The Book Every Responsible Gun Owner MUST Read It seems everywhere you turn

these days someone is offering advice on carrying a handgun for self-defense. But Armed--The Essential Guide to Concealed Carry is like nothing you've read before. Authored by Bruce N. Eimer, Ph.D., a noted psychologist with a dedication to teaching skills for staying armed and alive, Armed is the thinking gun owner's bible. This comprehensive volume breaks down not just the tools and tactics, but the mindset and choices a law-abiding citizen must have and make to become self-reliant, alert and legally armed. Inside you'll find: Why going armed is about owning your safety, not just a handgun The true mindset that drives anti-gunners How to avoid the "Hero Syndrome" What rules of engagement lead to justifiable use of force How to deal with the trauma after a shooting incident Practical dry-fire and live-fire drills Weapon retention--keeping a gun grab from happening to you The Force Continuum--how it works and the actions you'll take along its course to survive an attack And much, much more With comprehensive overviews on the gear that works and when it works, less-than-lethal rescue options, and common-sense solutions to everyday personal security problems, Armed--The Essential Guide to Concealed Carry is the one reference book that every truly responsible gun owner must read from cover to cover.

This manual has been written with the Law Enforcement Firearms Instructor in mind. It is an attempt to save the instructor time by furnishing already prepared outlines that cover most of the subject currently taught by and to law enforcement personnel. The purpose of the manual is twofold: First, it can be used by current firearms instructors as a handy reference guide and also as a way of keeping all of the firearms outlines in one simple format. By preparing the manual in this fashion, all of an instructor's outlines are easily accessible should an instructor's class be challenged by the legal system. Secondly, this manual can be used as the text for firearms instructor initial certification classes. Once the new instructor completes the basic certification course, he or she will have a complete set of outlines that can be used for teaching their classes. The first four outlines in this manual (The Role of the Firearms Instructor, Safety Responsibilities, Record Keeping, and

Discipline) are generally used during instructor development classes. The rest of the outlines, while also used in instructor development classes, are also appropriate for basic recruit classes as well as classes that are designed for in-service personnel. The Appendix contains material that can be used as class handouts or made into overheads for class presentations. Some of the courses can be used for general firearms qualification, while others are used for training a specific skill, such as linear and lateral movement or multiple attackers. The manual has been written to take the pain out of the "office work" part of being a firearms instructor and to give the instructor more time to teach.

The previously untold story of the Zenith Trans-Oceanic, the world's most romantic and expensive series of portable radios. Long a companion of kings, presidents,

transoceanic yachtsmen and world explorers, the Trans-Oceanic was also carried into battle by American troops in three wars. Its great popularity in spite of a very high price can be laid at the feet of several generations of armchair travelers who used the shortwave capabilities of the Trans-Oceanic as a window on the world. With access to the Zenith corporate archives and their long experience as radio enthusiasts and writers for both the popular and scholarly press, Professors Bryant and Cones present the engrossing stories of the development and use of the Trans-Oceanic throughout its forty year life. They present a wealth of never-before published photographs, documents and information concerning these fascinating radios, their collection, preservation and restoration.
