Pick up that bread! This doctor-approved method lets you keep the carbs and lose the pounds! McDougall and his kitchen-savvy wife, Mary, prove that a starch-rich diet can actually help you lose weight, prevent a variety of ills, and even cure common diseases. The Bikini Body 28-Day Healthy Eating and Lifestyle Guide

This book demystifies the low-FODMAP diet and provides 125 tasty and delicious recipes for a happy gut. Written by a specialist gut dietitian, *The Low-FODMAP Recipe Book* can help you to take control of Irritable Bowel Syndrome (IBS), functional bowel disorder and digestive distress. Dietary management is key to managing IBS and other gut disorders. The most successful diet for bringing relief for symptoms such as bloating, abdominal distension, excessive wind, diarrhoea and

other digestive issues is the low-FODMAP diet, which has been medically proven in rigorous clinical trials to improve symptoms in up to 75 per cent of people with IBS. Because of the diet's success it is quickly becoming an essential treatment for people with a sensitive gut and can help in the management of a wide range of stomach troubles and gastrointestinal discomfort. The low-FODMAP diet will help you to identify food intolerances, including intolerance of lactose and fructose, and may also be used to help those who are suffering from Inflammatory Bowel Disease (IBD), Coeliac Disease and functional symptoms following gastrointestinal surgery. An expert in the low-FODMAP diet and gut disorders, author Lucy Whigham will help you to understand more about the way your gut functions and what is contributing to your symptoms. This book is an easy guide to why and how the low-FODMAP diet can help, and includes tables of what foods need to be avoided for the elimination phase and beyond. FODMAPs (Fermentable Oligosaccharides, Di-saccharides, Mono-saccharides and Polyols) are naturally occurring sugars that are found in a wide range of everyday foods. They are not fully broken down during digestion and therefore cannot be completely absorbed by the body. Instead they travel through the gut where they are fermented by the bacteria that live in our gastrointestinal tract. In susceptible people (those with a sensitive gut) this fermentation can lead to excessive wind, bloating, pain, cramping and stomach gurglings. FODMAPs also draw water into the gut, which can lead to diarrhoea and frequent bowel motions. Cutting out foods that are high in these fermentable carbohydrates and following a low-FODMAP diet can help you to regain control over your digestive symptoms and thereby improve your quality of life. Once your symptoms are under control you can start to re-introduce FODMAPs to help you identify your individual intolerances and threshold levels. In this way you are empowered with the knowledge of exactly which foods cause you problems, putting you in the driving seat and letting you control your symptoms rather than have them control you.

Tone It Up: Balanced and Beautiful

The groundbreaking discovery that shows why women need fat to lose fat. Why do women struggle so much with weight? Can women ever lose weight and keep it off? In this research-driven and counterintuitive book, an anthropologist and a public health doctor team up to answer those questions. Blending anecdotal evidence with hard science, they explain how women's weight is controlled by evolution-but more important- they reveal how a change in diet three decades ago may be the reason women today are bigger than their grandmothers were. Explaining why fat (both in our diet and in our body) is crucial to long-term health, the authors show not only why women tend (and need) to get heavier after having their first child, but also destroy cultural myths like "all fat is bad for you." Providing a plan that can help any woman achieve a natural, healthy weight- without dieting- *Why Women Need Fat* not only gives women the tools they need to shed weight, but also a better understanding of why those last five pounds seem impossible to lose.

Bikini Body Guide 2.0 - Workouts and Training Plan - Week 13-24

Throughout my industry experience and the more I interviewed my female clients, it became apparent that many girls were aspiring for a specific yet common look. What these girls really wanted was the confidence and positive physical change that came as a result of a healthy lifestyle. The body type I am referring to is a far cry from the “very muscular” look that a lot of women obtain through other training styles and advice. I found that some trainers in this industry do not properly understand or listen to their client's goals and are therefore not able to advise them in a way that will help attain their client's desired appearance or outcome. This is my mission: I want to help as many women as possible achieve their ideal body, their confidence and their happiness! Hence, with the help of Fresh Fitness, I created this “Bikini Body Training Guide”. I have heard many trainers and individuals say lots of different things about how to get 'results'.

Thinner Leaner Stronger

"Hannah Bronfman is challenging us all to rethink our default standards of beauty and definitions of 'healthy' —and I, for one, couldn't be happier to hear this from another woman of color in the wellness community. Do What Feels Good is a practical, inspirational, and beautiful guidebook to feeling good in your own skin." --Gabrielle Union, actress and bestselling author of *We're Going to Need More Wine* As a food lover, beauty product addict, exercise junkie, and wellness entrepreneur, Hannah Bronfman practically radiates confidence and health. But she'll be the first one to admit that the road to wellness and self-acceptance hasn't been easy. As a woman of color who grew up watching a close family member struggle with an eating disorder, Hannah's had to forge her own path and create her own standards of beauty. And what she's learned is this: Healthy is beautiful. And healthy should feel good. In *Do What Feels Good*, Hannah offers real talk about getting in touch with your body's needs, baring her soul and sharing her story along the way. Hannah provides insight on everything from gut health to nutrition to fitness to skincare, sharing insight from top experts on how to understand your body's unique chemistry so that you can fuel it with more of the things that feel good and less of the things that don't. And since delicious food is one of the things that makes everyone feel good, Hannah shares more than 50 of her favorite recipes for healthy hedonism (desserts and cocktails included!). Enlightening, empowering, and educational, this is an approach to wellness that is holistic, hedonistic, and real. Because self-care should not feel self-punishing, and every body deserves to feel good.
