, parents, curriculum developers, administrators, college science and mathematics faculty, and the educational research community with a detailed assessment that can be used to guide change within advanced study programs.

## **IGCSE Biology**

Written by an experienced teacher and senior examiner with an in-depth understanding of teaching and assessments for the IB psychology SL and HL courses. This new TestPrep book helps students to familiarise themselves with the psychology SL and HL exams. It provides information about the approach of the papers and the types of exam questions they will come across. Students can practice answering the questions by writing directly into the book, just like they do in the exam. And, as they work through, there are strategies, hints and support for answering the questions PLUS fully worked solutions at the end. From some excellent and unique practice questions for Paper 1 to invaluable advice from the experts on how to tackle Paper 2 (plus some unseen stimulus material for HL students for Paper 3), this book provides essential exam practice support for students revising for their psychology exams. Students will: understand what to expect from the psychology exam papers - with a breakdown of the format of Paper 1 (SL and HL), Paper 2 (SL and HL) and Paper 3 (HL only), the command terms and the assessment objectives see example answers to Paper 1, Paper 2 and Paper 3-style questions - with brand new, unseen sample answers to exam-style questions and answer analysis from the point of view of an examiner test themselves - with three complete sets of exam-style psychology practice papers (the first set includes loads of additional tips, examiner commentary and support to guide students to achieve high marks; the second set has fewer helpful prompts; the last set has no additional help and is designed so students can have a go at it themselves!) check answers - with fully-worked solutions in the back of the book.

## **Biology**

Written specially for students following the International Baccalaureate (IB) Diploma, Chemistry for the IB Diploma is a major new textbook covering the latest syllabus requirements for this experimental science. Chapters are presented in

syllabus order and provide full coverage of all core topics and options for students at both standard and Higher levels.

### **English Language and Literature for the IB Diploma**

Completely revised new editions of the market-leading Biology textbooks for HL and SL, written for the new 2015 Science IB Diploma curriculum. Now with an accompanying four-year student access to an enhanced eText, containing simulations, animations, worked solutions, videos and much more. The enhanced eText is also available to buy separately and works on desktops and tablets. Follows the organizational structure of the new Biology guide, with a focus on the Essential Ideas, Understanding, Applications & Skills for complete syllabus-matching. Written by the highly experienced IB author team of Alan Damon, Randy McGonegal, Patricia Tosto and William Ward, you can be confident that you and your students have all the resources you will need for the new Biology curriculum.

### **IB Biology Course Book**

This comprehensive Study Guide reinforces all the key concepts for the 2014 syllabus, ensuring students develop a clear understanding of all the crucial topics at SL and HL. Breaking concepts down into manageable sections and with diagrams and illustrations to cement understanding, exam preparation material is integrated to build student confidence and assessment potential. Directly linked to the Oxford Biology Course Book to extend and sharpen comprehension, this book supports maximum achievement in the course and assessment. About the series: Reinforce student understanding of all the crucial subject material. Fully comprehensive and matched to the most recent syllabuses, these resources provide focused review of all important concepts, tangibly strengthening assessment potential.

### **English A: Language and Literature for the IB Diploma Coursebook**

This highly respected and valued textbook has been the book of choice for Cambridge IGCSE students since its publication. This second edition, complete with CD-ROM, continues to provide comprehensive, up-to-date coverage of the core and extended curriculum topics specified in the Cambridge IGCSE Biology syllabus. The book is supported by a CD-ROM containing extensive revision and exam practice questions, background information and reference material.

### **The Publishers' Circular and Booksellers' Record of British and Foreign Literature**

### **Cambridge IGCSE First Language Coursebook**

Provide clear guidance to the 2014 changes and ensure in-depth study with accessible content, directly mapped to the new syllabus and approach to learning. This second edition of the highly regarded textbook contains all SL and HL content, which is clearly identified throughout. Options are available free online, along with appendices and data and statistics. - Improve exam performance, with exam-style questions, including from past papers - Integrate Theory of Knowledge into your lessons and provide opportunities for cross-curriculum study - Stretch more able students with extension activities - The shift to concept-based approach to learning , Nature of Science, is covered by providing a framework for the course with points for discussion - Key skills and experiments included

### **Higher Level Chemistry**

### **Themantic Education's IB Psychology**

Biology for the IB Diploma, Second edition covers in full the requirements of the IB syllabus for Biology for first examination in 2016.

### **Biology for the IB Diploma**

A new series of Exam Preparation guides for the IB Diploma Mathematics HL and SL and Mathematical Studies. This exam preparation guide for the core content of the IB Diploma Mathematics Higher Level course breaks the course down into chapters that summarise material and present revision questions by exam question type, so that revision can be highly focused to make best use of students' time. Students can stretch themselves to achieve their best with 'going for the top' questions for those who want to achieve the highest results. Worked solutions for all the mixed and 'going for the top' questions are included, plus exam hints throughout. Guides for Mathematics Standard Level and Mathematical Studies are also available.

### **Pearson Baccalaureate**
