In the last few years, digital SLR cameras have taken the astrophotography world by storm. It is now easier to photograph the stars than ever before! They are compact and portable, flexible to adapt with different lenses and for telescope use, and above all DSLR cameras are easy and enjoyable to use. In this

concise guide, experienced astrophotography expert Michael Covington outlines the simple, enduring basics that will enable you to get started, and help you get the most from your equipment. He covers a wide selection of equipment, simple and advanced projects, technical considerations and image processing techniques. Unlike other astrophotography books, this one focuses specifically on DSLR cameras, not astronomical CCDs, non-DSLR digital cameras, or film. This guide is ideal for astrophotographers who wish to develop their skills using DSLR cameras and as a friendly introduction to amateur astronomers or photographers curious about photographing the night sky.

Dorothy Parker holds a place in history as one of New York's most beloved writers. Now, for the first time in nearly a century, the public is invited to enjoy Mrs. Parker's sharp wit and biting commentary on the Jazz Age hits and flops in this first-ever published collection of her groundbreaking Broadway reviews. Starting when she was twenty-four at Vanity Fair as New York's only female theatre critic, Mrs. Parker reviewed some of the biggest names of the era: the Barrymores, George M. Cohan, W.C. Fields, Helen Hayes, Al Jolson, Eugene O'Neil, Will Rogers, and the Ziegfeld Follies. Her words of praise and contempt for the dramas, comedies, musicals, and revues are just as fresh and funny today as they were in the age of speakeasies and bathtub gin. Annotated with a notes section by Kevin C. Fitzpatrick, president of the Dorothy Parker Society, the volume shares Parker's outspoken opinions of a great era of live theatre in America, from a time before radio, talking pictures, and television decimated attendance. *Dorothy Parker: Complete Broadway, 1918-1923* provides a fascinating glimpse of Broadway in its Golden Era and literary life.

Now he's Melanie's boss, an arrangement that has him firmly pressed between his desires and responsibility. But someone is trying to sabotage operations at the vineyard, putting his plans for Crescent Moon and his hopes for a relationship with Melanie in jeopardy. As Rafael works to solve the mystery of the vineyard saboteur, loyalties will be tested as shadows from the past rise up to be counted, forcing both Melanie and Rafael to choose between that which is given freely and that which can only be hoped for. This book is a study of how dancers throughout the world use Egypt as a reference point for situating themselves within the global belly dance community and how Egypt gets romanticized and fantasized in global narratives about belly dance. I address the purpose that dance serves as an expression of joy in Egyptian culture as well as its potential to be a site for defining appropriate gendered behavior, a space for competition (friendly or unfriendly), and even a tool of resistance as cultural norms shift. I provide a comparative analysis of how dancers in the international dance community utilize dance for similar purposes, particularly those related to using dance as a site for questioning existing social paradigms, as well as the ways in which dance serves different roles for global belly dancers than it does within Egyptian society. All types of dance provide a space outside ordinary life to challenge or to uphold predominant social paradigms. One effect of globalization is the increase in worldwide exposure of local dance forms from many regions. These not only fuse to create new forms but operate alongside one

another in what can be seen as a global marketplace of dance. Different dances are then imbued with values and norms of the receiving culture. Choosing to dance in non-local styles becomes a reflection of a locally value-based choice. This book examines the way globalization via cultural, economic, and technological vehicles affects a culturally rich, values-laden social phenomenon practiced in the Middle East and by an increasing international community. The book has a particular focus on paradigms of gender that are explored in dancing and in community discussions about dance.

Gene Wolfe's BOOK OF THE NEW SUN has been hailed by both critics and readers as quite possibly the best

science fiction novel ever written. And yet at the same time, like another masterpiece of fiction, James Joyce's *Ulysses*, it's been deemed endlessly complex and filled with impenetrable mysteries. Now, however, in the first book-length investigation of Wolfe's literary puzzlebox, Robert Borski takes you inside the twisting corridors of the tetralogy and along the way reveals his solutions to many of the novel's conundrums and riddles, such as who really is Severian's lost twin sister (almost certainly not who you think) and why he believes the novel's main character may not even be the torturer Severian. Furthermore, and in essay after essay, Borski demonstrates how a single master key will unlock many of the book's secret relationships—all in the attempt to guide you through the labyrinth that is Gene Wolfe's *BOOK OF THE NEW SUN*.

Cindy Bentley: *Spirit of a Champion* celebrates the life of one of Wisconsin's most inspirational leaders and activists. Born with an intellectual disability as the result of fetal alcohol syndrome, Cindy Bentley spent much of her childhood at the Southern Wisconsin Center for the Developmentally Disabled. No one expected her to learn the skills necessary to live on her own. To everyone's surprise, including her own, she did that and much more. With the encouragement of a teacher at Southern Center, Cindy realized she had a deep passion for sports, and the discipline to train and compete. She began participating in Special Olympics, and gained confidence as she worked with teammates to earn medals in tennis, track and field,

and even snowshoeing. Chosen as a Global Messenger for the Special Olympics International in 2000, Cindy has had dinner at the White House with two different American presidents, traveled around the world, and given speeches in front of thousands of people. In these pages, young readers will learn what gives Cindy her champion spirit, and why she gave away some of her gold medals. Today, Cindy is still competing in Special Olympics. She also continues to advocate for people with disabilities, and helped to start People First, a statewide organization that encourages those with disabilities to speak up for their rights.
