This ARW is the third NATO-sponsored workshop on Explosives Detection and Humanitarian Demining. The previous events were • Detection and Destruction of Anti-Personnel Landmines Moscow, 1997 • Explosives Detection and Decontamination of the Environment Prague, 1997. Over the last decade applied research in Humanitarian Demining has made progress to some extent, but according to the tremendous tasks of Demining and the lack of scientific methods for practical detection of explosive devices, research activities are still of the same importance than ever before. Concerning countermeasures against terrorism the detection of explosives is one of the key factors, but the practical applications are not sufficient solved. An international exchange of research results are therefore urgent, to find out the most promising measures for application. The coincidence of this ARW and the terrible disaster of New York and Washington may demonstrate the importance of this task. In consequence the explosive device detection technologies can make a major contribution to collective, family and individual security. In developed countries, these technologies provide a strong deterrent and preventative measure against terrorist threats. In less developed regions, they can improve individual, institutional and state security, lessening the insecurity that motivates many terrorists acts. The elimination of landmine threats is just one of many ways of achieving this. However our attempts to meet the extremely difficult technical challenges posed by landmine and UXO

contamination are inevitably leading us to new technological approaches.

Is going back Robyn's only way forward? American-born Robyn Matthers is going home. With her dad in

hospital, his roadhouse in ruins and the ice hockey team slipping down the league, she needs to take charge. But does she have the strength to do it? Cole Ryan is a hockey player on a personal mission. He's tall, dark, hot and Robyn's noticed! But can she trust her feelings - or his? And what will Cole do when he finds out the truth about her? Robyn returns to Michigan and things aren't quite the same. Her best friend has grown up and is thinking about marriage and babies, the ice hockey team is no longer the lifeblood of the community and her father is engaged! When Robyn's twin cousins drag up past events that hold painful memories for her, she and Cole are forced together. But are either of them ready to start something new? With an ill father, a trailer trash almost step-mom and ex-boyfriend Brad desperate for another chance, does Robyn have time to contemplate a relationship? Does she really want one? And is it physically possible for two people to fall in love in just three days?

This volume originates from the proceedings of a multidisciplinary conference, Techno-Societal 2016 in Maharashtra, India, that brings together faculty members of various engineering colleges to solve Indian regional relevant problems under the guidance of eminent researchers from various reputed organizations. The focus is on technologies that help develop and improve society, in particular on issues such as the betterment of differently abled people, environment impact, livelihood, rural employment,

agriculture, healthcare, energy, transport, sanitation, water, education. This conference aims to help innovators to share their best practices or products developed to solve specific local problems which in turn may help the other researchers to take inspiration to solve problems in their region. On the other hand, technologies proposed by expert researchers may find applications in different regions. This back and forth process for local-global interaction will help in solving local problems by global approach and help in solving global problems by improving local conditions.

This practical guide brings DevOps principles to Salesforce development. It fits together two major movements within the IT world: the movement to Software/Platform as a Service (SaaS/PaaS), and the DevOps movement. While SaaS and PaaS allow

companies to invest in their core competencies rather than maintain their own infrastructure, the goal of DevOps is to optimize the process of delivering software innovation and value. The release of Salesforce DX in late 2017 unlocks the possibility of a true DevOps workflow on Salesforce. But DevOps is new to the Salesforce world and there is not a widespread understanding of its goals and methods, and so adoption of Salesforce DX is still in the early stages. Mastering Salesforce DevOps explains how to build a powerful and comprehensive DevOps workflow for Salesforce—allowing you to finally deploy the world's most innovative platform using the world's most effective and efficient techniques. It addresses the need for a comprehensive guide to DevOps for Salesforce, allowing teams to bring proven practices from the IT world to resolve the hardest problems facing Salesforce developers today. What You Will Learn Improve company performance and software delivery performance using Salesforce DX Translate DevOps concepts into the unique language and practices of Salesforce Understand why and how you can implement Salesforce DX to achieve greater productivity and innovation Enable continuous delivery on Salesforce Build packages and architect code so it can be deployed easily Allow admins to participate in what has traditionally been a developer workflow Know the techniques for reducing the stress and risk of deployment Apply the full range of automated tests that can be used on Salesforce Who This Book Is for Salesforce developers, release managers, and those managing Salesforce development teams who need a guide to DevOps, and DevOps specialists who need to apply familiar

concepts to Salesforce

Taking the Enlightenment and the feminist tradition to which it gave rise as its historical and philosophical coordinates, *Feminism and the Politics of Travel After the Enlightenment* explores the coincidence of feminist vindications and travel in the late eighteenth and nineteenth centuries, the way travel's utopian dimension and feminism's utopian ideals have intermittently fed off each other in productive ways. Travel's gender politics is analyzed in the works of J.-J.

The Roots of Postmodernism

New York Times bestselling author LaVyrle Spencer, “famous for her heartrending slices of Americana,”* is at her best in this sweet, small-town romance about a country music star discovering the true meaning of love Eighteen years ago, Tess McPhail left her tiny hometown of Wintergreen, Missouri for the bright lights of Nashville and never looked back. Now, one of country music’s biggest stars, “Mac” is a hardworking woman with little time for a personal life—until her sister insists she come home to help care for their widowed mother. The welcome Mac receives is less than warm, especially from her former next-door neighbor Kenny Kronek. With a teenage daughter to raise, the handsome divorcé refuses to give Mac the time of day. But when Mac discovers that Kenny’s daughter is a promising country talent, she begins mentoring the girl in the music of love—and opening her own hardened heart to a man who makes her soul sing

Microeconomics, Solutions Manual

"This collection of essays marking the twenty-fifth anniversary of the publication of Michael Omi and Howard Winant's *Racial Formation in the United States* demonstrates the importance and influence of the concept of racial formation. The range of disciplines, discourses, ideas, and ideologies makes for fascinating reading, demonstrating the utility and applicability of racial formation theory to diverse contexts, while at the same time presenting persuasively original extensions and elaborations of it. This is an important book, one that sums up, analyzes, and builds on some of the most important work in racial studies during the past three decades."—George Lipsitz, author of *How Racism Takes Place* "*Racial Formation in the Twenty-First Century* is truly a state-of-the-field anthology, fully worthy of the classic volume it honors—timely, committed, sophisticated, accessible, engaging. The collection will be a boon to anyone wishing to understand the workings of race in the contemporary United States." —Matthew Frye Jacobson, Professor of American Studies, Yale University "This stimulating and lively collection demonstrates the wide-ranging influence and generative power of Omi and Winant's racial formation framework. The contributors are leading scholars in fields ranging from the humanities

and social sciences to legal and policy studies. They extend the framework into new terrain, including non-U.S. settings, gender and sexual relations, and the contemporary warfare state. While acknowledging the pathbreaking nature of Omi and Winant's intervention, the contributors do not hesitate to critique what they see as limitations and omissions. This is a must-read for anyone striving to make sense of tensions and contradictions in racial politics in the U.S. and transnationally."—Evelyn Nakano Glenn, editor of *Shades of Difference: Why Skin Color Matters*

The Monocle Guide to Better Living

Wanted: Dating coach to help hot nerd win back the woman of his dreams Picture this - I'm ready to win back the love of my life, and I'm going big this time. We're talking boom box, sing her name in the rain, let the whole damn neighborhood know I'm good and ready this time around. After all, if you're going to grand gesture the ever-loving hell out of a second chance, you need to pull out all the stops. There's only one little problem. My college girlfriend isn't the one who shows up when I play my "I'll do anything to win you back" tune. The woman who flings open the second-floor window tells me my ex doesn't live here anymore. But she'll help me win her back. Anything for romance, anything for a guy so willing to go big for love. And that's what I want at first. Until I get to know my new "romance coach" and discover she's funny, clever, and keeps me on my toes. And boy, do I ever need that. Now I don't want to win anyone else's heart. I want the woman who's been helping me all along. Trouble is - she thinks I'm in love with someone else, and when we take off on a road trip, everything I think I know about women is about to be unzipped and turned inside out. *Unzipped is a standalone spinoff in the Lucky in Love series of standalones*
