“In SUBURBAN GRINDHOUSE, Nick Cato becomes the Marcel Proust of trash cinema, resurrecting memories of the kinds of late, lamented, Mom and Pop fleapits in which seeing an anti-social movie with your buddies was a gloriously anti-social act.” — Michael Marano, movie columnist Cemetery Dance Film review books may be a dime a dozen, but how many include the actual experience of witnessing the movie in a theater? Zine editor and online columnist Nick Cato shares his time growing up in seedy NY and NJ theaters, and how these screenings helped to shape opinion of the movies. Whether one of his beloved local theaters in Staten Island, NY, or at a double feature at the infamous 42nd Street in Times Square during its heyday, audiences were always lively and outspoken. Part memoir, part film criticism, SUBURBAN GRINDHOUSE looks at the audiences as much as it is a book about exploitation movies themselves.

We live in an "information age," but information is only useful when it is interpreted by people and applied in the context of their goals and activities. The volume of information to which people have access is growing at an incredible rate, vastly outstripping people's ability to assimilate and manage it. In order to design technologies that better support information work, it is necessary to better understand the details of that work. In this lecture, we review the situations (physical, social and temporal) in which people interact with information. We also discuss how people interact with information in terms of an "information journey," in which people, iteratively, do the following: recognise a need for information, find information, interpret and evaluate that information in the context of their goals, and use the interpretation to support their broader activities. People's information needs may be explicit and clearly articulated but, conversely, may be tacit, exploratory and evolving. Widely used tools supporting information access, such as searching on the Web and in digital libraries, support clearly defined information requirements well, but they provide limited support for other information needs. Most other stages of the information journey are poorly supported at present.

Novel design solutions are unlikely to be purely digital, but to exploit the rich variety of information resources, digital, physical and social, that are available. Theories of information interaction and sensemaking can highlight new design possibilities that augment human capabilities. We review relevant theories and findings for understanding information behaviours, and we review methods for evaluating information working tools, to both assess existing tools and identify requirements for the future. **\*\*2012 Creative Child Magazine Book of the Year Award Winner!\*\*** Yuko-chan and the Daruma Doll, a gorgeous multicultural children's book by author/illustrator Sunny Seki, takes readers on a journey into ancient Japan and the story behind the famous Daruma Doll. Yuko-chan, an adventurous blind orphan, is able to do amazing things. She confronts a burglar in the dead of night, and crosses treacherous mountain passes to deliver food to hungry people. During her travels, Yuko-chan trips and tumbles down a snowy cliff. She discovers a strange thing as she waits for help: her tea gourd,

regardless of how she drops it, always lands right-side-up. The tea has frozen in the bottom of the gourd! Inspired by this, she creates the famous Daruma doll toy, which rights itself when tipped—a true symbol of resilience. Thanks to Yuko-chan's invention, the villagers are able to earn a living and feed themselves by selling the dolls. Yuko-chan never gave up, no matter the obstacles she faced, and the Daruma doll is a charming reminder of the power of perseverance. With text in English and Japanese this book is of special interest to bicultural families.

Everyone knew that Eula May had lost her mind over loving a married man. It was what drove her to kill herself and leave her only daughter, Roberta, in the care of the local mid-wife. So it was no wonder that Roberta became obsessed with Charles Harris the very first time she laid eyes on him. And she was willing to do whatever it took to make sure she was the only woman in his life. So when he is forced to marry her because of her unexpected pregnancy, Roberta feels that she has everything she ever wanted. Women have always come easy to Charles, so he's wondering how he got saddled with a wife he doesn't love, two beautiful children and a longing for something grander. Then he meets the stunning Sara Tate and discovers a love almost as consuming as the one Roberta feels for him. This deadly love triangle will result in deception and murder, leaving a legacy for generations to come.

enough to stop for a minute and say, "Wow, this is a hard act to pull off." Sometimes we're tired, stressed out, and in danger of shutting down and losing our hearts. But if we share the truth of our lives, we can find a better way. Inner Peace for Busy Women will show you how to stop resisting your life and start living in the center of the cyclone, where it's always peaceful. Among other things, in this book you'll learn how to say no without feeling guilty, make peace with the past, be peaceful even in circumstances where happiness is not an option, follow your inner guidance, and be a beautiful mother, sister, aunt, daughter, lover, spouse, and friend—all by being your best, authentic self.

In her new book, award-winning journalist Marci McDonald draws back the curtain on the mysterious world of the right-wing Christian nationalist movement in Canada and its many ties to the Conservative government of Stephen Harper. To most Canadians, the politics of the United States — where fundamentalist Christians wield tremendous power

and culture wars split the country — seem too foreign to ever happen here. But *The Armageddon Factor* shows that the Canadian Christian right — infuriated by the legalization of same-sex marriage and the increasing secularization of society — has been steadily and stealthily building organizations, alliances and contacts that have put them close to the levers of power and put the government of Canada in their debt. Determined to outlaw homosexuality and abortion, and to restore Canada to what they see as its divinely determined destiny to be a nation ruled by Christian laws and precepts, this group of true believers has moved the country far closer to the American mix of politics and religion than most Canadians would ever believe. McDonald's book explores how a web of evangelical far-right Christians have built think-tanks and foundations that play a prominent role in determining policy for the Conservative government of Canada. She shows how Biblical belief has allowed Christians to put dozens of MPs in office and to build a power base across the country, across cultures and even across religions. “What drives that growing Christian nationalist movement is its adherents' conviction that the end times foretold in the book of Revelation are at hand,” writes McDonald. “Braced for an impending apocalypse, they feel impelled to ensure that Canada assumes a unique, scripturally ordained role in the final days before the Second Coming — and little else.” *The Armageddon Factor* shows how the religious right's influence on the Harper government has led to hugely important but little-known changes in everything from foreign policy and the makeup of the courts to funding for scientific research and social

welfare programs like daycare. And the book also shows that the religious influence is here to stay, regardless of which party ends up in government. For those who thought the religious right in Canada was confined to rural areas and the west, this book is an eye-opener, outlining to what extent the corridors of power in Ottawa are now populated by true believers. For anyone who assumed that the American religious right stopped at the border, *The Armageddon Factor* explains how US money and evangelists have infiltrated Canadian politics. This book should be essential reading for Canadians of every religious belief or political stripe. Indeed, *The Armageddon Factor* should persuade every Canadian that, with the growth of such a movement, the future direction of the country is at stake. From the Hardcover edition.

The special problems and opportunities presented by island tourism are major new areas of interest for both tourism academics and professionals, prompting much discussion and debate. This is the first book to focus on how management and organisational issues affect small islands and their tourism industries, and to examine the factors which affect tourism on small islands. International contributors, including practitioners and researchers examine this important topic and discuss a diversity of inter-related themes, including policy areas; public/private sector planning partnerships; product development; marketing; human resource management; and sustainability. These general issues are complemented with case studies which illustrate the application of island management principles. For undergraduates, graduates and professionals in the tourism field, this book is an essential guide to island tourism management.

In this extraordinary work Gilles Deleuze, the most renowned living philosopher in France, reflects on one of the figures of the past who has most influenced his own sweeping reconfiguration of the tasks of philosophy. Deleuze's brilliant text shows how current definitions of philosophy do not apply to Spinoza: a solitary thinker (yet scandalous and hated), he conceived of philosophy as an enterprise of liberation and radical demystification much as did Leibniz or, later Nietzsche. Spinoza confronts the grand philosophical problems that are still current today: the comparative role of ontology (the theory of substance), of epistemology (the theory of ideas), and of political anthropology (the theory of modes, passions, and actions). The goal of this book is to determine the rapport among the univocity of Being in the theory of substance; the production of truth and the genesis of sense in the theory of ideas; and practical joy (or the elimination of the sad passions) and the selective organization of the passions in the theory of modes.

There are times in history that a group of people gather together to make radical changes in their lifestyle. This is a story of one family that desired a better life for their children. They were visionaries. Abdul was an Elder in a Nabetaean city where unrest among the families was running rampant. People were being murdered, homes being robbed, children became missing; he did not want this to come upon his household. A vision was presented to the other families who were like minded. They wanted a chance to have their children grow up in a protected and loving atmosphere. Meetings were held, plans were made, and the journey began. Jerome Corsi's newest opus, *No Greater Valor*, examines the Siege of Bastogne—one of the most heroic victories of WWII—with a focus on the surprising faith of the Americans who fought there. In December of 1944, an outmanned, outgunned, and surrounded US force fought Hitler's overwhelming Panzer divisions to a miraculous standstill at Bastogne. The underdogs had saved the war for the Allies. It was nothing short of miraculous. Corsi's analysis is based on a record of oral histories along with original field maps used by field commanders, battle orders, and other documentation made at the time of the military command. With a perspective gleaned from newspapers, periodicals, and newsreels of the day, Corsi paints a riveting portrait of one of the most important battles in world history.
