The Export Sales & Marketing Manual was introduced worldwide in 1987 and has been updated annually for 21 consecutive years. Referred to worldwide as "The Bible of Exporting", it is currently being used throughout the United States and in 80 countries around the world. No other publication in the field of international trade has achieved the longevity and global reach of the Export Sales & Marketing Manual. More information about the manual is available at https://www.exportinstitute.com/products/export_manual.htm. It is available in print and CD-ROM versions, and as online export classes at <http://www.exportclasses.com>. The content of the manual has been drawn from John R. Jagoe's 43 years of hands-on experience in exporting. Since graduating from Thunderbird in 1964, Mr. Jagoe has worked as a marketing executive in eight foreign countries: Costa Rica, Guatemala, Puerto Rico, Panama, Italy, the United Kingdom, Germany and Australia. During this period, he has appointed more than 300 successful export agents and distributors for companies in 60 countries around the world. The Export Sales & Marketing Manual 2008 covers every step involved in selling products in world markets. Immediately-usable information is presented in a logical, step-by-step format supported by 120 illustrations, 85 graphs, 40 flow charts and 60 examples of international trade documents. 1200 website addresses have been strategically placed within the text so that users can conduct international market research as they learn how to export. It also includes a 30-page glossary of export terms and a 9-page, detailed index for quick reference.

A blended learning approach to automotive engineering at levels one to three. Produced alongside the ATT online learning resources, this textbook covers all the theory and technology sections that students need to learn in order to pass levels 1, 2 and 3 automotive courses. It is recommended by the Institute of the Motor Industry and is also ideal for exams run by other awarding bodies. Unlike the current textbooks on the market though, this title takes a blended learning approach, using interactive features that make learning more enjoyable as well as more effective. When linked with the ATT online resources it provides a comprehensive package that includes activities, video footage, assessments and further reading. Information and activities are set out in sequence so as to meet teacher and learner needs as well as qualification requirements. Tom Denton is the leading UK automotive author with a teaching career spanning lecturer to head of automotive engineering in a large college. His nine automotive textbooks published since 1995 are bestsellers and led to his authoring of the Automotive Technician Training multimedia system that is in common use in the UK, USA and several other countries.
