New Outlook

This comprehensive volume brings together the best available clinical scoring systems for thematic apperceptive techniques (TATs), presented in research summaries along with practice stories and available scoring manuals. *A Handbook of Clinical Scoring Systems for Thematic Apperceptive Techniques* raises awareness about the availability and usefulness of TAT scoring systems for research, training, and clinical practice; provides the materials needed for learning and using the most useful available clinical systems; and facilitates their use by making independent learning and systematic research easier. This book should be in the library of every faculty member and clinical supervisor who is responsible for teaching courses in psychological assessment or supervising assessment students in clinical, counseling, school, or forensic psychology, whether in academic or practice settings, practicum sites, or internships.

A Handbook of Clinical Scoring Systems for Thematic Apperceptive Techniques

Management of Dead Bodies in Disaster Situations

Describes the characteristics and attributes of a variety of monsters, zombies, demons, giants, werewolves, animals, and aliens for use in the Dungeons and Dragons game.

Population Reports

This manual will ensure that the management of massive fatalities forms part of disaster preparedness and response plans, and that it is a fundamental aspect of humanitarian assistance to survivors and rehabilitation and reconstruction programs. The manual provides the technical information that will support the correct approach to handling dead bodies. Contents: Preparedness for mass deaths; Medicolegal work in major disasters; Health considerations in cases of mass fatalities; Sociocultural aspects; Psychological aspects; Legal aspects; Cases studies; Final recommendations; Myths and realities of management of dead bodies in disasters; and Glossary. Illustrations.
