To Kill A Mockingbird

"This illustrated dictionary gives the stories behind over 700 everyday trade names, some of them internationally famous, from home medicines to everyday foods and drinks, and from High Street stores and shops to makes and models of cars, trucks and aircraft. An introduction explains how trade names are devised, and examines the linguistic and legal pitfalls of the process. Appendices consider special aspects of trade names creation."--Jacket.

A-Z of Cars of the 1990s

This book discusses housing finance in political terms, thus providing a thorough analysis of the mechanisms and principles

which are at the heart of current policies, and an understanding of the processes within housing finance.

Biotechnology for Improved Foods and Flavors

Modern Automotive Technology details the construction, operation, diagnosis, service, and repair of late-model automobiles and light trucks. This comprehensive text uses a building-block approach that starts with the fundamental principles of system operation and progresses gradually to complex diagnostic and service procedures. Short sentences, concise definitions, and thousands of color illustrations help students learn quickly and easily. The 2000 edition provides thorough coverage of the latest developments in the automotive field, including OBD II diagnostics, enhanced emissions testing, misfire monitoring, air bag systems, anti-lock brakes, and security systems. Organized around the eight ASE automobile test areas, this text is a valuable resource for students preparing for a career in automotive technology, as well as experienced technicians preparing for ASE Certification/Recertification Tests.

What Type Am I?

In today's business world, there is an enormous gap between how leaders are supposed to act versus how they actually act. As a leader, where do you fall on the spectrum? In his debut book, John Slone teaches readers about discovering one's Hidden You and using it to become the best leader possible. Before you can successfully lead others, you must first discover both the physiological and psychological attributes that make you, you. Every leader needs a systematic approach to successfully lead while taking into consideration the complexities of human behavior and the innate survival instincts that are consciously and subconsciously invoked in every human interaction. Only by understanding this can you begin your leadership evolution and embark on a journey toward leadership transcendence.

Reports of H.M. Inspectors of Mines and Quarries

From AC to Yugo, here is an A-Z of the 630-plus cars offered in Britain through the 1990s. For each make there is a brief

historical introduction, followed by individual entries on their models. Each model entry begins with a brief specification giving details of production period, body types, powertrain layout, engine capacities and performance, and then the author provides a description of the model and its features, with comments on its reception in the market and its status today. Every model is illustrated. This new book adds to Herridge & Sons' existing list of A-Zs of Cars ranging from the 1930s to the 1980s. With the beginning of this period now some 25 years behind us, this is an invaluable reference work.

Standard Catalog of Imported Cars, 1946-1990

Annotation. A third volume of essays from various activities and events organized by the Centre for International Borders Research at Queens University of Belfast considers three modes in the analysis of culture and cross-border cooperation--cultures of co-operation, co-operation about culture, and the impact of culture on forms of co-operation--as possible strategies in the comparative social science of European borderlands. The case studies range from Israel's Green Line to Ulster Unionist identity. There is no index. Annotation ©2004 Book News, Inc., Portland, OR (booknews.com).

Welcome to Sugarville

Do you enjoy being the center of attention? Are you more interested in facts and figures than in theories? Do you make to-do lists? Would you rather be truthful or tactful? Do you have a few close friends rather than a wide range of acquaintances? Are you more empathetic and compassionate than logical and rational? These are just a few of the questions about yourself that you can answer with What Type Am I? Based on the classic personality test taken by millions annually, this book will help you to assess your individual preferences in four basic areas: how you relate to the world, take in information, make decisions, and manage your life. Now a family therapist explains this fascinating system in a way that is entertaining and easy to absorb. Renee Baron takes on the complexity of the sixteen personality types and makes them accessible, so you can comprehend them, find your own type, and use the knowledge to enrich your own life. Here is information about individual strengths and weaknesses along with suggestions for personal growth and awareness. Whether you are a duty seeker or an action seeker, a knowledge seeker or an ideal seeker, What Type Am I is insightful, helpful, encouraging, and an eminently useful step in helping you appreciate your strengths and apply them to work, love, and life.

Nissan Bluebird U14

An integrated collection of a dozen of Peter Earl's lively and thought-provoking essays, carefully edited and updated. Theoretical topics include the prediction of corporate behaviour, the economic foundations of marketing and shopping mall design, pricing strategy and its relationship with the existence of second-hand markets, and the microfoundations of macroeconomics. Case studies include co-operation in the car industry, managerialist reforms in New Zealand and the university sector, structural change in the advertising industry and the place of GB Richardson and GLS Shackle in the literature of economics.

Keeping America Sane

"Welcome to Sugarville, a mythical town in the northeast suburbs of Atlanta where the past, the present, and the future collide and residents embark on spiritual journeys to find themselves." In the town of Sugarville, a small suburb outside Atlanta, Georgia, life couldn't be more normal. One man schedules a doctor's appointment, another receives a mysterious package, and another quits his job to prepare for an apocalypse that may or may not come. Ordinary events in ordinary lives, or so it would seem. With each story comes a new layer of intrigue that charms as much as it chills, each "What if?" answered to its fullest and darkest consequence. In "God Helps Those Who Help Themselves," a devastating drought tests the limits of one man's thirst. "The Last Known Believer" follows the Rapture as it goes not quite according to plan. J.J. Haas stuns and delights with his first collected volume of original short stories, relying on a wry wit that explores each sinister twist and turn the human spirit has to offer.

Krause Publications' Standard Catalog series is available by specific marque, in individual volumes or a set. Each book contains in-depth profiles of specific makes by model, factory photos, and up-to-date vehicle pricing. The I-to-conditional pricing system assures readers of accurate values, whether a vehicle is a #1 low-mileage, rust-free beauty or a #6 parts-only heap. "Techs & specs", original factory prices, production and serial numbers, and engine/chassis codes are noted by model, thus helping you determine authenticity accuracy. Historical, technical and pricing information are combined from hundreds of sources. James Flammang values each model according to the popular 1-6 grading system invented by Old Cars magazine.

What would bring a physician to conclude that sterilization is appropriate treatment for the mentally ill and mentally handicapped? Using archival sources, Ian Robert Dowbiggin documents the involvement of both American and Canadian psychiatrists in the eugenics movement of the early twentieth century. He explains why professional men and women committed to helping those less fortunate than themselves arrived at such morally and intellectually dubious conclusions. Psychiatrists at the end of the nineteenth century felt professionally vulnerable, Dowbiggin explains, because they were under intense pressure from state and provincial governments and from other physicians to reform their specialty. Eugenic ideas, which dominated public health policy making, seemed the best vehicle for catching up with the progress of science. Among the prominent psychiatrist-eugenicists Dowbiggin considers are G. Alder Blumer, Charles Kirk Clarke, Thomas Salmon, Clare Hincks, and William Partlow. Tracing psychiatric support for eugenics throughout the interwar years, Dowbiggin pays special attention to the role of psychiatrists in the fierce debates about immigration policy. His examination of psychiatry's unfortunate flirtation with eugenics elucidates how professional groups come to think and act along common lines within specific historical contexts.
