FILM " BIOGRAPHY--> Few Hollywood directors had a higher profile in the 1930s than Frank Capra (1897-1991). He served as president of the Academy of Motion Picture Arts and Sciences and of the Screen Directors Guild. He won three Academy Awards as best director and was widely acclaimed as the man most responsible for making Columbia Pictures a success. This popularity was established and sustained by films that spoke to and for the times--It Happened One Night, Mr. Deeds Goes to Town, Meet John Doe, and Mr. Smith Goes to Washington. These replicated the nation's hopes and dreams for a national community. He worked with some of the brightest stars in Hollywood--James Stewart, Clark Gable, Jean Arthur, Gary Cooper, Barbara Stanwyck, Claudette Colbert, Bette Davis, Donna Reed, and Ann-Margret. Capra's interviews express his connection to the national audience and explore his own story. He was a Sicilian immigrant boy who survived rough-and-

tumble beginnings to become Hollywood's most bankable director. In reflecting on his life, almost every one of his films was a parable of acclaim verging on disaster. He spent much of the 1940s in uniform while making films for the War Department. Although Capra was an optimist, World War II and his series of Why We Fight films called his legendary optimism into question. His postwar film *It's a Wonderful Life* (1946) gave an answer to those questions with an astonishing directness Capra never equaled again. In 1971 he published his autobiography, *The Name Above the Title*. Many of the interviews collected here come from this period when, as an elder statesman of motion picture art and history, he reflected on his long career. The interviews portray the Capra legend vividly and demonstrate why the warm relations between Capra and his audiences continue to inspire acclaim and admiration. Leland Poague, a professor of English at Iowa State University, is the editor of *Conversations with Susan Sontag* (University Press of Mississippi). He is the author of *Another Frank Capra* and *The Cinema of Frank Capra: An Approach to Film Comedy*.

Elements of Language

Perspectives on Argument

When one defines "order" as a sorting of priorities, it becomes beautifully clear as to what Foucault is doing here. With virtuoso showmanship, he weaves an intensely complex history of thought. He dips into literature, art, economics and even biology in *The Order of Things*, possibly one of the most significant, yet most overlooked, works of the twentieth century. Eclipsed by his later work on power and discourse, nonetheless it was *The Order of Things* that established Foucault's reputation as an intellectual giant. Pirouetting around the outer edge of language, Foucault unsettles the surface of literary writing. In describing the limitations of our usual taxonomies, he opens the door onto a whole new system of thought, one ripe with what he calls "exotic charm". Intellectual pyrotechnics from the master of critical thinking, this book is crucial reading for those who wish to gain insight into that odd beast called Postmodernism, and a must for any fan of Foucault.
