SEO Made Easy

Remember when an optimized website was one that merely didn't take all day to appear? Times have changed. Today, website optimization can spell the difference between enterprise success and failure, and it takes a lot more know-how to achieve success. This book is a comprehensive guide to the tips, techniques, secrets, standards, and methods of website optimization. From increasing site traffic to maximizing leads, from revving up responsiveness to increasing navigability, from prospect retention to closing more sales, the world of 21st century website optimization is explored, exemplified and explained. Website Optimization combines the disciplines of online marketing and site performance tuning to attain the competitive advantage necessary on today's Web. You'll learn how to improve your online marketing with effective paid and natural search engine visibility strategies, strengthened lead creation and conversion to sales methods, and gold-standard ad copywriting guidelines. Plus, your increased site speed, reduced download footprint, improved reliability, and improved navigability will work synergistically with those marketing methods to optimize your site's total effectiveness. In this book for business and IT managers, author Andrew King, president of Website Optimization, LLC, has assembled experts in several key specialties to teach you: Search engine optimization -- addressing best (and worst) practices to improve search engine visibility, including step-by-step keyword optimization guidelines, category and tag cloud creation, and guerilla PR techniques to boost inbound links and improve rankings Pay-per-click optimization -- including ad copywriting guidelines, setting profit-driven goals, calculating and optimizing bids, landing page optimization, and campaign management tips

Optimizing conversion rates -- increasing leads with site landing page guidelines, such as benefit-oriented copy, credibility-based design, value hierarchies, and tips on creating unique selling propositions and slogans Web performance tuning -- optimizing ways to use (X)HTML, CSS, and Ajax to increase speed, reduce your download footprint, and increase reliability Advanced tuning -- including client-side techniques such as on-demand content, progressive enhancement, and inline images to save HTTP requests. Plus server-side tips include improving parallelism, using cache control, browser sniffing, HTTP compression, and URL rewriting to remap links and preserve traffic Web metrics -- illustrating the best metrics and tools to gather details about visitors and measure web conversion and success rates. Covering both search marketing metrics and web performance measures including Pathloss and waterfall graphs Website Optimization not only provides you with a strategy for success, it also offers specific techniques for you and your staff to follow. A profitable website needs to be well designed, current, highly responsive, and optimally persuasive if you're to attract prospects, convert them to buyers, and get them to come back for more. This book describes precisely what you need to accomplish to achieve all of those goals.

Confidential SEO Secrets - Revised and Expanded 2010 Edition

Are you ready to learn Search Engine Optimization (SEO) Secrets the search engines don't want you to know about? Dr. Ty Belknap has been working with computers since 1982 as a network engineer for companies such as Compaq, Hewlett Packard, and Microsoft. He first started optimizing web sites in 1995 (before it was called SEO). In 2002, he broke away from Corporate America and started his first web design and internet marketing company. Since then, he has successfully put over 3,000 keywords onto page one of the search engines for almost 200 different industries. SEO, or Search Engine Optimization, is the art of getting a web site to the top of the search engines. Many people write books about all the changes that have been happening with SEO. They will talk about algorithm changes at Google and Bing, but the basic rules of SEO have not significantly changed in many years. Businesses need a strong presence on the Internet in order to go grow, but what does it really take? True, much of SEO requires an expert, but there are things people can do themselves to help strengthen that presence. Search engine optimization is not optional if you plan on attracting new customers. The days of putting ads in newspapers and magazines are gone (mostly). And why cast a wide net anyway? You never know who will see the ad. SEO, when done right, brings people to you that want and need your products and services. In Timeless SEO Secrets, you will learn how to utilize the power of blogs, domain names, web sites, hosting, and much more to propel your web site to the top of the search engines, Without Knowing How to Code. Find out what the King of the Jungle is in SEO; learn several SEO myths, and much more in this no-fluff eBook. Whether you run a small business, brick and mortar store,

are a web designer, marketer, or entrepreneur, you will benefit from learning these Timeless SEO Secrets. Most businesses have nothing to do with marketing and SEO. Whether you do real estate, plumbing, or retail sales, you can still use these tips to guide your SEO professional, and to check to make sure they are doing their job. Search Engine Optimization (SEO) Secrets

Welcome to Fifty SEO Ideas! SEO, of course, stands for Search Engine Optimization, the art and science of getting your company to the top of Google's free results, for free, using free SEO tips, tools, and techniques. While SEO certainly sounds wonderful, getting your company to the top of Google can seem overwhelming. Why do some companies show up on page one of Google, while others are buried pages deep? What are the technical tips and tricks that propel a product or service to the top of the search engines? And why do so many people talk about SEO yet so few seem to actually know anything concrete about how to get it done? Fifty SEO Ideas aims to make SEO easy by giving you a playbook of simple, practical SEO to-do's. Great cooks like Julia Child taught cooking one recipe at a time, while great coaches like Vince Lombardi taught football one play at a time. Fifty SEO Ideas helps you understand SEO one idea at a time. That said, Fifty SEO Ideas is not a step-by-step guide to SEO! It is an ideabook: a book of ideas, in no particular order. It is meant to spur your own thinking, for you to read a suggestion and say to yourself, "Yes, that's for me!" or "No, that doesn't really apply to my needs." For a systematic step-by-step system of SEO, please refer to my SEO Fitness Workbook on Amazon or my online classes at JM-SEO.org. Fifty SEO Ideas is meant to get your juices flowing, and to break SEO down into easy-to-understand, easy-to-implement doable ideas.

Timeless SEO Secrets

"Search Engine Optimization, also known as SEO, is how people search and find your website on the Internet. SEO is a key growth channel for your business, but the rules of SEO have changed dramatically in recent years. To grow your business in today's economy, you need a strong online presence. But what does that entail exactly? Marketing is no longer about mass-market advertising and outbound sales; it's about capturing demand -- grabbing the attention of people already looking to make a purchase or acquire specific knowledge. To do that, your content needs to be at the top of Internet search results"--Amazon.com.
