Land of My Childhood

The New York Times bestselling, darkly funny memoir of a young New Yorker's daring dual life—advertising art director by day, glitter-dripping drag queen and nightclub beauty-pageant hopeful by night—was a smash literary debut for Josh Kilmer-Purcell, now known for his popular PlanetGreen television series The Fabulous Beekman Boys. His story begins here—before the homemade goat milk soaps and hand-gathered honeys, before his memoir of the city mouse's move to the country, The Bucolic Plague—in *I Am Not Myself These Days*, with “plenty of dishy anecdotes and moments of tragi-camp delight” (Washington Post).

As founder of the Peace Corps, Head Start, the Special Olympics (with wife Eunice Kennedy Shriver), and other organizations, Sargent Shriver was a key social and political figure whose influence continues to the present day. This authorized biography, exhaustively researched and finely rendered by Scott Stossel (deputy editor of *The Atlantic*), reads like an epic novel, with “Sarge” marching through the historical events of the last century—the Great Depression, World War II, JFK’s assassination, the Cold War, and many more. Sarge gives us a complete account of Shriver’s life, as well as a thoughtful commentary on the Kennedy family, the Peace Corps, and United States and world history. It is a riveting and

comprehensive reconstruction of a life that exemplifies what it means to be a true American.

Winchester Christmas Wedding

Charlotte Schleswig, the delightful narrator of Liz Jensen's latest novel, supports herself and the lumpen Fru Schleswig (who may or may not be her mother) as a prostitute in 1890s Copenhagen. While she is no small success at the trade, she leaps at a new job opportunity for herself and Fru Schleswig, as cleaning ladies for the wealthy widow Krak. But mysteries abound at Fru Krak's dark old mansion. The basement appears to be haunted, townspeople claim to have seen the dead Professor Krak walking the streets as a ghost, and there are stories of desperate souls who paid the professor a visit and never emerged. In fact, as Charlotte will discover, there is a simple explanation for all this: the basement is home to a time machine. When their cunning investigations land them in trouble, Charlotte and Fru Schleswig find themselves catapulted through time and space to modern-day London, and there their adventures truly begin. With the minxy, intrepid Charlotte, Liz Jensen introduces a heroine every bit as memorable as Louis Drax. And with *My Dirty Little Book of Stolen Time*, she delivers yet another outlandishly entertaining novel, in which the seemingly insurmountable obstacle of spacetime proves no match for human ingenuity and earthly passion.

The Official GNOME 2 Developer's Guide

Developers who write programs for GNOME use the GNOME API. Working with the GNOME API is preferable because the program will conform to the standard GNOME

program look and feel. It also allows the developer to use the GNOME specific libraries in the program, greatly simplifying the development process. The Official GNOME 2 Developer's Guide is the official GNOME Foundation guide to programming GUIs and applications using the GTK+ and GNOME API. Developed in partnership with the GNOME Foundation, this book is for programmers working with the GNOME 2 desktop environment. Each section begins with an example program that serves as a tutorial, then develops into a reference on the topic. Includes abundant, well-annotated examples. Knowledge of the C programming language is required, but no GUI programming experience is necessary.

The Epic of Kings

Sir Arthur Ignatius Conan Doyle DL (22 May 1859 - 7 July 1930) was a Scottish physician and writer who is most noted for his fictional stories about the detective Sherlock Holmes, which are generally considered milestones in the field of crime fiction. He is also known for writing the fictional adventures of a second character he invented, Professor Challenger, and for popularising the mystery of the Mary Celeste. He was a prolific writer whose other works include fantasy and science fiction stories, plays, romances, poetry, non-fiction, and historical novels. Sherlock Holmes is a fictional detective created by Scottish author and physician Sir Arthur Conan Doyle, a graduate of the University of Edinburgh Medical School. A London-based "consulting detective" whose abilities border on the fantastic, Holmes is

famous for his astute logical reasoning, his ability to adopt almost any disguise, and his use of forensic science skills to solve difficult cases. Holmes, who first appeared in publication in 1887, was featured in four novels and 56 short stories. The first novel, *A Study in Scarlet*, appeared in Beeton's Christmas Annual in 1887 and the second, *The Sign of the Four*, in Lippincott's Monthly Magazine in 1890. The character grew tremendously in popularity with the first series of short stories in *The Strand Magazine*, beginning with "A Scandal in Bohemia" in 1891; further series of short stories and two novels published in serial form appeared between then and 1927. The stories cover a period from around 1880 up to 1914. All but four stories are narrated by Holmes's friend and biographer, Dr. John H. Watson; two are narrated by Holmes himself ("The Blanched Soldier" and "The Lion's Mane") and two others are written in the third person ("The Mazarin Stone" and "His Last Bow"). In two stories ("The Musgrave Ritual" and "The Gloria Scott"), Holmes tells Watson the main story from his memories, while Watson becomes the narrator of the frame story. The first and fourth novels, *A Study in Scarlet* and *The Valley of Fear*, each include a long interval of omniscient narration recounting events unknown to either Holmes or Watson.

Out of the Deep I Cry

Over the last twenty-five years, medicine and consumerism have been on an unchecked collision course, but, until now, the fallout from their impact has yet to be fully uncovered. A writer for The New Yorker and The Atlantic Monthly, Carl Elliott ventures into the uncharted dark side of medicine, shining a light on the series of social and legislative changes that have sacrificed old-style doctoring to the values of consumer capitalism. Along the way, he introduces us to the often

shifty characters who work the production line in Big Pharma: from the professional guinea pigs who test-pilot new drugs and the ghostwriters who pen “scientific” articles for drug manufacturers to the PR specialists who manufacture “news” bulletins. We meet the drug reps who will do practically anything to make quota in an ever-expanding arms race of pharmaceutical gift-giving; the “thought leaders” who travel the world to enlighten the medical community about the wonders of the latest release; even, finally, the ethicists who oversee all that commercialized medicine has to offer from their pharma-funded perches. Taking the pulse of the medical community today, Elliott discovers the culture of deception that has become so institutionalized many people do not even see it as a problem. Head-turning stories and a rogue’s gallery of colorful characters become his springboard for exploring larger ethical issues surrounding money. Are there certain things that should not be bought and sold? In what ways do the ethics of business clash with the ethics of medical care? And what is wrong with medical consumerism anyway? Elliott asks all these questions and more as he examines the underbelly of medicine.
