Eve's Hollywood

Covering every phase of a theatrical production, this fourth edition of *Sound and Music for the Theatre* traces the process of sound design from initial concept through implementation in actual performances. The book discusses the early evolution of sound design and how it supports the play, from researching sources for music and effects, to negotiating a contract. It shows you how to organize the construction of the sound design elements, how the designer functions in a rehearsal, and how to set up and train an operator to run sound equipment. This instructive information is interspersed with 'war stores' describing real-life problems with solutions that you can apply in your own work, whether you're a sound designer, composer, or sound operator.

A Whole New Crowd

The Process Church is one of the most controversial cults of modern times. Its apocalyptic ideas and powerful literature brought on extreme allegiances and

shocking accusations. Here, the secretive group's history is finally revealed for the first time. Through its various incarnations, the Process Church has kept its history sealed for decades. Though the church was not as horrifying as some made it out to be, its actual history is truly unexpected and sensational.

Hinkle Fieldhouse

Journalist, party girl, bookworm, artist, muse: by the time she'd hit thirty, Eve Babitz had played all of these roles. Immortalized as the nude beauty facing down Duchamp and as one of Ed Ruscha's Five 1965 Girlfriends, Babitz's first book showed her to be a razor-sharp writer with tales of her own. Eve's Hollywood is an album of vivid snapshots of Southern California's haute bohemians, of outrageously beautiful high-school ingenues and enviably tattooed Chicanas, of rock stars sleeping it off at the Chateau Marmont. And though Babitz's prose might appear careening, she's in control as she takes us on a ride through an LA of perpetual delight, from a joint serving the perfect taquito, to the corner of La Brea and Sunset where we make eye contact with a roller-skating hooker, to the Watts Towers. This "daughter of the wasteland" is here to show us that her city is no wasteland at all but a glowing landscape of swaying fruit trees and blooming bougainvillea, buffeted by earthquakes and the Santa Ana winds—and every bit as seductive as she is.

MongoDB and Python

DCI Jack Hawksworth is back, working on a high-profile case breaking in London. A calculating serial killer is on the loose, committing the most gruesome of murders as he 'trophies' the faces of his victims. With each new atrocity, the public and police force are getting more desperate for results. Hawk pulls together a strong and experienced taskforce, who soon find themselves caught up in a murky world of illegal immigrants and human organ trading. As he struggles to find any sort of link between the victims, Jack identifies something unique about the most recent corpse, and things suddenly get very personal. From the seedy underbelly of London's back streets and New Scotland Yard to the dangerous frontiers of modern medicine, this is a gripping crime thriller from a powerhouse Australian author.

Walk into Hinkle Fieldhouse, and you feel it--that palpable sense of history known as the Hinkle mystique. Indiana's basketball cathedral has stood in all its glory at Butler University since 1928. John Wooden, Oscar Robertson and Larry Bird played on its floor. Jesse Owens sprinted to a record at Hinkle, and athletes from around the globe have brought Olympic-level competition to crowds gathered under its steel arches. It was the setting for the climactic scene in Hoosiers, arguably the greatest sports movie ever made. It has hosted evangelists, ice shows, tennis

matches, bike races and even roller derbies. Author Eric Angevine gets inside the paint in this complete Hinkle history, featuring archival photographs of the iconic structure and words from those who know it best.

A Guide to Biology Lab

He told me to go away. I did. I followed his instructions. I left with the new family. They were from the right side of the tracks and I tried to become one of them. I really did, but I failed. When someone died, someone that I loved, I couldn't keep pretending everything was fine. It wasn't. This privileged world he gave me wasn't privileged. There were problems. He just never told me that he created them, that he had sent me into a world he set up for me. It was all a lie, but it was lie that I was going to expose. Or I would die trying. **This is a standalone.

The Manson File

In the future, love is complicated and death is not necessarily the end. Love Minus Eighty follows several interconnected people in a disquieting vision of romantic life in the century to come. There's Rob, who accidentally kills a jogger, then sacrifices all to visit her in a cryogenic dating facility, seeking forgiveness but instead falling in love. Veronika, a shy dating coach, finds herself coaching the very woman who is stealing the man she loves. And Mira, a gay woman accidentally placed in a heterosexual dating center near its inception, desperately seeks a way to reunite with her frozen partner as the years pass. In this daring and big-hearted novel based on the Hugo-winning short story, the lovelorn navigate a world in which technology has reached the outer limits of morality and romance.

Understanding Hydraulics

Being able to perform any task with full attention has become one of the great unspoken-about challenges of modern life. As our culture has become more high-

speed, techno-stressed, information-cluttered and media-saturated, we are getting pushed out of our focus zones without even realising it. If you work in a modern office, it is likely you are suffering from 'information fatigue syndrome', which means that even naturally bright and creative people are rendered incapable of making swift decisions, problem-solving efficiently or able to maintain appropriate energy levels. Award-winning psychologist Lucy Jo Palladino offers practical solutions for anyone juggling too much, who finds themselves in a state of 'continuous partial attention', seemingly unable to do any one task with full concentration. In order to help people combat the negative aspects of 'always-on' information culture, Palladino has come up with a new set of skills that will help readers beat distraction and win the fight against information overload. She provides eight sets of 'keys' that will unlock your best attention and help you balance adrenaline levels, even when you are under pressure or facing dull tasks. Rooted in sports performance psychology, yet practical and user-friendly, Palladino's cutting-edge methods will help you stay focused and enhance your performance in all areas of daily life where concentration is required.

iPhone and iOS Forensics

Considered by many to be the most beautiful woman of her generation, Sharon Tate remains a fascinating pop icon and a poster child for the 1960s. What most struck those who knew Sharon was her gentle nature and the sheer perfection of her face, but she was far more than just a beauty. The few films she made during her brief career, including *Valley of the Dolls*, *Eye of the Devil*, and *The Fearless Vampire Killers*, have taken on a cult status. Over forty years since her last film, Sharon's spirit and charisma lives strong in the memories of those who knew her best, and her style continues to inspire the worlds of fashion, beauty, art, and film. *Sharon Tate: Recollection* is a one-of-a-kind celebration of Sharon's life and career, her influence as a fashion icon throughout the world, and in effect presents a sociological portrait of the 1960s—its youth culture, the sexual revolution, Hollywood's changing studio system, and the rise of independent cinema. In this dazzling photo book, Sharon Tate's story emerges through quotes and short essays—recollections—by her sister, Debra Tate, as well as by those who knew and who have been influenced by her. An all-star cast contributing memories and

thoughts on Sharon includes Jack Nicholson, Warren Beatty, Robert Evans, Mia Farrow, Raquel Welch, Hugh Hefner, Michelle Phillips, Patty Duke, Barbara Parkins, Jane Fonda, Drew Barrymore, and Kelly Osbourne. The book is filled with hundreds of rare and unpublished photos of Sharon Tate taken by the likes of Milton Greene, David Bailey, Terry O'Neill, Richard Avedon, Bert Stern, Norman Parkinson, Philippe Halsman, John Engstead, and more. What emerges from these pages is a stunning tribute to an unforgettable life.

Goodbye Helter Skelter

This book explores the relationship between the safety of journalists and self-censorship practices around the world, including local case studies and regional and international perspectives. Bringing together scholars and practitioners from around the globe, *Journalist Safety and Self-Censorship* provides new and updated insights into patterns of self-censorship and free speech, focusing on a variety of factors that affect these issues, including surveillance, legislation, threats, violent conflict, gender-related stereotypes, digitisation and social media. The contributions examine topics such as trauma, risk and self-censorship among journalists in different regions of the world, including Central America, Estonia, Turkey, Uganda and Pakistan. The book also provides conceptual clarity to the notion of journalist self-censorship, and explores the question of how self-censorship may be studied empirically. Combining both theoretical and practical

knowledge, this collection serves as a much-needed resource for any academic, student of journalism, practicing journalist, or NGO working on issues of journalism, safety, free speech and censorship.

Myrren's Gift

"Creepy crawling" was the Manson Family's practice of secretly entering someone's home and, without harming anyone, leaving only a trace of evidence that they had been there, some reminder that the sanctity of the private home had been breached. Now, author Jeffrey Melnick reveals just how much the Family creepy crawled their way through Los Angeles in the sixties and then on through American social, political, and cultural life for close to fifty years, firmly lodging themselves in our minds. Even now, it is almost impossible to discuss the sixties, teenage runaways, sexuality, drugs, music, California, and even the concept of family without referencing Manson and his "girls." Not just another history of Charles Manson, Creepy Crawling explores how the Family weren't so much outsiders but

emblematic of the Los Angeles counterculture freak scene, and how Manson worked to connect himself to the mainstream of the time. Ever since they spent two nights killing seven residents of Los Angeles—what we now know as the "Tate-LaBianca murders"—the Manson family has rarely slipped from the American radar for long. From Emma Cline's *The Girls* to the recent TV show *Aquarius*, the family continues to find an audience. What is it about Charles Manson and his family that captivates us still? Author Jeffrey Melnick sets out to answer this question in this fascinating and compulsively readable cultural history of the Family and their influence from 1969 to the present.

For one of Innisdale's residents, a priceless sonnet means poetic license to kill. . . . Grace Hollister's stay in England's picturesque Lake District has proven doubly fruitful -- the American literary scholar just sold her first book, and her romance with charming antiques dealer and ex-jewel thief Peter Fox has begun a new

chapter. Sorting through a hoard of papers found in an old farmhouse, Grace and Peter discover an old letter that refers to a lost Shelley sonnet, "Sate the Sphinx." Before Grace can start tracking down this poetic treasure, though, Peter's shady past rears its head -- a particularly ugly head, belonging to a menacing Turk who's eager to see Peter dead. But there's plenty more trouble in store. Suddenly Grace and Peter are suspects in a murder investigation, and someone has tried his level best to kill her -- not once, but twice. The hieroglyphics are on the wall: unless Grace can unravel an inscrutable riddle and unearth the villain amid a cache of likely suspects, her story might be at an end. . . .

Tyrant's Blood

Royal Exile

From out of the East they came riding like a merciless plague—destroying kingdom after kingdom and the sovereigns who had previously mocked the warlord Loethar and his barbarian horde. Now only one land remains unconquered—the largest, richest, and most powerful realm of the Denova Set . . . Penraven. The Valisar royals of Penraven face certain death, for the savage tyrant Loethar covets what they alone possess: the fabled Valisar Enchantment, an irresistible power to

coerce, which will belong to Loethar once every Valisar has been slain. But the last hope of the besieged kingdom is being sent in secret from his doomed home, in the company of a single warrior. The future of Penraven now rests on the shoulders of the young Crown Prince Leonel who, though untried and untested in the ways of war, must survive brutality and treachery in order to claim the Valisar throne.
