Exploring the World of Lucid Dreaming

"Colleges and universities constitute a special type of organization; and their complex mission, dynamics, personnel structures, and values require a distinct set of understandings and skills to lead and manage them well." —From the Preface
In Reframing Academic Leadership, Lee G. Bolman and Joan V. Gallos offer higher education leaders a provocative and pragmatic guide for Crafting dynamic institutions where the whole is greater than the sum of the parts
Creating campus environments that facilitate creativity and commitment
Forging alliances and partnerships in service of the mission
Building shared vision and campus cultures that unite and inspire
Serving the larger goals of the academy and society
Throughout the book, the authors integrate powerful conceptual frameworks with rich and compelling real-world cases to support academic leaders searching for the best in themselves and in their institutions. The book tackles thorny issues such as

building institutional clarity and capacity, managing conflict, coping with difficult people, partnering with the boss, and developing leadership resilience. Following in the tradition of Bolman and Deal's classic *Reframing Organizations*, Bolman and Gallos emphasize a pragmatic approach. They tease out the unique challenges and opportunities in academic leadership and provide ideas, tools, and encouragement to help higher education leaders see more clearly, feel more confident, and become more skilled and versatile in handling the vicissitudes of daily life. *Reframing Academic Leadership* is the resource for those seeking to understand, develop, and manage colleges and universities.
