The RTI Approach to Evaluating Learning Disabilities

Math

The Practice Test is a book of questions written in a sometimes humorous imitation of medical board exams. However, rather than addressing the science of medicine, The Practice Test asks (and answers) questions about life as a physician. It is a book written to help future and current physicians to develop, or rediscover, balance, perspective and joy in their lives and in the practice of their chosen profession.

Build assessments you can really use | Unlock the how, when, what, and why Watch your system become greater than its parts by building local capacity through common language and deeper knowledge of assessment components. For years, educators have turned to the Hess Cognitive Rigor Matrices (CRM). Now for the first time, the modules are packaged into one resource to help you evaluate the quality and premise of your current assessment system. Designed as a professional development guide for long-term use by school leaders, five content-rich, topic-based modules: Offer field-tested, teacher-friendly strategies for local school test development Can be used for individual or professional development opportunities Allow for sequential or non-sequential use

This book presents clear-cut procedures for using response to intervention (RTI) to determine a K-12 student's eligibility for special education under the designation of specific learning disabilities (SLD). Comprehensive guidelines are provided for gathering student data in the course of interventions and ruling out causes other than SLD for academic problems. Special features include case examples, tips for creating individualized education plans based on RTI data, and frequently asked questions. With a convenient large-size format and lay-flat binding, the book features useful reproducible tools. Purchasers also get access to a Web page where they can download and print the reproducible materials. This book is in The Guilford Practical Intervention in the Schools Series.

A Newbery Honor Book and Winner of the Christopher Award: A young boy fires a forbidden rifle—and must face the consequences. Ned Wallis’s minister father made him promise not to touch the rifle until he turns fourteen. But the eleven-year-old can’t resist sneaking outside and trying it out, just once. Ned takes aim, and fires—just as a dark shadow passes in front of him. When he looks up, a flickering face passes across the attic window. Someone was watching. When a feral cat appears outside the house of an elderly neighbor, with dried blood on its matted fur and a missing eye, Ned begins to wonder: Could he have shot this animal that night? Full of guilt and terrified that his secret will come out, Ned starts caring for the one-eyed cat. But will he be able to come clean about his broken promise and the shot in the dark? Spring brings the chance for redemption and a surprising revelation from an unexpected source in this New York Times Outstanding Children’s Book of the Year.
