Tennessee Civil Procedure

American and English Annotated Cases

Presents the results of the first national field survey of how lawyers use pretrial discovery in practice. Pretrial discovery is a complex set of rules and practices through which the adversaries in a civil dispute are literally allowed to "discover" the facts and legal arguments their opponents plan to use in the trial, with the purpose of improving the speed and quality of justice by reducing the element of trickery and surprise. Dr. Glaser examines the uses, problems, and advantages of discovery. He concludes that it is in wide use in federal civil cases, but that while the procedure has produced more information in some areas, it has failed to bring other improvements favored by its original authors.

Model Rules of Professional Conduct

The North Carolina Rules of Civil Procedure and Evidence includes the North Carolina Rules of Civil Procedure (codified in Chapter 1A of the General Statutes of North Carolina) and the North Carolina Rules of Evidence (codified in Chapter 8C of the General Statutes of North Carolina). Together, the North Carolina Rules of Civil Procedure and Evidence and the companion Annotated Rules of North Carolina form the most comprehensive rules set available in the state.
