### **Auto Repair For Dummies**

"Very few of the inhabitants of the Sardinian town of Abacrasta survive to old age. By tradition they are cursed, fated to take their own lives with belts or ropes, called by a Voice that says 'Ajo, get ready, for your time has come' Beneitta Trunzone is destined for the nunnery to fulfil an ancient family tradition, but she doesn't want to give herself to God. Beneitta would rather give herself to Bustianu Chitarra, who knows how to jive and dresses like the Beatles, so when the Voice calls she dons her nun's habit, puts on 'Day Tripper', and buys her final one way ticket. Bantine Pica rises to be mayor, but after a disastrous late-night card game he attaches a rope to the flagpole on his mayoral balcony and jumps. Even the town's undertaker perishes, lowering himself dejectedly into a grave, a rope around his neck. As town clerk Battista Graminzone has recorded Abacrasta's births, deaths and suicides for decades now retired, he has sat down to tell these many stories of misfortune, including that of his own grandfather, found one morning hanging from a large oak, ears nibbled by field mice. But one day in late summer everything changes with the arrival of Redenta Tiria, a b

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated

Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.
