Understanding Business, Global Edition

This casebook provides the most comprehensive treatment available, including the theoretical foundations, the common-law origins, the statutory structure, and the procedural context of modern criminal law. The book concentrates on doctrinal materials that can support both rigorous technical, and sophisticated theoretical, discussions. The purposes and limits of punishment are addressed through Supreme Court decisions, a focus on statutes throughout the substantive law sections enables training students in the legal art of statutory interpretation as well as exposing them to the hard moral and political problems of legislative choice, and the sentencing materials reprise the theory of punishment in the context of the practically most important stage of the modern process. The 12th edition carries forward the comprehensive approach of prior editions, empowering the teacher to design a course suited to the needs of the teacher's students and institution. New Supreme Court's decisions, changing the landscape of both substance and procedure, include *Skilling v. United States*, *McDonald v. City of Chicago*, *Graham v. Florida*, *United States v. Jones*, and *Michigan v. Bryant*. The material on self-defense has been comprehensively revised, both for the sake of clarity and to include discussion of so-called "stand your ground laws." Statutes (e.g., the New York and California homicide statutes) and the caselaw (e.g., up-to-the-minute material on "willful blindness") have been updated. We also now include a case about the admissibility of neuro-imaging evidence to support a diminished-capacity defense, thus acknowledging how modern brain science has begun to raise both practical evidentiary issues and a substantial challenge to important theoretical p

Appropriate for one-semester courses in Administrative Law at both college and university levels. Legal concepts and Canadian business applications are introduced in a concise, one-semester format. The text is structured so that five chapters on contracts form the nucleus of the course, and the balance provides stand-alone sections that the instructor may choose to cover in any order. We've made the design more reader-friendly, using a visually-appealing four-colour format and enlivening the solid text with case snippets and extracts. The result is a book that maintains the strong legal content of previous editions while introducing more real-life examples of business law in practice.

For over 20 years, Law for Business has gone well beyond merely identifying the current legal rules and regulations affecting business by offering insights into new developments and trends that will affect the future of business. It has provided students with a comprehensive, yet concise treatment of the legal issues of fundamental importance to business students and the business profession. The cases, which have always been a strong feature, are edited and re-written by the authors, who divide the material into three categories: facts, issues, decisions. The authors, Barnes, Dworkin, and Richards, choose cases that are appropriate to explain precedent and history as well as include "hot topic" cases that relate to current events. In addition to case applications, the authors use such techniques as content summaries to apply concepts to practice. Effective managers and employees must develop knowledge of both law and business because people involved in business also are involved in, and greatly affected by, the laws concerning business.

Dynamic Business Law: The Essentials is appropriate for the one-semester Business Law course. It contains the basics of business law but does not get bogged down in the kind of details that are more appropriate in an upper-level law class. The text provides an examination of the basic questions, concepts, and legal rules of business law. Emphasis on the BUSINESS in business law. Dynamic Business Law: The Essentials emphasizes the tie of legal issues back to the core business curriculum. This will help both students and faculty. Faculty need to know how this is integrated as they are constantly 'defending' the inclusion of this course in the business curriculum. And students need to understand how the concepts tie to their future business careers. Emphasis on TEACHING. Many professors teaching this course are attorneys first and academics second. They do not have a lot of time to prepare or think about how to apply this information effectively for their business students. Dynamic Business Law: The Essentials contains a helpful instructor's manual, particularly for the many adjuncts teaching this course. Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in Dynamic Business Law: The Essentials as well - to help students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to tie in this component even further.
