Impact Factor | Journal Indexing - Journal Impact Factor List

As of now about 50 journals, in which 20 journals and 100 conferences are presently dedicated to the obesity and its consequences, according to the recent results the obesity is a medical condition in which excess body fat has accumulated to the extent that it may have a negative effect on health, leading to reduced life expectancy and/or increased health

problems.

Open Access Journals Impact Factor | Scientific Journals

The impact factor of a journal is calculated by dividing the number of current year citations to the source items published in that journal during the previous two years. It is denoted as a ratio between citations and recent citable items published. You can either refer to the Journal Citation Reports (JCR) or the Scopus® database to find the impact factor of the journal.
