180 Days of Science for First Grade

This unique resource provides scores of easy-to conduct games, activities, and lessons. Students can build skills in nine different athletic areas while gaining an understanding of the basic concepts, rules, and terminology of each particular sport.

McGraw-Hill Education Basic Skills for the GED Test

Cultivate a love for science by providing standards-based practice that captures children's attention. Spectrum Science for grade 8 provides interesting informational text and fascinating facts about the nature of light, the detection of distant planets, and internal combustion engines. When children develop a solid understanding of science, they're preparing for success. Spectrum Science for grades 3-8 improves scientific literacy and inquiry skills through an exciting exploration of natural, earth, life, and applied sciences. With the help of this best-selling series, your young scientist can discover and appreciate the extraordinary world that surrounds them!

A First Course in Physical Science

Prentice Hall Physical Science: Concepts in Action helps students make the important connection between the science they

read and what they experience every day. Relevant content, lively explorations, and a wealth of hands-on activities take students' understanding of science beyond the page and into the world around them. Now includes even more technology, tools and activities to support differentiated instruction!

Physics

Biology

Get the essential skills you need to succeed on the GED! Preparing to take the GED test? Fully updated to reflect the latest test format, this accessible book gives you a solid foundation in the skills you need to pass the GED. All four subjects of the test are covered: Reasoning Through Language Arts (RLA), Social Studies, Science, and Mathematical Reasoning. You'll find practical lessons, practice questions with clear explanations, posttests to assess what you've learned, and more. The book features:

- Fully updated and revised to match the latest test
- Easy-to-follow lessons for all four GED subject areas
- More than 1,000 practice questions with explanations
- Posttests in each subject area to help you assess your new skills

Physical Science, Grades 4 - 6

Life Science for grades 5 to 8 is designed to aid in the review and practice of life science topics. Life Science covers topics such as classifying animals, plant and animal structures, life cycles, biomes, and energy transfer. The book includes realistic diagrams and engaging activities to support practice in all areas of life science. --The 100+ Series science books span grades 5 to 12. The activities in each book reinforce essential science skill practice in the areas of life science, physical science, and Earth science. The books include engaging, grade-appropriate activities and clear thumbnail answer keys. Each book has 128 pages and 100 pages (or more) of reproducible content to help students review and reinforce essential skills in individual science topics. The series is aligned to current science standards.

EI-Hi Textbooks and Serials in Print

Supplement your science curriculum with 180 days of daily practice! This invaluable classroom resource provides teachers with weekly science units that build students' content-area literacy, and are easy to incorporate into the classroom. Students will analyze and evaluate scientific data and scenarios, improve their understanding of science and engineering practices, answer constructed-response questions, and increase their higher-order thinking skills. Each week covers a particular topic within one of three science strands: life science, physical science, and Earth and space science. Aligned to

Next Generation Science Standards (NGSS) and state standards, this resource includes digital materials. Provide students with the skills they need to think like scientists with this essential resource!

General Science, Grades 5 - 8

Modern Physical Science

Language Arts Warm-Ups: Expanding Vocabulary provides students with daily activities to get them warmed up for the lessons ahead and to review lessons learned. Each page features four warm-up activities that can be cut apart and used separately, making it easy to adjust each activity as needed. --Mark Twain Media Publishing Company specializes in providing engaging supplemental books and decorative resources to complement middle- and upper-grade classrooms. Designed by leading educators, this product line covers a range of subjects including math, science, language arts, social studies, history, government, fine arts, and character.

Life Science

Connect students in grades 5–8 with science using General Science: Daily Skill Builders. This 96-page book features two short, reproducible activities per page and includes enough lessons for an entire school year. It provides extra practice with physical, earth, space, and life science skills. Activities allow for differentiated instruction and can be used as warm-ups, homework assignments, and extra practice. The book supports National Science Education Standards.

McGraw-Hill Education Pre-GED, Second Edition

Prentice Hall Physical Science: Concepts in Action helps students make the important connection between the science they read and what they experience every day. Relevant content, lively explorations, and a wealth of hands-on activities take students' understanding of science beyond the page and into the world around them. Now includes even more technology, tools and activities to support differentiated instruction!

Holt Physical Science

Biology for grades 6 to 12 is designed to aid in the review and practice of biology topics such as matter and atoms, cells, classifying animals, genetics, plant and animal structures, human body systems, and ecological relationships. The book includes realistic diagrams and engaging activities to support practice in all areas of biology. The 100+ Series science books span grades 5 to 12. The activities in each book reinforce essential science skill practice in the areas of life science, physical science, and earth science. The books include engaging, grade-appropriate activities and clear thumbnail answer keys. Each book has 128 pages and 100 pages (or more) of reproducible content to help students review and reinforce essential skills in individual science topics. The series is aligned to current science standards.

Strengthening Physical Science Skills for Middle & Upper Grades, Grades 6 - 12

EI-Hi Textbooks in Print

Spectrum Science Test Practice provides the most comprehensive strategies for effective science test preparation! Each book features engaging and comprehensive science content including physical science, earth and space science, and life science. The lessons, perfect for students in grade 8, are presented through a variety of formats and each book includes suggestions for parents and teachers, as well as answer keys, a posttest, and a standards chart. Today, more than ever, students need to be equipped with the essential skills they need for school achievement and for success on proficiency tests. The Spectrum series has been designed to prepare students with these skills and to enhance student achievement. Developed by experts in the field of education, each title in the Spectrum workbook series offers grade-appropriate instruction and reinforcement in an effective sequence for learning success. Perfect for use at home or in school, and a favorite of parents, homeschoolers, and teachers worldwide, Spectrum is the learning partner students need for complete achievement.

Physical Science

Chemistry for grades 9 to 12 is designed to aid in the review and practice of chemistry topics. Chemistry covers topics such as metrics and measurements, matter, atomic structure, bonds, compounds, chemical equations, molarity, and acids and bases. The book includes realistic diagrams and engaging activities to support practice in all areas of chemistry. The 100+ Series science books span grades 5 to 12. The activities in each book reinforce essential science skill practice in the areas of life science, physical science, and earth science. The books include engaging, grade-appropriate activities and clear thumbnail answer keys. Each book has 128 pages and 100 pages (or more) of reproducible content to help students review and reinforce essential skills in individual science topics. The series will be aligned to current science standards.

General Science, Grades 5 - 8

Resources in Education

Christian Home Educators' Curriculum Manual

An all-new version of the bestselling beginner's guide that gives students a solid foundation in basic skills before they embark on formal preparation for the GED test McGraw-Hill Education Basic Skills for the GED Test gives students the tools they need for success on the GED exam. Fully updated to align with the latest test format, this book covers all four subject areas of the GED test—Reasoning Through Language Arts (RLA), Social Studies, Science, and Mathematical Reasoning. Includes hundreds of exercises that help reinforce new skills and multiple-choice tests that let students evaluate their comprehension Features post-tests in each area that evaluate students' new skills, giving them concrete feedback on their progress

Physical Science

McGraw-Hill Education Pre-GED with Downloadable Tests, Second Edition

Get the essential skills you need to succeed on the GED test with this popular study guide and DVD! Preparing to take the GED test? Fully updated to reflect the latest test format, this accessible book-and-DVD set gives you a solid foundation in the skills you need to pass the GED exam. All four subjects of the test are covered: Reasoning Through Language Arts (RLA), Social Studies, Science, and Mathematical Reasoning. You'll find practical lessons, practice questions with clear explanations, and posttests to assess what you've learned. The accompanying DVD includes two interactive, full-length practice tests to help you gauge your progress and hone your skills. This invaluable study guide features:

- Fully updated and revised content to match the latest test
- A DVD with 2 full-length practice tests to sharpen your test-taking skills
- Easy-to-follow lessons for all four GED subject areas
- More than 1,000 practice questions with explanations
- Posttests in each subject area to help you assess what you've learned

Science Test Practice, Grade 8

The Human Body for grades 5 to 8 is designed to aid in the review and practice of life science topics specific to the human body. The Human Body covers topics such as all of the body systems, genetics, and healthful living. The book includes realistic diagrams and engaging activities to support practice about all areas of the human body. The 100+ Series science books span grades 5 to 12. The activities in each book reinforce essential science skill practice in the areas of life science, physical science, and earth science. The books include engaging, grade-appropriate activities and clear thumbnail answer keys. Each book has 128 pages and 100 pages (or more) of reproducible content to help students review and reinforce essential skills in individual science topics. The series is aligned to current science standards.

Language Arts Warm-Ups, Grades 5 - 12

This text provides an understanding of the foundations and structure of physical science by emphasizing science as a search for truth rather than an accumulation of facts. It develops the subject through concrete examples such as inclined planes and levers, speeds and displacements, progressing to consideration of forces and the concept of inertia, and the idea of energy. Similarly, a study of observable chemical reactions advances to the ways in which atoms combine, separate and displace one another, and how observable masses of reactants and products illustrate how the atoms are combining. The fundamental ideas are applied to astronomy, optics, geology, music and the chemical compounds of life processes. The wide variety of end- of-chapter problems and multiple choice questions reinforce comprehension of each topic.

P.E. Teacher's Skill-by-skill Activities Program

Science Spectrum

Data Book of Social Studies Materials and Resources

General Science: Daily Bell Ringers for grades 5 to 8 features daily activities that prepare students for assessment expectations. Aligned to current state standards, this science supplement offers review and additional practice to strengthen skills and improve test performance. --Mark Twain Media Publishing Company specializes in providing engaging supplemental books and decorative resources to complement middle- and upper-grade classrooms. Designed by leading educators, this product line covers a range of subjects including math, science, language arts, social studies, history, government, fine arts, and character.
