How could Jesus be both God and man? How can His death forgive my sins and give me eternal life? Where is Jesus now, and what is He doing? Although He never wrote a book, held an office, went to college, raised a family, or did any of the things we usually associate with greatness, after more than two thousand years, Jesus Christ still remains the most influential man of all time. How much do you know about Him—and how well do you know Him? In twelve lessons for individual or group study, Max Anders helps you explore who Jesus was, what He taught and did, and how He relates to your life today. The What You Need to Know Series includes these ten titles: What You Need to Know about God What You Need to Know about Jesus What You Need to Know about the Holy Spirit What You Need to Know about the Bible What You Need to Know about Salvation What You Need to Know about the Church What You Need to Know about Spiritual Growth What You Need to Know about Spiritual Warfare What You Need to Know about Bible Prophecy What You Need to Know about Defending Your Faith

FOX News legal correspondent and former Federal Prosecutor Lis Wiehl has created a suspense series as timely as tomorrow's headlines. While home on break, a seventeen-year-old Senate page takes her dog out for a walk and never returns. The resulting media firestorm quickly ensnares television reporter Cassidy Shaw, Federal Prosecutor Allison Pierce, and FBI Special Agent Nicole Hedges. Together, these life-long friends call themselves The Triple Threat—a nickname derived from their favorite dessert as well as their uncanny ability to crack cases from their three unique positions of power. Together, they must find the one face of betrayal amidst a crowd of growing suspects—including a US Senator—before they become the next victims. Lis Wiehl's expertise in law, politics, and criminal investigation merges with April Henry's narrative genius to create a gripping mystery filled with rich characters, real danger, and a shocking yet satisfying final

twist. "One of top ten best books of year" —Suspense Magazine "[A] sizzling political thriller . . . The seamless plot offers a plethora of twists and turns."
—Publishers Weekly

Face of Betrayal

When *The Culture of Narcissism* was first published, it was clear that Christopher Lasch had identified something important: what was happening to American society in the wake of the decline of the family over the last century. The book quickly became a bestseller. This edition includes a new afterword, "The Culture of Narcissism Revisited."

Suze Orman's Action Plan

Guidebook to walking and trekking the high mountains of Crete. The largest of the Greek Islands, Crete's mountains provide breathtaking walking and wilderness on this popular island. The routes in this guidebook are graded for difficulty and range from short, easy strolls to challenging, multi-day treks, providing options for all walkers. In addition to a wide selection of walks and trekking routes in the White Mountains (Lefka Ori), this book covers Mount Ida in central Crete and the Lassithi Mountains to the east. The guide includes: Western Crete (53 walks in the White Mountains and on the south coast with 10 multi-day treks; Central Crete (17 walks and treks on Mount Ida and in the Psiloritis range); Eastern Crete (12 walks and treks in the Lassithi Mountains) and coverage of the E4 Trail as well as mapping for every route. The book is packed with practical information on walking in Crete, getting there and getting around and advice on making the most out of exploring the island's mountains. With its dramatic gorges and numerous peaks rising to over 2100m, high mountain plains, forested crags, massive cliffs and remote beaches, Crete offers a wide range of landscapes and challenges for walkers.

Philosophical Dissertations

Pressure vessels are closed containers designed to hold gases or liquids at a pressure substantially different from the ambient pressure. They have a variety of applications in industry, including in oil refineries, nuclear reactors, vehicle airbrake reservoirs, and more. The pressure differential with such vessels is dangerous, and due to the risk of accident and fatality around their use, the design, manufacture, operation and inspection of pressure vessels is regulated by engineering authorities and guided by legal codes and standards. *Pressure Vessel Design Manual* is a solutions-focused guide to the many problems and technical challenges involved in the design of pressure vessels to match stringent standards and codes. It brings together otherwise scattered information and explanations into one easy-to-use resource to minimize research and take readers from problem to solution in the most direct manner possible. Covers almost all problems that a working pressure vessel designer can expect to face, with 50+ step-by-step design procedures including a wealth of equations, explanations and data Internationally

recognized, widely referenced and trusted, with 20+ years of use in over 30 countries making it an accepted industry standard guide Now revised with up-to-date ASME, ASCE and API regulatory code information, and dual unit coverage for increased ease of international use

The Program Era

You were born to lead. Now it's time to become a leader. Leaders may be found in boardrooms, but they may also be found in families, schools, and organizations of all kinds—anywhere people interact, nurture, create, or build. Contrary to popular opinion, leadership is not meant for an elite group of people who, by fate or accident, become leaders while everyone else is consigned to being a lifelong follower. After personally training thousands of leaders from around the world, best-selling author Dr. Myles Munroe reports that while every person possesses the potential of leadership, many do not understand how to cultivate the leadership nature and how to apply it to their lives. In *The Spirit of Leadership*, Dr. Munroe defines the unique attitudes that all effective leaders exhibit, explains how to eliminate hindrances to your leadership abilities, and helps you to fulfill your particular calling in life. "a defining portrait of true and effective leadership. On these pages you will discover your purpose, your passion, and your potential to become the leader God has destined you to be." —Pastor John Hagee, Cornerstone Church "[Dr Myles Munroe's] wisdom is to the believer what a phone booth was to Superman! Step into every page and be charged!" —Bishop T. D. Jakes, The Potter's House of Dallas "The world is groaning in travail, waiting for the manifestation of those who will rise up as followers of God and leaders of men. Dr. Myles Munroe will give you invaluable insight in your quest to discover and develop the spirit of a leader." —Pastor Rod Parsley, World Harvest Church "Are you aware that God has ordained you to be a leader? In *The Spirit of Leadership*, Dr. Myles Munroe gives us the key to find the hidden leader within ourselves. I highly recommend this inspired book to all." —Paul F. Crouch, Trinity Broadcasting Network "In *The Spirit of Leadership*, Dr. Myles Munroe taps into the core truths of authentic, successful leadership. Through decades of study and careful observation, Dr. Munroe has identified the key—the missing ingredient that activates the potential to lead found within every human being." —Marilyn Hickey, Marilyn Hickey Ministries

The Culture of Narcissism: American Life in an Age of Diminishing Expectations

In *The Program Era*, Mark McGurl offers a fundamental reinterpretation of postwar American fiction, asserting that it can be properly understood only in relation to the rise of mass higher education and the creative writing program. An engaging and stylishly written examination of an era we thought we knew, *The Program Era*

will be at the center of debates about postwar literature and culture for years to come.

All I Want for Christmas Is a Vampire

This early work by Sigmund Freud was originally published in 1905 and we are now republishing it with a brand new introductory biography. 'Jokes and their Relation to the Unconscious' is a psychological work on the effects on the mind of jokes. Sigismund Schlomo Freud was born on 6th May 1856, in the Moravian town of Příbor, now part of the Czech Republic. He studied a variety of subjects, including philosophy, physiology, and zoology, graduating with an MD in 1881. Freud made a huge and lasting contribution to the field of psychology with many of his methods

still being used in modern psychoanalysis. He inspired much discussion on the wealth of theories he produced and the reactions to his works began a century of great psychological investigation.

Many students today are puzzled by the meaning and purpose of poetry. Poems, Poets, Poetry, Compact Third Edition demystifies the form and introduces students to its artistry and pleasures, using methods that Helen Vendler has successfully used herself over her long, celebrated career. Guided by Vendler's erudite yet down-to-earth approach, students at all levels can benefit from her authoritative instruction. Her blend of recent and canonical poets includes a diverse array of voices represented by a broad selection of poetic forms. Newly offered in a more portable, concise volume (in print and as an e-book), this text engages students in effective ways of reading, writing about, and taking delight in poetry.

In a land where Kings still rule, I am a Princess. You must know me only as Sultana, for I cannot reveal my true name for fear that harm will come to me and my family for what I am about to tell you. Think of a Saudi Arabian princess and what do you see? A woman glittering with jewels, living a life of unbelievable luxury. She has gold, palaces, swimming-pools, servants, designer dresses galore. But in reality she lives in a gilded cage. She has no freedom, no vote, no control over her own life, no value but as a bearer of sons. Hidden behind the veil, she is a prisoner, her jailers her father, her husband, her sons. 'Sultana' is a member of the Saudi royal family, closely related to the King. For the sake of her daughters, she decided that it was time for a woman in her position to speak out about the reality of life for women in her country, whatever their rank. She tells of her own life, from her turbulent childhood to her arranged marriage - a happy one, until her husband decided to take a second wife - and of the lives of her sisters, her friends and her servants. In contrast to the affection and easy camaraderie amongst the women, she relates a history of appalling oppression against them, everyday occurrences that in any other culture would be seen as shocking human rights violations: forced marriages, servants bullied into sex slavery, summary executions. Princess is a testimony to a woman of indomitable spirit and great courage. By speaking out, 'Sultana' risked bringing the wrath of the Saudi establishment upon her head and upon the heads of her children. For this reason, she told her story anonymously.

Written for heads and teachers, this forward-thinking book examines exactly what the relationship between inspection and self-evaluation means for schools and explores some of the underpinning issues, featuring examples of best practice from successful schools. It is full of useful advice on topics such as how schools can juggle ongoing self-evaluation with OFSTED's expectations, how to use web sources to best advantage and what can be learnt from experience to lessen the anxiety in the relationship and make it more of a friendly and formative experience for all parties. Drawing on case studies from primary, secondary and special schools, this all-round overview should be of immediate interest to practitioners while also offering students and aspiring heads and teachers a valuable source of detailed information about the processes of inspection and self-assessment.

Edition A. C. Phillips Computing for Scientists R. J. Barlow and A. R. Barnett Statistical Physics, Second Edition develops a unified treatment of statistical mechanics and thermodynamics, which emphasises the statistical nature of the laws of thermodynamics and the atomic nature of matter. Prominence is given to the Gibbs distribution, leading to a simple treatment of quantum statistics and of chemical reactions. Undergraduate students of physics and related sciences will find this a stimulating account of the basic physics and its applications. Only an elementary knowledge of kinetic theory and atomic physics, as well as the rudiments of quantum theory, are presupposed for an understanding of this book. Statistical Physics, Second Edition features: A fully integrated treatment of thermodynamics and statistical mechanics. A flow diagram allowing topics to be studied in different orders or omitted altogether. Optional "starred" and highlighted sections containing more advanced and specialised material for the more ambitious reader. Sets of problems at the end of each chapter to help student understanding. Hints for solving the problems are given in an Appendix.

The legacies of drug kingpins are both egregious and legendary. Through vast networks of mercenaries, corrupt officials, terrorists, and smugglers, organized drug cartels traffic billions of dollars in heroin, cocaine, MDMA, and methamphetamine across international borders. El Chapo, Pablo Escobar, Frank Lucas, Paul Le Roux, and other kingpins have left indelible marks on the communities they used for drug trafficking, and their far-reaching impact can take years to undo by even the most vigilant law enforcement efforts. This collection

details the breadth of their crimes, and includes media literacy questions and terms that challenge readers to assess how journalistic principles are applied to news coverage of kingpins and narco trafficking.

Just why do humpback whales sing? That's the question that has marine biologist Nate Quinn and his crew poking, charting, recording and photographing very big, wet, gray marine mammals. That is, until the extraordinary day when a whale lifts its tail into the air to display a cryptic message spelled out in foot-high letters: BITE ME. Trouble is, Nate's beginning to wonder if he hasn't spent just a little too much time in the sun. 'Cause no one else saw a thing- not his longtime partner, Clay Demodocus; not their saucy young research assistant; not even the spliff-puffing white-boy Rastaman Kona (ne Preston Applebaum). But later, when a roll of film returns from the lab missing the crucial tail shot- and his research facility is trashed- Nate realizes something very fishy indeed is going on.

Abandon your insecurities. Trust your instincts. Enjoy raising a happy, considerate child. SMART CHILDREARING SENSE FROM THE FOUNDING EDITOR-IN-CHIEF OF BABBLE.COM What's the right way to parent? Any playground or online message board will supply as many opinions as there are adults. Every subject—from sleep training to time-outs to pacifiers—has its supporters and detractors, and every viewpoint can be backed up by a truckload of research and statistics. It's enough to reduce any new parent to tears, but you can end the madness. Ada Calhoun—a young mother as well as the founding editor-in-chief of Babble .com—provides a complete and completely reassuring guide that will calm your fears and make those precious early years a source of joy. Her simple yet profound advice: find what works for you and your family and ditch the anxiety and judgment. Despite what other parenting books—and other parents—might have you believe, there is no universal “best.” Whether you start solids at four months or eight, whether you co-sleep or Ferberize, whether Junior's mac 'n' cheese is Day-Glo orange or 100 percent organic is not nearly as important as providing the few absolute essentials (love, food, shelter) while teaching your little one how to be a kind, responsible human being. With its compelling mixture of entertaining, hilarious firsthand accounts and refreshing common sense, Instinctive Parenting will show you how to do that—and even show you how to retain your sanity, your friends, your sense of humor, and your personal life in the process.

An Ice Cold Grave

The Bush years have given rise to fears of a resurgent Imperial Presidency, but the problem cannot be solved simply by bringing a new administration to power. Both Left and Right agree on the boundless nature of presidential responsibility. For both sides, it is the president's job to grow the economy, teach our children well, save us from hurricanes, and even to spread democracy abroad. In short, the Imperial Presidency is the price we pay for making the office the focus of our national hopes and dreams. Combining historical scholarship, legal analysis, and cultural commentary, *The Cult of the Presidency* argues that the presidency needs to be reined in, with its powers checked by Congress and the courts. Only then will we begin to return the presidency to its proper constitutional role.

The Shooters

“Simple solutions for survival in this family-unfriendly culture...Eye-opening...heart-wrenching and uplifting.”—San Francisco Chronicle Even more resonant today than at its original publication in 1996, *The Shelter of Each Other* traces the effects of our society’s “anti-family” way of life, where parents are overtaxed, children are undersupervised, and technology is rapidly dictating how we interact. As she did in her number-one bestseller *Reviving Ophelia*, Mary Pipher illuminates how our families are suffering at the hands of shifting cultural norms, and she snaps our gaze into crisp focus. Drawing on the fascinating stories of families rich and poor, angry and despairing, religious and skeptical, and probing deep into her own family memories and experiences, Pipher clears a path to the strength and energy at the core of family life. Compassionate and heart-wrenching, *The Shelter of Each Other* is an impassioned call for us to gather our families in our arms and hold on to them for dear life. From the Trade Paperback edition.
