"The Pocket Oxford American Dictionary & Thesaurus" is the ideal all-in-one portable reference, with a dictionary and thesaurus combined in one handy, integrated volume.

New Syllabus Primary Mathematics Workbook 6A Part 1

New Syllabus Mathematics (NSM) is a series of textbooks specially designed to provide valuable learning experiences to engage the hearts and minds of students sitting for the GCE O-level examination in Mathematics. Included in the textbooks are Investigation, Class Discussion, Thinking Time, Journal Writing, Performance Task and Problems in Real-World Contexts to support the teaching and learning of Mathematics. Every chapter begins with a chapter opener which motivates students in learning the topic. Interesting stories about Mathematicians, real-life examples and applications are used to arouse students' interest and curiosity so that they can appreciate the beauty of Mathematics in their surroundings. The use of ICT

helps students to visualise and manipulate mathematical objects more easily, thus making the learning of Mathematics more interactive. Ready-to-use interactive ICT templates are available at [http://www.shinglee.com.sg/ StudentResources/](http://www.shinglee.com.sg/StudentResources/)

New Syllabus Primary Mathematics Workbook 2B

A seven-level series that has been written for use in Australian Primary schools. It has been designed to address the outcomes for each state from the main curriculum strands of: number (including patterns and algebra for NSW), measurement, space, chance and data, working mathematically / reasoning and strategies.

New Syllabus Primary Mathematics Workbook 5B Part 2

◆ The New Syllabus Primary Mathematics (NSPM) series is designed and written based on the latest primary mathematics syllabus. In this series, the concrete to abstract approach is adopted to introduce new concepts. Vivid and stimulating illustrations are used throughout the series to enhance learning. The knowledge base is built incrementally as the pupils progress up the levels so as to consolidate the linkages among mathematical concepts. ◆ The series aims to meet the learning needs of pupils from Primary One to Six. It comprises textbooks and workbooks at each level. Every worksheet in the workbook corresponds to each concept learnt. Textbook 3A comprises 7 chapters. Each chapter comprises the following sections: Do You Know? Relevant, thought-provoking questions are asked with regard to the real life situation presented at the beginning of each chapter to link Mathematics to daily life. Let's Learn ◆ New concepts are explained in a straight-forward and interesting way. Creative and critical thinking, as well as an awareness of problem-solving strategies, are developed through worked examples in this section. Guided examples provide reinforcement and consolidation of the concepts taught. Let's Explore Active participation in exploration of the concepts learnt and creative application of Mathematics to daily life, including IT and hands-on activities, help to develop lifelong learners. Social skills such as effective communication, cooperation and team spirit are encouraged through group and pair work. Let's Think Opportunities are provided to develop higher order thinking skills and proficiency in applying the concepts learnt through non-routine and challenging questions. Let's Try Exercises are provided for pupils to develop their problem solving skills, so that pupils grow into confident and independent learners. Fun with Maths Mathematical concepts are extended beyond the boundaries of the classroom and taken into the realm of games and experiments to further engage and develop pupils' interest in Mathematics.

New Syllabus Primary Mathematics Workbook 6A Part 2

New Syllabus Primary Mathematics Workbook 5B Part 1

This series is endorsed by Cambridge International Examinations and is part of Cambridge Maths.

New Syllabus Primary Mathematics Textbook 4A

New Syllabus Mathematics is a series of four books. These books follow the Mathematics Syllabus for Secondary Schools, implemented from 2007 by the Ministry of Education, Singapore. The whole series covers the complete syllabus for the Singapore-Cambridge GCE ♦O♦ Level Mathematics. The sixth edition of New Syllabus Mathematics retains the goals and objectives of the previous edition, but has been revised to meet the needs of the current users, to keep materials up-to-date as well as to give students a better understanding of the contents. All topics are comprehensively dealt with to provide students with a firm grounding in the subject. Explanations of concepts and principles are precise and written clearly and concisely with supportive illustrations and examples. Examples and exercises have been carefully graded to aid students in progressing within and beyond each level. Those exercises marked with a require either more thinking or involve more calculations. Numerous revision exercises are provided at appropriate intervals to enable students to recapitulate what they

have learnt. Some interesting features of this series include the following: ♦ an interesting introduction at the beginning of each chapter complete with photographs or graphics ♦ brief specific instructional objectives for each chapter ♦ Just For Fun arouses the students' interests in studying mathematics ♦ Thinking Time encourages students to think creatively and go deeper into the topics ♦ Exploration provides opportunities for students to learn actively and independently ♦ For Your Information provides extra information on mathematicians, mathematical history and events etc. ♦ Problem Solving Tips provides suggestions to help students in their thinking processes. We also introduce problem solving heuristics and strategies systemically throughout the series. ♦ Your Attention alerts students to misconceptions.

Primary Mathematics for Trainee Teachers

New Syllabus Additional Mathematics Textbook

Ideal for PET and FCE preparation Packed full of useful study extras, the Cambridge Learner's Dictionary helps you on your way to becoming a confident, natural English speaker. With clear definitions, written especially for intermediate level students, and thousands of examples that put the language into context, this dictionary is an invaluable companion, whether you are learning English for work or pleasure, or preparing for an exam. The best bits of the dictionary * NEW! Improved and expanded study pages include the innovative 'Talk' section, focussing on conversation, and how people really speak in day-to-day situations. * NEW! Word Partner boxes show how words are used together, helping you develop natural sounding English. * NEW! Special 'new words' section focuses on the latest words to enter the English language, ensuring that the language you learn is always up to date. * NEW! Thesaurus boxes make your English sound more natural by providing alternatives to over-used words, helping you to widen your vocabulary. * Learner Error notes taken from the Cambridge Learner Corpus - based on real student errors from Cambridge ESOL papers - help you to avoid typical mistakes. The Cambridge Learner's Dictionary CD-ROM includes the whole dictionary in a handy searchable format and much more, too! You can listen to every word in British and American English - and even record yourself for comparison. The best bits of the CD-ROM * UNIQUE! SMART thesaurus helps build vocabulary and allows you to create topic-related word lists at the click of a button. * QUICKfind, a mini pop-up version of the dictionary, lets you look up words as you work with no effort. * Hundreds of interactive vocabulary practice exercises - to use on-screen, or print out for classroom use - help you to monitor your progress.

New Syllabus Primary Mathematics Workbook 3A Part 2

With chapter sequencing following the new Curriculum, this book supports trainee Primary school teachers to make use of the opportunities presented in the new National Curriculum for effective and engaging Mathematics teaching. Covering all of the areas of the new Curriculum for primary mathematics and offering insight into effective teaching, this book helps students connect what they need to teach with how it can be taught. Exploring opportunities in the new curriculum for creative and imaginative teaching, it shows readers how to capitalize on opportunities to develop children's reasoning and problem solving skills. It explores how to make links between mathematics and children's lived experiences to enhance their learning and enables trainees to develop an ability to plan with discernment, making the most of existing thinking and research as well as building confidence in adapting and customizing ideas. Includes the full National Curriculum Programme of Study for Maths, key stages 1 and 2 as a useful reference for trainee teachers. Other books in this series include: Primary Science for Trainee Teachers and Primary English for Trainee Teachers

New Syllabus Primary Mathematics Workbook 4B Part 2

Intellectual Mathematics Textbooks (International Edition) is a series of books written in line with the latest mathematics syllabus as prescribed by the Ministry of Education. It is written to help pupils to understand and strengthen their mathematical concept and problem solving skills. Each chapter is illustrated with a clear and concise explanation and it include many worked examples with detailed step by step solution. Pupils will find this textbook easy to use and understand. It will guide the pupils at a manageable pace to develop their love for math and hence to inject the much needed confidence in them.

◆ The New Syllabus Primary Mathematics (NSPM) series is designed and written based on the latest primary mathematics syllabus. In this series, the concrete to abstract approach is adopted to introduce new concepts. Vivid and stimulating illustrations are used throughout the series to enhance learning. The knowledge base is built incrementally as the pupils progress up the levels so as to consolidate the linkages among mathematical concepts. ◆ The series aims to meet the learning needs of pupils from Primary One to Six. It comprises textbooks and workbooks at each level. Every worksheet in the workbook corresponds to each concept learnt. Textbook 3A comprises 7 chapters. Each chapter comprises the following

sections: Do You Know? Relevant, thought-provoking questions are asked with regard to the real life situation presented at the beginning of each chapter to link Mathematics to daily life. Let's Learn ♦ New concepts are explained in a straightforward and interesting way. Creative and critical thinking, as well as an awareness of problem-solving strategies, are developed through worked examples in this section. Guided examples provide reinforcement and consolidation of the concepts taught. Let's Explore Active participation in exploration of the concepts learnt and creative application of Mathematics to daily life, including IT and hands-on activities, help to develop lifelong learners. Social skills such as effective communication, cooperation and team spirit are encouraged through group and pair work. Let's Think Opportunities are provided to develop higher order thinking skills and proficiency in applying the concepts learnt through non-routine and challenging questions. Let's Try Exercises are provided for pupils to develop their problem solving skills, so that pupils grow into confident and independent learners. Fun with Maths Mathematical concepts are extended beyond the boundaries of the classroom and taken into the realm of games and experiments to further engage and develop pupils' interest in Mathematics.

New Syllabus Mathematics Textbook 1

♦ The New Syllabus Primary Mathematics (NSPM) series is designed and written based on the latest primary mathematics syllabus. In this series, the concrete to abstract approach is adopted to introduce new concepts. Vivid and stimulating illustrations are used throughout the series to enhance learning. The knowledge base is built incrementally as the pupils progress up the levels so as to consolidate the linkages among mathematical concepts. ♦ The series aims to meet the learning needs of pupils from Primary One to Six. Fun with Maths Mathematical concepts are extended beyond the boundaries of the classroom and taken into the realm of games and experiments to further engage and develop pupils' interest in Mathematics.

New Syllabus Primary Mathematics Workbook 4B Part 1

Based on the Primary Mathematics series from Singapore. Designed to equip students with a strong foundation in mathematics and critical thinking skills, the program offers an integrated solution to different learning needs in the classroom.

New Syllabus Primary Mathematics Workbook 3A Part 1

◆ The New Syllabus Primary Mathematics (NSPM) series is designed and written based on the latest primary mathematics syllabus. In this series, the concrete to abstract approach is adopted to introduce new concepts. Vivid and stimulating illustrations are used throughout the series to enhance learning. The knowledge base is built incrementally as the pupils progress up the levels so as to consolidate the linkages among mathematical concepts. ◆ The series aims to meet the learning needs of pupils from Primary One to Six. It comprises textbooks and workbooks at each level. Every worksheet in the workbook corresponds to each concept learnt. Textbook 3A comprises 7 chapters. Each chapter comprises the following sections: Do You Know? Relevant, thought-provoking questions are asked with regard to the real life situation presented at the beginning of each chapter to link Mathematics to daily life. Let's Learn ◆ New concepts are explained in a straight-forward and interesting way. Creative and critical thinking, as well as an awareness of problem-solving strategies, are developed through worked examples in this section. Guided examples provide reinforcement and consolidation of the concepts taught. Let's Explore Active participation in exploration of the concepts learnt and creative application of Mathematics to daily life, including IT and hands-on activities, help to develop lifelong learners. Social skills such as effective communication, cooperation and team spirit are encouraged through group and pair work. Let's Think Opportunities are provided to develop higher order thinking skills and proficiency in applying the concepts learnt through non-routine and challenging questions. Let's Try Exercises are provided for pupils to develop their problem solving skills, so that pupils grow into confident and independent learners. Fun with Maths Mathematical concepts are extended beyond the boundaries of the classroom and taken into the realm of games and experiments to further engage and develop pupils' interest in Mathematics.

New Syllabus Primary Mathematics Workbook 3B Part 2

New Syllabus Primary Mathematics Workbook 1B

New Syllabus Mathematics Workbook (Express) is written in line with the new Singapore-Cambridge GCE O Level Examination and the new initiatives of the Ministry of Education. The workbook consists of exercises which prepare students for their examinations. The more difficult questions are marked with an *. To encourage student-centred learning, the workbook includes non-routine types of worksheets that are classified under the section, Alternative Assessment. These worksheets encourage students to learn independently through carefully-guided steps and the use of IT. Students are motivated to investigate mathematical concepts with various methods and think critically, so that they will understand and appreciate the concepts better. The teacher can gauge the students' learning by assessing the work with the scoring rubric found at the end of the relevant worksheets. The workbook is accompanied with a CD-ROM that contains templates to be used with some worksheets. It is hoped that with the use of various pedagogies, different types of students will be inspired to achieve success in mathematics.

New Syllabus Primary Mathematics Workbook 5A Part 2

The New Syllabus Primary Mathematics (NSPM) series is designed and written based on the latest primary mathematics syllabus. In this series, the concrete to abstract approach is adopted to introduce new concepts. Vivid and stimulating illustrations are used throughout the series to enhance learning. The knowledge base is built incrementally as the pupils progress up the levels so as to consolidate the linkages among mathematical concepts. The series aims to meet the learning needs of pupils from Primary One to Six. It comprises textbooks and workbooks at each level. Every worksheet in the workbook corresponds to each concept learnt. Textbook 3A comprises 7 chapters. Each chapter comprises the following sections: Do You Know? Relevant, thought-provoking questions are asked with regard to the real life situation presented at the beginning of each chapter to link Mathematics to daily life. Let's Learn New concepts are explained in a straight-forward and interesting way. Creative and critical thinking, as well as an awareness of problem-solving strategies, are

developed through worked examples in this section. Guided examples provide reinforcement and consolidation of the concepts taught. Let's Explore Active participation in exploration of the concepts learnt and creative application of Mathematics to daily life, including IT and hands-on activities, help to develop lifelong learners. Social skills such as effective communication, cooperation and team spirit are encouraged through group and pair work. Let's Think Opportunities are provided to develop higher order thinking skills and proficiency in applying the concepts learnt through non-routine and challenging questions.
