Following the text's content, Richard Straub offers a Chapter Overview and Chapter Review, which is divided by major section. Each group of fill-in-the-blank and short-answer questions is preceded by the relevant objective from the text. The Study Guide also includes three self-tests (one of which encourages students to think critically about the chapter's concepts), answers (with page references for the self-tests and explanations of why a choice is correct or incorrect), and a Focus on Language and Vocabulary section, which explains idioms and other phrases used by David Myers in the text that may not be clear to some readers.
