Warped Passages

“Science has a battle for hearts and minds on its hands....How good it feels to have Lisa Randall’s unusual blend of top flight science, clarity, and charm on our side.” —Richard Dawkins “Dazzling ideas....Read this book today to understand the science of tomorrow.” —Steven Pinker The bestselling author of Warped Passages, one of Time magazine’s “100 Most Influential People in the World,” and one of

Esquire's "75 Most Influential People of the 21st Century," Lisa Randall gives us an exhilarating overview of the latest ideas in physics and offers a rousing defense of the role of science in our lives. Featuring fascinating insights into our scientific future born from the author's provocative conversations with Nate Silver, David Chang, and Scott Derrickson, *Knocking on Heaven's Door* is eminently readable, one of the most important popular science books of this or any year. It is a necessary volume for all who admire the work of Stephen Hawking, Michio Kaku, Brian Greene, Simon Singh, and Carl Sagan; for anyone curious about the workings and aims of the Large Hadron Collider, the biggest and most expensive machine ever built by mankind; for those who firmly believe in the importance of science and rational thought; and for anyone interested in how the Universe began...and how it might ultimately end.

Knock, Knock, Knocking On Heaven's Door

The universe has many secrets. It may hide additional dimensions of space other than the familiar three we recognize. There might even be another universe adjacent to ours, invisible and unattainable . . . for now. *Warped Passages* is a brilliantly readable and altogether exhilarating journey that tracks the arc of discovery from early twentieth-century physics to the razor's edge of modern scientific theory. One of the world's leading theoretical physicists, Lisa Randall provides astonishing scientific possibilities that, until recently, were restricted to the realm of science fiction. Unraveling the twisted threads of the most current debates on relativity, quantum mechanics, and gravity, she explores some of the most fundamental questions posed by Nature—taking us into the warped, hidden dimensions underpinning the universe we live in, demystifying the science of the myriad worlds that may exist just beyond our own.

Opening Heaven's Door

Written after his wife's tragic death as a way of surviving the "mad midnight moment," *A Grief Observed* is C.S. Lewis's honest reflection on the fundamental issues of life, death, and faith in the midst of loss. This work contains his concise, genuine reflections on that period: "Nothing will shake a man -- or at any rate a man like me -- out of his merely verbal thinking and his merely notional beliefs. He has to be knocked silly before he comes to his senses. Only torture will bring out the truth. Only under torture does he discover it himself." This is a beautiful and unflinchingly honest record of how even a stalwart believer can lose all sense of meaning in the universe, and how he can gradually regain his bearings.

Knocking on Heaven's Door

In this visionary memoir, based on a groundbreaking *New York Times Magazine* story, award-winning journalist Katy Butler ponders her parents' desires for "Good Deaths" and the forces within medicine that stood in the way. Katy Butler was living thousands of miles from her vigorous and self-reliant parents when the call came: a crippling stroke had left her proud seventy-nine-year-old father unable to fasten a belt or complete a sentence. Tragedy at first drew the family closer: her mother devoted herself to caregiving, and Butler joined the twenty-four million

Americans helping shepherd parents through their final declines. Then doctors outfitted her father with a pacemaker, keeping his heart going but doing nothing to prevent his six-year slide into dementia, near-blindness, and misery. When he told his exhausted wife, “I’m living too long,” mother and daughter were forced to confront a series of wrenching moral questions. When does death stop being a curse and become a blessing? Where is the line between saving a life and prolonging a dying? When do you say to a doctor, “Let my loved one go?” When doctors refused to disable the pacemaker, condemning her father to a prolonged and agonizing death, Butler set out to understand why. Her quest had barely begun when her mother took another path. Faced with her own grave illness, she rebelled against her doctors, refused open-heart surgery, and met death head-on. With a reporter’s skill and a daughter’s love, Butler explores what happens when our terror of death collides with the technological imperatives of medicine. Her provocative thesis is that modern medicine, in its pursuit of maximum longevity, often creates more suffering than it prevents. This revolutionary blend of memoir and investigative reporting lays bare the tangled web of technology, medicine, and commerce that dying has become. And it chronicles the rise of Slow Medicine, a new movement trying to reclaim the “Good Deaths” our ancestors prized. *Knocking on Heaven’s Door* is a map through the labyrinth of a broken medical system. It will inspire the difficult conversations we need to have with loved ones as it illuminates the path to a better way of death.

One Door Away from Heaven

BONUS: This edition contains an excerpt from Dean Koontz's *The City*. Hailed as “America’s most popular suspense novelist” (*Rolling Stone*) Dean Koontz has entered a rich new phase of his writing career that is yielding his most imaginative, meaningful, and popular work yet. At the height of his powers as a literary craftsman, he has won the acclaim of critics as well as the allegiance of millions of fans the world over, transforming the greatest fears and hopes of our time into masterworks of dazzling originality and emotional resonance. Now, with the stunning depth and virtuosity of his storytelling, he brings to readers one of his most gripping and richly imagined novels to date—an intoxicating story of adventure and suspense, mystery and revelation, told with humor, heart, and high art. *One Door Away From Heaven* In a dusty trailer park on the far edge of the California dream, Michelina Bellsong contemplates the choices she has made. At twenty-eight, she wants to change the direction of her troubled life but can’t find her way—until a new family settles into the rental trailer next door and she meets the young girl who will lead her on a remarkable quest that will change Micky herself and everything she knows—or thinks she knows—forever. Despite the brace she must wear on her deformed left leg, and her withered left hand, nine-year-old Leilani Klonk radiates a buoyant and indomitable spirit that inspires Micky. Beneath Leilani’s effervescence, however, Micky comes to sense a quiet desperation that the girl dares not express. Leilani’s mother is little more than a child herself. And the girl’s stepfather, Preston Maddoc, is educated but threatening. He has moved the family from place to place as he fanatically investigates UFO sightings, striving to make contact, claiming to have had a vision that by Leilani’s tenth birthday aliens will either heal her or take her away to a better life on their world. Slowly, ever more troubling details emerge in Leilani’s conversations with Micky. Most chilling is Micky’s discovery that Leilani had an older brother, also disabled, who

vanished after Maddoc took him into the woods one night and is now “gone to the stars.” Leilani’s tenth birthday is approaching. Micky is convinced the girl will be dead by that day. While the child-protection bureaucracy gives Micky the runaround, the Maddoc family slips away into the night. Micky sets out across America to track and find them, alone and afraid but for the first time living for something bigger than herself. She finds herself pitted against an adversary, Preston Maddoc, as fearsome as he is cunning. The passion and disregard for danger with which Micky pursues her quest bring to her side a burned-out detective who joins her on a journey of incredible peril and startling discoveries, a journey through terrible darkness to unexpected light. *One Door Away From Heaven* is an incandescent mix of suspense and humor, fear and wonder, a story of redemption and timeless wisdom that will have readers cheering. Filled with tragedy and joy, with terror and hope, it solidifies Dean Koontz’s reputation as one of the foremost storytellers of our time. This is Dean Koontz at his very best—and it doesn’t get any better than that.

Knocking on Heaven's Door

This "comforting...thoughtful" (The Washington Post) guide to maintaining a high quality of life—from resilient old age to the first inklings of a serious illness to the final breath—by the New York Times bestselling author of Knocking on Heaven's Door is a "roadmap to the end that combines medical, practical, and spiritual guidance" (The Boston Globe). "A common sense path to define what a 'good' death looks like" (USA TODAY), The Art of Dying Well is about living as well as possible for as long as possible and adapting successfully to change. Packed with extraordinarily helpful insights and inspiring true stories, award-winning journalist Katy Butler shows how to thrive in later life (even when coping with a chronic medical condition), how to get the best from our health system, and how to make your own "good death" more likely. Butler explains how to successfully age in place, why to pick a younger doctor and how to have an honest conversation with them, when not to call 911, and how to make your death a sacred rite of passage rather than a medical event. This handbook of preparations—practical, communal, physical, and spiritual—will help you make the most of your remaining time, be it decades, years, or months. Based on Butler's experience caring for aging parents, and hundreds of interviews with people who have successfully navigated our fragmented health system and helped their loved ones have good deaths, The Art of Dying Well also draws on the expertise of national leaders in family medicine, palliative care, geriatrics, oncology, and hospice. This "empowering guide clearly outlines the steps necessary to prepare for a beautiful death without fear" (Shelf Awareness).

Part of the Legend Classics series
As Gregor Samsa awoke one morning from uneasy dreams he found himself transformed in his bed into a gigantic insect. *The Metamorphosis* - the masterpiece of Franz Kafka - was first published in 1915 and is one of the seminal works of fiction of the twentieth century. The novel is cited as a key influence for many of today's leading authors; as Auden wrote: "Kafka is important to us because his predicament is the predicament of modern man".
Traveling salesman, Gregor Samsa, wakes to find himself transformed into a large, monstrous insect-like creature. The cause of Gregor's transformation is never revealed, and as he attempts to adjust to his new condition he becomes a burden to his parents and sister, who are repelled by the horrible, verminous creature Gregor has become. A harrowing, yet strangely comic, meditation on human feelings of inadequacy, guilt, and isolation, *The Metamorphosis* has taken its place as one of the most widely read and influential works of twentieth-century fiction.

Knocking on Heaven's Door

The first book by a respected journalist on Nearing Death Awareness—similar to Near-Death Experience—this “fascinating” (Kirkus Reviews) exploration brings “humor, sympathy, and keen critical intelligence to a topic that is all too often off-limits” (Ptolemy Tompkins, collaborator with Eben Alexander on *Proof of Heaven*). People everywhere carry with them extraordinary, deeply comforting experiences that arrived at the moment when they most needed relief: when they lost a loved one. These experiences can include clear messages from beyond, profound and vividly beautiful visions, mysterious connections and spiritual awareness, foreknowledge of a loved one’s passing—all of which evade explanation by science and logic. Most people keep these transcendent experiences secret for fear they will be discounted by hyper-rational scrutiny. Yet these very common occurrences have the power to console, comfort, and even transform our understanding of life

and death. Prompted by her family's surprising, profound experiences around the death of her father and her sister, reporter Patricia Pearson sets out on an open-minded inquiry, a rare journalistic investigation of Nearing Death Awareness, which Anne Rice praises as "substantive, eloquent, and worthwhile." Opening Heaven's Door offers deeply affecting stories of messages from the dying and the dead in a fascinating work of investigative journalism, pointing to new scientific explanations that give these luminous moments the importance felt by those who experience them. Pearson also delves into out-of-body and near-death experiences, examining stories and research to make sense of these related but distinct categories. Challenging current assumptions about what we know and what we are still unable to explain, Opening Heaven's Door will forever alter your perceptions of the nature of life and death.

Knocking at God's Door

On a hotter and more volatile earth in the twenty-third century, humans like Clare and Jon live in utopia, hunting and gathering in small tribal bands, engaged in daily art and ritual, reunited with old friends like the shaggy mammoth and giant ground sloth. Even better, they still have solar- powered laptops and can communicate with each other around the world. The understanding of physics has also advanced. When scientists first cloned extinct species from the Pleistocene, they discovered that many of them were telepathic—that consciousness travels in waves. For most people, animism has become the preferred religion, a panpsychism compatible with the laws of a fractal holographic universe. As Clare tells one of her students, the return to an older, Paleolithic lifestyle is “one of humanity’s greatest achievements.” It’s too bad that utopia had to come at such a cost: a genetically engineered super-virus that wiped out most of earth’s human population. Humanity was shaken by that event, and humanity vowed to change. Now, on the 150th anniversary of that catastrophe, a small group of men and women—as well as a smarter-than-average dire wolf and saber-toothed cat—are suddenly faced with decisions in which the stakes are higher than ever before. Will earth repeat the cycle of unbridled hubris? Or is humanity’s destiny even stranger than that? While recent studies have highlighted the phenomenon and risks of increased inequalities between the top and the bottom of society, little research has so far been carried out on trends relating to the median income range that generally represents the middle class. This volume examines the following questions: what are the main transformations in the world of work over the last 20 years in terms of the labour market, social dialogue, and conditions of work, wages and incomes that may have affected the middle class? How has the middle class been altered by the financial and economic crisis? What are the long-term trends for the middle class in Europe?

Winner of the NOBEL PRIZE in Literature 2016 For the first time, a comprehensive,

definitive collection of lyrics of music legend and poet Bob Dylan, complete with expert annotations. A major publishing event - a beautiful, comprehensive collection of the lyrics of Bob Dylan with artwork from thirty-three albums, edited and with an introduction by Christopher Ricks. As it was well put by Al Kooper (the man behind the organ on 'Like a Rolling Stone'), 'Bob is the equivalent of William Shakespeare. What Shakespeare did in his time, Bob does in his time.' Christopher Ricks, editor of T. S. Eliot, Samuel Beckett, Tennyson, and The Oxford Book of English Verse, has no argument with Mr. Kooper's assessment, and Dylan is attended to accordingly in this authoritative edition of his lyrics. In the words of Ricks: 'For fifty years, all the world has delighted in Bob Dylan's books of words and more than words: provocative, mysterious, touching, baffling, not-to-be-pinned-down, intriguing, and a reminder that genius is free to do as it chooses. And, again and again, these are not the words that he sings on the initially released albums.' This edition changes things, giving us the words from officially released studio and live recordings, as well as selected variant lyrics and revisions to these, recent revisions and retrospective ones; and, from the archives, words that, till now, have not been published. The Lyrics, edited with diligence by Christopher Ricks, Lisa Nemrow, and Julie Nemrow. As set down, as sung, and as sung again.

Knocking on Heaven's Door

A Best Book of the Season: BuzzFeed * Bustle * San Francisco Chronicle "A fascinating and beautifully written love letter to water. I was enchanted by this book." —Rebecca Skloot, bestselling author of The Immortal Life of Henrietta Lacks
An immersive, unforgettable, and eye-opening perspective on swimming—and on human behavior itself. We swim in freezing Arctic waters and piranha-infested rivers to test our limits. We swim for pleasure, for exercise, for healing. But humans, unlike other animals that are drawn to water, are not natural-born swimmers. We must be taught. Our evolutionary ancestors learned for survival; now, in the twenty-first century, swimming is one of the most popular activities in the world. Why We Swim is propelled by stories of Olympic champions, a Baghdad swim club that meets in Saddam Hussein's palace pool, modern-day Japanese samurai swimmers, and even an Icelandic fisherman who improbably survives a wintry six-hour swim after a shipwreck. New York Times contributor Bonnie Tsui, a swimmer herself, dives into the deep, from the San Francisco Bay to the South China Sea, investigating what about water—despite its dangers—seduces us and why we come back to it again and again.

WINNER OF THE FOOTBALL BOOK OF THE YEAR AT THE BRITISH SPORTS BOOK AWARDS SHORTLISTED FOR THE 2016 WILLIAM HILL SPORTS BOOK OF THE YEAR 'This football book is about something even more important than the "beautiful game"; it is a story of the human spirit.' - Mick Hume, The Times Adrian Doherty was not a typical footballer. For one thing, he was blessed with extraordinary talent. Those who played alongside and watched him in the Manchester United youth team in the early 1990s insist he was as good as Ryan Giggs - possibly even better. Giggs, who played on the opposite wing, says he is inclined to agree. Doherty was also an eccentric - by football standards, at least. When his colleagues went to Old Trafford to watch the first team on Saturday afternoons, he preferred to take the bus into Manchester to go busking. He wore second-hand clothes, worshipped Bob Dylan, read about theology and French existentialism and wrote songs and poems. One team-mate says "it was like having Bob Dylan in a No 7 shirt". On his 17th birthday, Doherty was offered a five-year contract - unprecedented for a United youngster at that time - and told by Alex Ferguson that he was destined for stardom. But what followed over the next decade is a tale so mysterious, so shocking, so unusual, so amusing but ultimately so tragic, that you are left wondering how on earth it has been untold for so long. The stories of Doherty's contemporaries, that group of Manchester United youngsters who became known as the "Class of '92", are well known.
