Common Mistakes at Proficiency and How to Avoid Them

«This workbook aims at examining and practicing different writing techniques working on different text-types which mostly appear here in the form of articles, letters and brochures. Prior to the proper use of a writing technique, it is important

both to recognize the purpose of the source text and to clarify the predominant function that the text vehicles. With regard to this, a complex but practical analysis is provided by Jakobson's model of communication, which explains communication by means of six factors and related communicative functions».

Advanced Masterclass CAE

The contributions in this volume go beyond the Contemporary Theory of Metaphor complementing it in a number of relevant ways. Some of the papers argue for a more dynamic, interdisciplinary approach to metaphor looking into it from semiotic, psychological and socio-cultural perspectives. Other contributions focus on the crucial role played by metaphor and metonymy in meaning construction at a discourse/textual level. Finally, the volume also includes proposals which revolve around the alleged universal nature of metaphorical mappings and their suitability

to account for grammatical phenomena. The contributions in this volume display an ample gamut of theoretical approaches pointing to the viability of taking a functional-cognitive stance on the analysis of metaphor and metonymy in contrast to a purely cognitive one. This book is structured into three major sections: i) the Contemporary Theory of Metaphor: revisions and recent developments; ii) metaphor and/or metonymy across different discourse/genre types; and iii) the Contemporary Theory of Metaphor: current applications.
