THE OVERLOOK sees Harry Bosch plunged into the dangerous world of international terrorism. When a physicist is murdered in LA it seems the killer has no fear of publicity, leaving the body on The Mulholland overlook, a site with a stunning view over the city. And when it's discovered that the victim turned over a quantity of a lethal chemical to his killer before he died, Harry knows he has more than just a single death to worry about. Alongside the forces of Homeland Security, Harry realizes he must solve the murder or face unimaginable consequences. In NINE DRAGONS, the shooting of a Chinese liquor store owner in LA brings Harry Bosch back to the Rodney King riots and the moment a stranger gave a young cop sanctuary. Now, the debt must be repaid, and Harry soon discovers the old man's death was no ordinary holdup. Homing in on clues disregarded by the cops on the scene, Harry builds a picture of corruption and intimidation, with the local Triads at the heart of it. But as he tries to build a case and breach the impenetrable wall of silence in the local community, he finds he is taking a dragon by the tail - a dragon whose talons reach well beyond LA, and even the States. Suddenly the most precious thing in Harry's life is under threat, and he will need to leave the familiarity of his home turf, alone and without backup, if he is going to stop his worst nightmare from happening. Harry Bosch is facing the end of the line in THE DROP. He's been put on the Deferred Retirement Option Plan - and given three years before his retirement is enforced. Seeing the end of the mission coming, he's

anxious for cases. He doesn't have to wait long. First a cold case gets a DNA hit for a rape and murder which points the finger at a 29-year-old convicted rapist who was only eight at the time of the murder. Then a city councilman's son is found dead - fallen or pushed from a hotel window - and he insists on Bosch taking the case despite the two men's history of enmity. The cases are unrelated but they twist around each other like the double helix of a DNA strand. One leads to the discovery of a killer operating in the city for as many as three decades; the other to a deep political conspiracy that reached back into the dark history of the police department.

Here is the body turned inside out, its members set free, its humors released upon the world. Hearts bigger than planets devour light and warp the space around them; the city of London has a menstrual flow that gushes through its underground pipes; gobs of phlegm cement friendships and sexual relationships; and a floating fetus larger than a human becomes the new town pastor. In this debut story collection, Shelley Jackson rewrites our private passages, and translates the dumb show of the body into prose as gorgeous as it is unhygienic.

Through the use of a diverse mix of historical and contemporary documents, the book explores how the problematisation of intersex infant genitalia in 1950s psychiatry propelled the emergence of the gender apparatus in order to socialise sexed individuals into the ideal productive and reproductive subjects of White, middle-class postwar America.

The Mackay girls are on the loose, and Somerset County will never be the same... Lyrica Mackay has wanted tall, handsome Marine Graham Brock for as long as she can remember. Unfortunately, Graham only sees her as his friend Dawg Mackay's "baby sister." Or so she believes. The truth is, the fiery party girl stirs something in Graham no female ever has. But Graham, like everyone in Somerset County, knows that trouble stalks the Mackays like bears track honey, and when a Mackay runs as hot as Lyrica does, someone's bound to get burned. Then Graham discovers that Lyrica's wild side is just a cover for a frightened and vulnerable woman who needs something true and genuine, something only Graham can offer. But surrendering his heart to Lyrica exposes them both to her shocking past—and a sinister secret that, once exposed, could destroy their only chance at happiness and shake the Mackay family to its core.
