**Stardom**

Addressing one of the key challenges facing doctoral students, *Completing Your Qualitative Dissertation* by Linda Dale Bloomberg and Marie Volpe fills a gap in qualitative literature by offering comprehensive guidance and practical tools for navigating each step in the qualitative dissertation journey, including the planning, research, and writing phases. Blending the conceptual, theoretical, and practical, the book becomes a dissertation in action—a logical and cohesive explanation and illustration of content and process. The Third Edition maintains key features that distinguish its unique approach and has been thoroughly updated and expanded throughout to reflect and address recent developments in the field.

The author traces the relationship between nursing and technology from the 1870s to the present. She argues that while technology has helped shape and intensify persistent dilemmas in nursing, it has also both advanced and impeded the development of the nursing profession.

'A comprehensive, well-written and beautifully organized book on publishing articles in the humanities and social sciences that will help its readers write forward with a first-rate guide as good company.' - Joan Bolker, author of *Writing Your Dissertation in Fifteen Minutes a Day* 'Humorous, direct, authentic a seamless weave of experience, anecdote, and research.' - Kathleen McHugh, professor and director of the UCLA Center for the Study of Women Wendy Laura Belcher's *Writing Your Journal Article in Twelve Weeks: A Guide to Academic Publishing Success* is a revolutionary approach to enabling academic authors to overcome their anxieties and produce the publications that are essential to succeeding in their fields. Each week, readers learn a particular feature of strong articles and work on revising theirs accordingly. At the end of twelve weeks, they send their article to a journal. This invaluable resource is the only guide that focuses specifically on publishing humanities and social science journal articles.

### **MLA Handbook for Writers of Research Papers**

In this valuable handbook, writers learn how to market the potential of a book idea and effectively communicate that potential in a proposal that publishers will read.

## **Securities in the Electronic Age**

In the past stars have been studied as cogs in a mass entertainment industry selling desires and ideologies. But since the 1970s, new approaches have reopened debate, as film and cultural studies try to account for

the active role of the star in producing meanings, pleasures, and identities for a diversity of audiences. Stardom brings together for the first time some of the major writing of the last decade which seeks to understand the phenomenon of stars and stardom. Gathered under four headings - The System, Stars and Society, Performers and Signs, Desire and Politics - these essays represent a range of approaches drawn from film history, sociology, textual analysis, audience research, psychoanalysis, and cultural politics. They raise important issues about the politics of representation and the cultural limitations and possibilities of stars.

Flexibility, specialization, and niche marketing are buzzwords in the business literature these days, yet few realize that it was these elements that helped the United States first emerge as a global manufacturing leader between the Civil War and World War I. The huge mass production-based businesses--steel, oil, and autos--have long been given sole credit for this emergence. In *Endless Novelty*, Philip Scranton boldly recasts the history of this vital episode in the development of American business, known as the nation's second industrial revolution, by considering the crucial impact of trades featuring specialty, not standardized, production. Scranton takes us on a grand tour through American specialty firms and districts, where, for example, we meet printers and jewelry makers in New York and Providence, furniture builders in Grand Rapids, and tool specialists in

Cincinnati. Throughout he highlights the benevolent as well as the strained relationships between workers and proprietors, the lively interactions among entrepreneurs and city leaders, and the personal achievements of industrial engineers like Frederic W. Taylor. Scranton shows that in sectors producing goods such as furniture, jewelry, machine tools, and electrical equipment, firms made goods to order or in batches, and industrial districts and networks flourished, creating millions of jobs. These enterprises relied on flexibility, skilled labor, close interactions with clients, suppliers, and rivals, and opportunistic pricing to generate profit streams. They built interfirm alliances to manage markets and fashioned specialized institutions--trade schools, industrial banks, labor bureaus, and sales consortia. In creating regional synergies and economies of scope and diversity, the approaches of these industrial firms represent the inverse of mass production. Challenging views of company organization that have come to dominate the business world in the United States, *Endless Novelty* will appeal to historians, business leaders, and to anyone curious about the structure of American industry.

The second edition of this book is designed for beginning and experienced authors, for nurses who want to write articles about their practice, and for graduate students in nursing to guide their preparation of papers for both courses and publication. Developing the ability to communicate in writing is an essential outcome of nursing programs, particularly at the graduate level. This book is a widely used resource on all aspects of: writing EBP papers, reporting research for use in practice, disseminating the findings of clinical projects and innovations, and preparing manuscripts for publication. The text includes new content that focuses on the dissemination of information in Evidence-Based Practice (EBP). Varied models of EBP are presented with an emphasis on how to disseminate evidence to different audiences, including how to prepare critical appraisals of research studies with implications for practice, literature reviews and syntheses, and other types of written reports that contribute to EBP.

## **Writing a Proposal for Your Dissertation**

The trend toward Internet-based securities trading, on-line investment advice and direct securities offerings in electronic media has not only revolutionized the securities industry, it has focused tremendous attention on it And the way it is regulated. But until now, there hasn't been a professional-level reference that begins with the electronic media and then fills the reader in on the essential securities framework So that the new media questions are raised in context And The analysis is accessible from many different

angles that consider the big picture. And that systematically examines all of the major regulatory aspects of new electronic media on the financial markets. Complex regulatory guidance is simplified, summarized and integrated. Every chapter is organized around a specific topic area, and considers in turn the SEC, federal, NASAA, state, and other regulatory and self-regulatory issues. And there are extensive footnotes, cross-references and quick pointers to source materials and other professional references.

### **Annual Institute on Proxy Statements, Annual Meetings, and Disclosure Documents**

Securities Practice and Electronic Technology provides complete, practical, hands-on guidance to the legal and regulatory developments spurred by the online revolution. You'll get coverage of the impact on all major securities laws and regulations, plus step-by-step advice on electronic delivery of information to investors, establishing corporate and broker-dealer Web sites, the use of electronic advertising and sales literature, and many other issues. Securities Practice and Electronic Technology provides unique advice and perspective on how to use the Internet, extranets and other new media when dealing with clients. Other topics include: corporate disclosure and capital formation; electronic offering circulars; electronic roadshows; exempt offerings; shareholder communications; creating, developing and maintaining a corporate Web site; informed consent;

overseas investing; security and encryption; alternative trading systems; intellectual property issues; electronic storage requirements under E-Sign; and uniform electronic communications policy.

## Phenomenological Research Methods

The definitive career guide for grad students, adjuncts, post-docs and anyone else eager to get tenure or turn their Ph.D. into their ideal job Each year tens of thousands of students will, after years of hard work and enormous amounts of money, earn their Ph.D. And each year only a small percentage of them will land a job that justifies and rewards their investment. For every comfortably tenured professor or well-paid former academic, there are countless underpaid and overworked adjuncts, and many more who simply give up in frustration. Those who do make it share an important asset that separates them from the pack: they have a plan. They understand exactly what they need to do to set themselves up for success. They know what really moves the needle in academic job searches, how to avoid the all-too-common mistakes that sink so many of their peers, and how to decide when to point their Ph.D. toward other, non-academic options. Karen Kelsky has made it her mission to help readers join the select few who get the most out of their Ph.D. As a former tenured professor and department head who oversaw numerous academic job searches, she knows from experience exactly what gets an academic applicant a job. And as the creator of the popular and widely respected advice site *The Professor is In*, she has helped countless Ph.D.'s turn themselves into stronger applicants and land their dream careers. Now, for the first time ever, Karen has poured all her best advice into a single handy guide that addresses the most important issues facing any Ph.D., including:

-When, where, and what to publish -Writing a foolproof grant application -Cultivating references and crafting the perfect CV -Acing the job talk and campus interview -Avoiding the adjunct trap -Making the leap to nonacademic work, when the time is right The Professor Is In addresses all of these issues, and many more.

### **Completing Your Qualitative Dissertation**

Researching can be a daunting task, but once one learns efficient research techniques and proper format and documentation, the process becomes much easier. This book teaches both these techniques and formats. This user-friendly book continues to be a leading book for teaching research techniques and current practices in research documentation. Spiral-bound, the book is structured to correspond to the step-by-step process of writing research papers, from the initial research to the documentation of sources. Its description of library use illustrates both print and electronic sources, including more than 50 examples of proper documentation. Discussions of computer catalogs, the Internet, and CD-ROM bring readers up to date on the most recent innovations in library research techniques. While stressing the MLA style throughout, the author also discusses APA style in depth, and includes a sample paper in that style. The major chapters contain exercises to reinforce the most important points, and the bibliography serves as a reliable reference source for 24 different fields. Anyone who needs to write and research.

### **Writing for Publication in Nursing, Second Edition**

This user-friendly guide helps students get started on--and complete--a successful doctoral dissertation proposal by accessibly explaining the process and breaking it down into manageable steps. Steven R. Terrell demonstrates how to write each chapter of the proposal, including the problem statement, purpose statement, and research questions and hypotheses; literature review; and detailed plan for data collection and analysis. Of special utility, end-of-chapter exercises serve as building blocks for developing a full draft of an original proposal. Numerous case study examples are drawn from across the social, behavioral, and health science disciplines. Appendices present an exemplary proposal written three ways to encompass quantitative, qualitative, and mixed-methods designs. User-Friendly Features \*"Let's Start Writing" exercises leading up to a complete proposal draft. \*"Do You Understand?" checklists of key terms plus an end-of-book glossary. \*End-of-chapter quizzes with answers. \*Case study examples from education, psychology, health sciences, business, and information systems. \*Sample proposal with three variants of the methods chapter: quantitative, qualitative, and mixed methods.

### **Federal Securities Law Reporter**

### **Securities Law Update**

Americans have always put the past to political ends. The Union laid claim to the Revolution--so did the Confederacy. Civil rights leaders said they were the

true sons of liberty--so did Southern segregationists. This book tells the story of the centuries-long struggle over the meaning of the nation's founding, including the battle waged by the Tea Party, Glenn Beck, Sarah Palin, and evangelical Christians to "take back America." Jill Lepore, Harvard historian and New Yorker staff writer, offers a careful and concerned look at American history according to the far right, from the "rant heard round the world," which launched the Tea Party, to the Texas School Board's adoption of a social-studies curriculum that teaches that the United States was established as a Christian nation. Along the way, she provides rare insight into the eighteenth-century struggle for independence--a history of the Revolution, from the archives. Lepore traces the roots of the far right's reactionary history to the bicentennial in the 1970s, when no one could agree on what story a divided nation should tell about its unruly beginnings. Behind the Tea Party's Revolution, she argues, lies a nostalgic and even heartbreaking yearning for an imagined past--a time less troubled by ambiguity, strife, and uncertainty--a yearning for an America that never was. *The Whites of Their Eyes* reveals that the far right has embraced a narrative about America's founding that is not only a fable but is also, finally, a variety of fundamentalism--anti-intellectual, antihistorical, and dangerously antipluralist. In a new afterword, Lepore addresses both the recent shift in Tea Party rhetoric from the Revolution to the Constitution and the diminished role of scholars as political commentators over the last half century of public debate.
